4. Pursuant to section 1762 of the Export Control Reform Act of 2018 (Title XVII, Subtitle B of Pub. L. 115–232), which was included in the John S. McCain National Defense Authorization Act for Fiscal Year 2019, this action is exempt from the Administrative Procedure Act (APA) (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date.

5. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by the APA or any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C.

SUPPLEMENTARY INFORMATION:**I. Authorization of Revisions to North Dakota's Hazardous Waste Program and Clarification**

North Dakota submitted a final complete program revision application on September 20, 2016, and March 24, 2017, seeking authorization of their changes in accordance with 40 CFR 271.21. We now make a final decision that North Dakota's hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. For a list of rules that become effective with this final rule, please see the proposed rule published in the June 5, 2018 **Federal Register** at 83 FR 25986. The EPA is making one clarification to the proposed rule with respect to the impact of the vacatur of certain provisions of the Revisions to the Definition of Solid Waste (DSW) Rule published on January 13, 2015 (80 FR 1694), by the U.S. Court of Appeals for the District of Columbia Circuit, *Am. Petroleum Inst. v. EPA*, 862 F.3d 50 (D.C. Cir. 2017) and *Am. Petroleum Inst. v. EPA*, No. 09–1038 (D.C. Cir. Mar. 6, 2018). On May 30, 2018 (83 FR 24664; Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule), the EPA published a final which determined that for states such as North Dakota that had adopted the 2015 DSW rule, those state provisions will be considered broader in scope than the federal program as it pertains to the specific vacated provisions.

II. Incorporation by Reference

In the proposed rule published on June 5, 2018 (83 FR 25986), the EPA also proposed to codify the EPA's authorization of North Dakota's base hazardous waste management program and the state's revisions to that program. In this action, the EPA is amending 40 CFR 272.1751 to incorporate by reference North Dakota's authorized hazardous waste statutes and regulations. In accordance with the requirements of 1 CFR 51.5, the EPA is incorporating by reference North Dakota's authorized hazardous waste statutes and regulations as described in Section I, above. The EPA has made, and will continue to make, these materials generally available electronically through <http://www.regulations.gov> and in hard copy at the appropriate EPA office (see the

ADDRESSES section of this preamble for more information). Copies of the regulations that are incorporated by reference are also available from the North Dakota Department of Health (NDDH) from 9:00 a.m. to 4:00 p.m., 918 East Divide Avenue, 3rd Floor, Bismarck, North Dakota 58501–1947, phone number (701) 328–5166. The public is advised to call in advance to verify business hours.

Section 272.1751 also references material which is not being incorporated by reference, but which the EPA considered in determining the adequacy of North Dakota's program. Section 272.1751(c)(2) references the demonstration of adequate authority, including procedural and enforcement provisions, which provides the legal basis for the state's implementation of the hazardous waste management program. In addition, § 272.1751(c)(5), (c)(6), and (c)(7) reference the Memorandum of Agreement, the Attorney General's Statements, and the Program Description, respectively. These documents are evaluated as part of the approval process of the hazardous waste management program in accordance with subtitle C of RCRA but are not part of the material to be incorporated by reference. The public is reminded that some provisions of North Dakota's hazardous waste program are not part of the federally-authorized state program. These non-authorized provisions include:

1. Provisions that are not part of the RCRA subtitle C program because they are “broader in scope” than RCRA subtitle C (see 40 CFR 271.1(i));
2. Federal rules for which North Dakota is not authorized, but which have been incorporated into the state regulations because of the way the state adopted federal regulations by reference;
3. State procedural and enforcement authorities which are necessary to establish the ability of the state's program to enforce compliance, but which do not supplant the federal statutory enforcement and procedural authorities.
4. Federal rules which North Dakota adopted, but which were vacated by the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 09–1038, rulings dated July 7, 2017, and March 6, 2018).

State provisions that are “broader in scope” than the federal program are not incorporated by reference in 40 CFR part 272. For reference and clarity, the EPA lists in 40 CFR 272.1751(c)(3) the North Dakota statutory provisions that are “broader in scope” than the federal program, and which are not part of the

authorized program being incorporated by reference. While “broader in scope” provisions are not part of the authorized program and cannot be enforced by the EPA, the state may enforce such provisions under state law.

North Dakota has adopted, but is not authorized for, the federal rules published in the **Federal Register** on April 12, 1996 (61 FR 16290); October 22, 1998 (63 FR 56710), and January 8, 2010 (75 FR 1235). Therefore, these federal amendments included in North Dakota's adoption by reference at section 33–24–06–16.5 of the North Dakota Administrative Code, are not part of the state's authorized program and are not part of the incorporation by reference. The June 5, 2018 proposed rule provides details about state provisions which are not part of this amendment to the CFR, as well as the effect of North Dakota's codification on enforcement and on federal requirements promulgated under the Hazardous and Solid Waste Amendments of 1984 (HSWA).

III. Administrative Requirements

The Office of Management and Budget (OMB) has exempted this action from the requirements of Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011). This action authorizes and codifies state requirements for the purpose of RCRA section 3006 and imposes no additional requirements beyond those imposed by state law. Therefore, this action is not subject to review by OMB. This action is not subject to Executive Order 13771 (82 FR 9339, February 3, 2017) because today's authorization and codification of North Dakota's revised hazardous waste program under RCRA is exempted under Executive Order 12866. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this action authorizes and codifies pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538). For the same reason, this action also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action will not have substantial direct effects on the states, on the relationship between the national

government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely authorizes and codifies state requirements as part of the state RCRA hazardous waste program without altering the relationship or the distribution of power and responsibilities established by RCRA.

This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant, and it does not make decisions based on environmental health or safety risks. This action is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001), because it is not a significant regulatory action under Executive Order 12866.

Under RCRA 3006(b), the EPA grants a state’s application for authorization as long as the state meets the criteria required by RCRA. It would thus be inconsistent with applicable law for the EPA, when it reviews a state authorization application, to require the use of any particular voluntary consensus standard in place of another standard that otherwise satisfies the requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this action, the EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation and provide a clear legal standard for affected conduct. The EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the action in accordance with the “Attorney General’s Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings” issued under the executive order. This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). “Burden” is defined at 5 CFR 1320.3(b).

Executive Order 12898 (59 FR 7629, February 16, 1994) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high

and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States. Because this rule authorizes and codifies pre-existing state rules which are at least equivalent to, and no less stringent than existing federal requirements, and imposes no additional requirements beyond those imposed by state law, and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898.

The Congressional Review Act, 5 U.S.C. 801–808, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2). This action will be effective October 30, 2018.

The EPA will continue to implement the federal HSWA requirements for which North Dakota is not authorized until the state receives specific authorization for those requirements.

(ii) The following federal rules are not delegable to states. North Dakota has adopted these provisions and left the authority to the EPA for implementation and enforcement: Imports and Exports of Hazardous Waste: Implementation of OECD Council Decision C(92)39 Concerning the Control of Transfrontier Movements of Wastes Destined for Recovery Operations, published April 12, 1996; and Revisions to the Requirements for: Transboundary Shipments of Hazardous Wastes Between OECD Member Countries, Export Shipments of Spent Lead-Acid Batteries, Submitting Exception Reports for Export Shipments of Hazardous Wastes, and Imports of Hazardous Wastes, published January 8, 2010.

Mar. 6, 2018) (vacating both the Factor 4 Legitimacy Test and the Verified Recycler Exclusion aspects of the 2015 DSW Rule): One criterion in the determination of whether recycling is legitimate at 40 CFR 260.43(a)(4); the verified recycler exclusion, which allowed generators to send their hazardous secondary materials to certain reclaimers at 40 CFR 261.4(a)(24); and the associated provisions at 40 CFR 260.30(d) and 260.31(d), which address the criteria in the variance determination for exceptions to the classification of hazardous secondary materials as a solid waste. As a result, those state provisions will be considered broader in scope than the federal program, as it pertains to the specific vacated provisions, and are listed in § 272.1751(c)(3)(iii) with the rest of North Dakota’s broader in scope regulatory provisions).

(5) *Memorandum of Agreement.* The Memorandum of Agreement between the EPA Region 8 and the State of North Dakota, signed by the Environmental Health Section of the North Dakota Department of Health on July 18, 2016, although not incorporated by reference, is referenced as part of the authorized hazardous waste management program under subtitle C of RCRA, 42 U.S.C. 6921 *et seq.*
