Public Hearing. The public hearing on November 14, 2018 will begin at 1:30 p.m. Hearing items subject to the Commission's review will include draft dockets for withdrawals, discharges, and other projects that could have a substantial effect on the basin's water resources.

The list of projects scheduled for hearing, including project descriptions, will be posted on the Commission's website, www.drbc.gov, in a long form of this notice at least ten days before the hearing date.

Written comments on matters scheduled for hearing on November 14 will be accepted through 5 p.m. on November 19.

The public is advised to check the Commission's website periodically prior to the hearing date, as items scheduled for hearing may be postponed if additional time is deemed necessary to complete the Commission's review, and items may be added up to ten days prior to the hearing date. In reviewing docket descriptions, the public is also asked to be aware that project details commonly change in the course of the Commission's review, which is ongoing.

Public Meeting. The public business meeting on December 12, 2018 will

begin at 10:30 a.m. and will include: Adoption of the Minutes of the Commission's September 13, 2018 Business Meeting, announcements of upcoming meetings and events, a report on hydrologic conditions, reports by the Executive Director and the Commission's General Counsel, and consideration of any items for which a hearing has been completed or is not required.

Title of Collection: A Study of Reliability and Consequential Validity of a Mathematics Diagnostic Assessment System in Georgia.

OMB Control Number: 1850-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 44.

Total Estimated Number of Annual Burden Hours: 606.

Abstract: Several school districts in Georgia (including Forsyth and Jefferson Counties) currently use the Individual Knowledge Assessment of Number (IKAN; New Zealand Ministry of Education, 2011) and the Global Strategy Stage (GloSS; New Zealand Ministry of Education, 2012) as part of a diagnostic assessment system within

their multi-tiered systems of support. The IKAN and GloSS assessments were designed for use in Grades K-8 (GaDOE, 2015).

IKAN provides information on students' number knowledge (that is, magnitude comparisons, knowledge of base 10 system and meaning of decimals and fractions), and the GloSS provides information on strategies students use when solving mathematical problems. When used together, the IKAN and GloSS assessments furnish teachers with information on how students solve mathematics problems and students' understanding of whole and rational number concepts. Teachers can then use the information from the assessments to tailor their instruction to students' levels of understanding and address problems that underlie lack of success with grade-level curriculum.

The Georgia Department of Education (GaDOE) has received positive feedback through testimonials from district-level personnel and math coaches supporting the use of IKAN/GloSS. Yet, very limited psychometric data exists to support the use of these measures. GaDOE has not conducted reliability or validity studies using its student population. While many studies have been conducted in New Zealand by the Ministry of Education, participating Georgia school districts and the GaDOE are interested in psychometric data using teachers and students in their state in the context of their state system of standards, assessments, and accountability. Thus, through the Improving Mathematics Research Alliance, the GaDOE requested REL Southeast conduct a study to determine the reliability and validity of the IKAN/GloSS diagnostic assessments.

The three research questions guiding the project relate to the inter-assessor reliability of the GloSS and IKAN assessments when administered by two assessors within a one-week period and the consequential validity of using IKAN and GloSS diagnostic assessments (that is, teachers' perception of their instructional utility for providing intervention).

Student data from the IKAN and GloSS assessments administered by teachers and mathematics coaches will be used to answer the two research questions related to the inter-assessor reliability studies.

Dated: October 25, 2018.

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer, Office of Management.
