DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

Environmental Impact Statement on the Liberty Development and Production Plan in the Beaufort Sea Planning Area

AGENCY: Bureau of Ocean Energy Management (BOEM), Department of the Interior.

ACTION: Notice of Availability of a Record of Decision.

SUMMARY: BOEM is announcing the availability of the Record of Decision for the Final Environmental Impact Statement (FEIS) for the Liberty Development and Production Plan (DPP) in the Beaufort Sea Planning Area. The Record of Decision identifies the Bureau's selected alternative for the Liberty DPP. The Record of Decision and associated information are available on BOEM's website at <https://www.boem.gov/liberty>.

FOR FURTHER INFORMATION CONTACT:

Lauren Boldrick, Project Manager, Bureau of Ocean Energy Management, Alaska OCS Region, 3801 Centerpoint Drive, Suite 500, Anchorage, Alaska 99503, 907-334-5200.

SUPPLEMENTARY INFORMATION: The proposed action would recover and process oil from the Liberty oil field and transport sales-quality oil to market. To accomplish this, Hilcorp Alaska, LLC would construct the Liberty Drilling and Production Island (LDPI) to recover reserves from three Federal leases (OCS-Y-1585, OCS-Y-1650, and OCS-Y-1886) in Foggy Island Bay of the Beaufort Sea. The ocean bottom footprint of the proposed LDPI is approximately 24 acres. Hilcorp would construct a new pipeline linking the LDPI to the Badami Sales Oil Pipeline (Badami pipeline). They would bury the subsea portion (approximately 5.6 miles) of the pipeline along a route

running south from the LDPI to the Alaska coastline west of the Kadleroshilik River. The pipeline would transition to above-ground for approximately 1.5 miles and tie into the existing Badami pipeline. Hilcorp would produce and process oil from the LDPI, transport it through the Badami pipeline to the existing common carrier pipeline system, and from there on to the Trans-Alaska Pipeline System.

After careful consideration, the Department of the Interior (DOI) has selected the Proposed Action (Alternative 1) with additional mitigation measures analyzed in the Liberty DPP FEIS. DOI's selection of the Proposed Action meets the purpose and need as identified in the Liberty DPP FEIS, and reflects an informed decision balancing orderly resource development with protection of the human, marine, and coastal environments. The full text of the mitigation measures which will be included in the project approval are available in the Record of Decision, which is available on BOEM's website at: www.boem.gov/liberty.

Authority: This Notice of Availability is published pursuant to regulations (40 CFR part 1506) implementing the provisions of the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4321 *et seq.*).

Dated: October 19, 2018.

Walter D. Cruickshank,

Acting Director, Bureau of Ocean Energy Management.

[Investigation No. 337-TA-944 (Modification Proceeding)]

Certain Network Devices, Related Software and Components Thereof (I); Institution of Modification Proceeding; Request for Briefing

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to institute a modification proceeding in the above-captioned investigation.

FOR FURTHER INFORMATION CONTACT: Amanda P. Fisherow, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2737. Copies of non-confidential documents filed in connection with this

investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted the investigation on January 27, 2015, based on a complaint filed on behalf of Cisco Systems, Inc. ("Cisco") of San Jose, California. 80 FR 4314-15 (Jan. 27, 2015). The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain network devices, related software and components thereof by reason of infringement of certain claims of U.S. Patent No. 7,162,537 ("the '537 patent"); U.S. Patent No. 8,356,296; U.S. Patent No. 7,290,164 ("the '164 patent"); U.S. Patent No. 7,340,597; U.S. Patent No. 6,741,592 ("the '592 patent"); and U.S. Patent No. 7,200,145, and alleges that an industry in the United States exists as required by subsection (a)(2) of section 337. The complaint named Arista Networks, Inc. ("Arista") of Santa Clara, California as the respondent. A Commission investigative attorney ("OUII") is participating in the investigation.

On June 23, 2016, the Commission found that a Section 337 violation had occurred as to the '537, '592, and '145 patents and therefore issued a limited exclusion order and a cease and desist order against Arista. 81 FR 42375-76 (June 29, 2016).

On August 28, 2018, Cisco filed a petition pursuant to Commission Rule 210.76 to suspend the remedial orders issued in this investigation based on a settlement agreement between Cisco and Arista. Neither Arista nor OUII filed a response.

On September 21, 2018, the Commission extended the time for determining whether to institute the requested proceeding until October 22, 2018.

The Commission has determined that Cisco's request complies with the requirements for institution of a

modification proceeding under Commission Rule 210.76 due to changed circumstances. Accordingly, the Commission has determined to institute a modification proceeding. The Commission sets the target date for completion of the modification proceeding as 90 days after publication of this notice in the **Federal Register**.

The Commission requests that the parties brief the following issue:

1. Given the parties' representations (1) that they have entered into a binding settlement wherein Arista must "maintain the modifications it has made to its current products for sale in the United States," Pet. at 1, Exh. A at 9; and (2) that "Commission Rule 210.76 permits modifications of Commission remedial orders" based on settlement, Pet. at 2, please discuss your position regarding modification of the existing remedial orders to expressly exempt the Arista redesigned products from the scope of the remedial orders.

The parties are requested to brief the discrete issue identified above, with reference to the applicable law. The parties are requested to submit proposed remedial orders, which exempt the redesigned products, for the Commission's consideration.

Written Submissions: The parties to the investigation are requested to file written submissions on the issues identified in this notice. The written submissions and proposed remedial orders must be filed no later than close of business on November 1, 2018. Reply submissions must be filed no later than the close of business on November 8, 2018. Opening submissions are limited to 10 pages exclusive of draft orders. Reply submissions are limited to 7 pages. No further submissions will be permitted unless otherwise ordered by the Commission.

Persons filing written submissions must file the original document electronically on or before the deadlines stated above and submit eight true paper copies to the Office of the Secretary by noon the next day pursuant to section 210.4(f) of the Commission's Rules of Practice and Procedure (19 CFR 2.10.4(f)). Submissions should refer to the investigation number ("Inv. No. 337-TA-944") in a prominent place on the cover page and/or the first page. (See Handbook for Electronic Filing Procedures, http://www.usitc.gov/secretary/fed_reg_notices/rules/handbook_on_electronic_filing.pdf). Persons with questions regarding filing should contact the Secretary (202-205-2000).

Any person desiring to submit a document to the Commission in confidence must request confidential treatment. All such requests should be
