circular welded non-alloy steel pipe from Mexico for the POR.² Commerce received a timely request from Wheatland Tube (the petitioner), in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(b), to conduct an administrative review of this antidumping duty order with respect to 25 companies.³ No other party submitted a request for administrative review.

comment on this memorandum, but did not receive any comments.

Rescission of Administrative Review

It is Commerce's practice to rescind an administrative review pursuant to 19 CFR 351.213(d)(3) when there are no entries of subject merchandise during the POR subject to AD/CVD duties and for which liquidation is suspended.²¹ At the end of the administrative review, the suspended entries are liquidated at the assessment rate computed for the review period.²² Therefore, for an administrative review to be conducted, there must be a reviewable, suspended entry to be liquidated at the newly calculated assessment rate. Because the CBP data showed that there are no suspended entries of subject merchandise from any of the companies subject to this review upon which to assess duties, we are rescinding this review of the antidumping duty order on certain circular welded non-alloy steel pipe from Mexico for the period of review (POR) November 1, 2016, through October 31, 2017, in its entirety, pursuant to 19 CFR 351.213(d)(3).

Notification Regarding Administrative Protective Orders

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Interested parties are invited to comment on this preliminary determination.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on June 18, 2018.¹ On August 1, 2018, Commerce postponed the preliminary determination of this investigation until October 19, 2018.² For a complete description of the events that followed the initiation of this investigation, see the Preliminary Decision

Memorandum.³ A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and is available to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Investigation

The products covered by this investigation are steel propane cylinders from China. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

In accordance with the preamble to Commerce’s regulations,⁴ the Initiation Notice set aside a period of time for parties to raise issues regarding product coverage, (*i.e.*, scope).⁵ Certain interested parties commented on the scope of the investigation as it appeared in the Initiation Notice. Commerce intends to issue its preliminary decision regarding comments concerning the scope of the AD and CVD investigations in the preliminary determination of the companion AD investigation.

Methodology

Commerce is conducting this investigation in accordance with section 701 of the Act. For each of the subsidy programs found countervailable, we preliminarily determines that there is a subsidy, *i.e.*, a financial contribution by an “authority” that gives rise to a benefit to the recipient, and that the subsidy is specific.⁶ In making these findings, we relied, in part, on facts available and, because we find that one or more producers and exporters did not

act to the best of their ability to respond our requests for information, we drew an adverse inference where appropriate in selecting from among the facts otherwise available.⁷ For further information, see “Use of Facts Otherwise Available and Adverse Inferences” in the Preliminary Decision Memorandum.

Alignment

As noted in the Preliminary Decision Memorandum, in accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), Commerce is aligning the final countervailing duty (CVD) determination in this investigation with the final determination in the companion antidumping duty (AD) investigation of steel propane cylinders from China based on a request made by the petitioners.⁸ Consequently, the final CVD determination will be issued on the same date as the final AD determination, which is currently scheduled to be issued no later than March 4, 2019, unless postponed.⁹

All-Others Rate

Sections 703(d) and 705(c)(5)(A) of the Act provide that in the preliminary determination, Commerce shall determine an estimated all-others rate for companies not individually examined. This rate shall be an amount equal to the weighted average of the estimated subsidy rates established for those companies individually examined, excluding any zero and *de minimis* rates and any rates based entirely under section 776 of the Act.

In this investigation, Commerce preliminarily assigned a rate based entirely on facts available to TPA Metals and Machinery (SZ) Co. Ltd. (TPA Metals). Therefore, the only rate that is not zero, *de minimis* or based entirely on facts otherwise available is the rate calculated for Shandong Huanri Group Co. Ltd. (Huanri). Consequently, the rate calculated for Huanri is also assigned as the rate for all-other producers and exporters.

Preliminary Determination

Commerce preliminarily determines that the following estimated countervailable subsidy rates exist:
