ICR status: This ICR is currently scheduled to expire on October 31, 2018. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. EPA did not receive any comments in response to the previously provided public review opportunity issued in the **Federal Register** on May 18, 2018 (83 FR 23274).

Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers the paperwork burden associated with two types of pesticide registration requests made by states, U.S. Territories, or Federal agencies under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), 7 U.S.C. 136a *et seq.*: (1) Emergency exemption requests under FIFRA section 18, which allow for an unregistered use pesticide; and (2) Requests by states to register a pesticide use to meet a special local need (SLN) under FIFRA section 24(c).

FIFRA section 18 allows EPA to grant emergency exemptions to states, U.S. Territories, and Federal agencies to allow an unregistered pesticide for a limited time if EPA determines that emergency conditions exist. FIFRA section 18 requests include unregistered pesticide use exemptions for specific agricultural, public health and quarantine purposes. FIFRA section 24(c) allows EPA to grant permission to a particular state to register additional uses of a federally registered pesticide for distribution and use within that state to meet a SLN.

Respondents/Affected Entities: Pesticides registrants, which may be identified by North American Classification System (NAICS) codes 325320 (pesticide and other agricultural chemical manufacturing), and 9241 (governments that administer environmental quality programs).

Respondent's obligation to respond: Mandatory (FIFRA Sections 3 & 11).

Estimated total number of potential respondents: 283.

Frequency of response: On occasion.

Estimated total burden: 25,753 hours. Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$1,829,103, includes \$0 annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is an overall estimated decrease of 8,422 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This change corresponds with a decrease in the estimated average annual number of submissions that the Agency has projected it might receive in the future, *i.e.*, the projection for the estimated number of annual FIFRA section 18 submissions decreased from 185 to 143 (burden decrease of 4,158 hours), and the projection for the estimated number of annual FIFRA section 24(c) submissions decreased from about 305 to 223 (burden decrease of 4,264 hours). This change is an adjustment.
