

to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16-4-001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new Natural Gas Act section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to "show good cause why the time limitation should be waived," and should provide justification by reference to factors set forth in Rule 214(d)(1) of the Commission's Rules and Regulations.²

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on November 9, 2018.

Dated: October 19, 2018.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

[Project No. 14883-000]

Tenn-Tom Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 5, 2018, Tenn-Tom Hydro, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Aberdeen Hydropower Project (Aberdeen Project or project) to be located at the U.S. Army Corps of Engineers' (Corps) Aberdeen Lock and Dam on the Tennessee-Tombigbee Waterway, in Monroe County, Mississippi. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A cylindrical intake structure in each of the three existing gated spillways sections, on the eastern end of the dam; (2) four proprietary shaped penstocks with run underneath each of the existing three Corps' spillway gates; (3) four submerged generating units, below each spillway section for a total of twelve units, with a total combined capacity of 4.8 megawatts; (4) a 50-foot-long, 50-foot-wide control building with switchyard on the dam's east abutment; (5) a 0.8 mile-long transmission line. The proposed project would have an estimated average annual generation of 32,000 megawatt-hours, and operate run-of-river utilizing surplus water from the Aberdeen Lock & Dam, as directed by the Corps.

Applicant Contact: Mr. Jeremy Wells, Wells Engineering, LLC, 101 Yearwood Drive, Macon, Georgia 31206; phone: (478) 238-3054.

FERC Contact: Michael Spencer, (202) 502-6093, michael.spencer@ferc.gov

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P-14883-000.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14883) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: October 19, 2018.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
