¹⁰ The average number of responses per respondent were calculated by dividing the total number of responses (Column 3) in each category by the number of responses (Column 1).

¹¹ The estimated hourly cost (salary plus benefits) provided in this section is based on the salary figures (http://www.bls.gov/oes/current/naics2_22.htm) and benefits (<http://www.bls.gov/news.release/ecec.nr0.htm>) for May 2017 posted by the Bureau of Labor Statistics for the Utilities sector. The hourly estimates for salary plus benefits are:

Petroleum Engineer (Occupation Code: 17-2171), \$71.62

Computer Systems Analyst (Occupation Code: 15-1121), \$67.82

Legal (Occupation Code: 23-0000), \$143.68

The average hourly cost (salary plus benefits) is calculated weighting each of the aforementioned wage categories as follows: \$71.62 (0.3) + \$143.68 (0.3) + \$67.82 (0.15) + \$71.98 (0.25) = \$92.76. The Commission rounds it to \$93/hour.
