Appendix (Pub. L. 92-463). The

NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications and cybersecurity policy.

Agenda: The committee will meet in an open session on November 14, 2018, and receive remarks from Department of Homeland Security (DHS) leadership and other senior Government officials regarding the Government's current cybersecurity initiatives and NS/EP priorities. The meeting will include a keynote address. NSTAC members will also deliberate and vote on the *NSTAC Report to the President on a Cybersecurity Moonshot*. The goal of this study is to examine and expedite progress against the nation's critical cybersecurity challenges. The committee examined various approaches to a cybersecurity Moonshot and developed recommendations that steer the Administration towards a shared, strategic vision and an ambitious, outcome-focused cybersecurity end-goal. Additionally, NSTAC members will receive a status update on the *Advancing Resiliency and Fostering Innovation in the ICT Ecosystem* study, which is examining technology capabilities that are critical to NS/EP functions in the evolving ICT ecosystem and Government measures and policy actions to manage near term risks, support innovation, and enhance vendor diversity for NS/EP-critical capabilities.

The committee will also meet in a closed session from 10:00 a.m. to 12:00 p.m. to receive a classified briefing regarding cybersecurity threats.

Basis for Closure: In accordance with 5 U.S.C. 552b(c)(1)(A) and (9)(B), *The Government in the Sunshine Act*, it has been determined that one agenda item requires closure, as the disclosure of the information discussed would not be in the public interest.

The classified briefing and discussion will provide members with a cybersecurity threat briefing on vulnerabilities related to the communications infrastructure. Disclosure of these threats would provide criminals who seek to compromise commercial and Government networks with information

on potential vulnerabilities and mitigation techniques, weakening the Nation's cybersecurity posture. This briefing will be at the classified top secret/sensitive compartmented information level, thereby exempting disclosure of the content by statute. Therefore, this portion of the meeting is required to be closed pursuant to 5 U.S.C. 552b(c)(1)(A) & (9)(B).

Dated: October 19, 2018.

Helen Jackson,

Designated Federal Officer for the NSTAC.
