SUPPLEMENTARY INFORMATION:**I. Abstract**

The Foreign-Trade Zone Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, for subzone status, production authority, modifications of existing zones, or for waivers. The FTZ Act and Regulations (19 U.S.C. 81b and 81f; 15 CFR 400.21-25, 43(f)) set forth the requirements for applications and other requests to the FTZ Board. The Act and Regulations require that applications for new or modified zones contain information on facilities, financing, operational plans, proposed production operations, need for FTZ authority, and economic impact, where applicable. Any request involving production authority requires specific information on the foreign status components and finished products involved. Applications for production activity can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the customs-tariff related savings that result from zone procedures and the economic

consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and Regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest. The Regulations (15 CFR 400.43(f)) also require specific information for applications requesting waivers by parties impacted by 400.43(d). This information is necessary to assess the likelihood of the proposed activity resulting in a violation of the uniform treatment provisions of the FTZ Act and Regulations.
