[Docket No. CP19-4-000]

National Fuel Gas Supply Corporation; Notice of Request Under Blanket Authorization

Take notice that on October 11, 2018, National Fuel Gas Supply Corporation (National Fuel), 6363 Main Street, Williamsville, New York 14221, filed in Docket No. CP19-4-000, a Prior Notice Request pursuant to sections 157.205 and 157.216 of the Commission's regulations under the Natural Gas Act (NGA), and National Fuel's blanket certificate issued in Docket No. CP83-4-000, requesting authorization to plug and abandon one injection/withdrawal (I/W) well (Zoar Well 804-I) and abandon in place approximately 212 feet of 4-inch-diameter associated well line (AW 804) in the Zoar Storage Field located in Erie County, New York. National Fuel states elevated levels of corrosion were found in the production casing of Zoar Well 804-I during evaluations and rehabilitation would be cost prohibitive due to the well's configuration and historically low volume deliverability, all as more fully described in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this prior notice should be directed to Alice A. Curtiss, Deputy General Counsel, National Fuel Gas Supply Corporation, 6363 Main Street, Williamsville, New York 14221, by telephone at (716) 857-7075, by fax at (716) 857-7206, or by email at curtissa@natfuel.com or Matthew J. Luzi, Regulatory Analyst II, National Fuel Gas Supply Corporation, 6363 Main Street, Williamsville, New York 14221, by telephone (716) 857-7813, by fax (716) 857-7206, or by email at luzim@natfuel.com.

Any person or the Commission's staff may, within 60 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to section 157.205 of the regulations under the NGA (18 CFR 157.205), a protest to the

request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the allowed time for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Dated: October 22, 2018.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. AD19-4-000]

Panel Member List for Hydropower Licensing Study Dispute Resolution; Notice Requesting Applications for Panel Members for Hydropower Licensing Study Dispute Resolution

This notice requests applications from those interested in being listed as potential panel members to assist in the Federal Energy Regulatory Commission's (Commission) study dispute resolution process for the integrated licensing process (ILP) of hydropower projects.

Background

The Commission's ILP regulations pertaining to hydroelectric licensing under the Federal Power Act encourages informal resolution of study disagreements. In cases where this is not successful, a formal study dispute resolution process is available for state and federal agencies or Indian tribes with mandatory conditioning authority.¹

The ILP provides that the disputed study must be submitted to a dispute resolution panel consisting of a person from Commission staff, a person from the agency or Indian tribe referring the dispute to the Commission, and a third person selected by the other two panelists from a pre-established list of persons with expertise in the disputed resource area.² The third panel member (TPM) will serve without compensation, except for certain allowable travel expenses to be borne by the Commission (41 CFR part 301).

The role of the panel members is to make a finding, with respect to each disputed study request, on the extent to which each study criteria set forth in the regulations is or is not met,³ and why. The panel will then make a recommendation to the Director of the Office of Energy Projects based on the panel's findings.

¹ See 5.14 of the final rule at <https://www.ferc.gov/industries/hydropower/indus-act/order-2002.asp>.

² These persons must not be otherwise involved with the proceeding.

³ See 5.9 of the final rule.
