*Abstract:* This notice pertains to the collection of information that enables the BLM to administer its program for wild horses and burros in compliance

with the Wild Free-Roaming Horses and Burros Act (16 U.S.C. 1331-1340). In addition to seeking renewal of control number 1004-0042, the BLM requests revision of an existing information-collection activity and form, and requests the addition of an information-collection form that has been in use without a control number.

OMB has approved Form 4710-10 and its information-collection activity previously with the title, "Application for Adoption of Wild Horse(s) or Burro(s)." The BLM proposes that the information-collection activity and form be revised to enable both adoptions and purchases of wild horses or burros, as authorized by 43 U.S.C. 1333(d) and (e). The revised form that includes sales is titled, "Application for Adoption & Sale of Wild Horses and Burros."

The form that has been in use without a control number is Form 4710-24, "BLM Facility Requirement Form" for use by individuals and non-governmental organizations that participate along with the BLM in joint training programs to increase the number of trained animals available for adoption or purchase.

**SUPPLEMENTARY INFORMATION:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C) (NEPA), and the terms of a Settlement Agreement approved by the U.S. District Court for the Northern District of California on July 14, 2017 (*Resource Renewal Institute et al., v. National Park Service*, Case No. 16-cv-00688-SBA (KAW) (N.D. Cal.)) (Agreement), the NPS is preparing an EIS for lands currently leased for ranching within Point Reyes National Seashore and the north district of Golden Gate National Recreation Area (planning area). In preparing the EIS, the NPS will follow all applicable laws and policies and will comply with the terms of the Agreement. The Agreement requires the EIS to address the statutory elements for General Management Plans, unless inapplicable, and to consider three specific alternatives. The EIS will amend the 1980 GMP for the planning area.

This notice also terminates the GMP EIS process for Point Reyes National Seashore initiated by the NPS on October 14, 1997 (62 FR 53336), updated on May 24, 1999 (64 FR 28008), and expanded to include the north district of Golden Gate National Recreation Area lands on February 3, 2000 (65 FR 5365-5366).

#### Background

Legislation authorizing the establishment of Point Reyes National Seashore (Point Reyes or Seashore) was enacted in 1962 (16 U.S.C. 459c) for the purpose of preserving “a portion of the diminishing seashore of the United States that remains undeveloped.” The Seashore includes more than 71,000 acres of beaches, coastal cliffs and headlands, marine terraces, coastal uplands, forests, and includes all tide and submerged lands to 0.25 miles

offshore. The Seashore administers an additional 15,000 acres of the north district of Golden Gate National Recreation Area (Golden Gate NRA) under a Regional Directive for Management. Congress established Golden Gate NRA in 1972 and expanded it in 1980 to include lands within the planning area. The Golden Gate NRA legislation directs the NPS “to preserve for public use and enjoyment certain areas of Marin and San Francisco Counties, California, possessing outstanding natural, historic, scenic, and recreational values . . . .” and to “preserve the recreation area, as far as possible, in its natural setting, and protect it from development and uses which would destroy the scenic beauty and natural character of the area.” 16 U.S.C. 460bb.

Specific provisions of both the Point Reyes and Golden Gate NRA enabling legislation (16 U.S.C. 459c-5 and 460bb-2(j)) authorize the issuance of lease/special use permits (lease/permits) for agricultural, ranching, or dairying purposes. Approximately 28,000 acres of National Park Service lands, including 18,000 acres of Point Reyes National Seashore and 10,000 acres within the north district of Golden Gate National Recreation Area, are currently utilized for beef and dairy ranching under agricultural lease/permits.

In the spring of 2014, the NPS initiated development of a Ranch Comprehensive Management Plan to address high priority management needs associated with the approximately 28,000 acres of active beef and dairy ranching on NPS lands within Point Reyes and the north district of Golden Gate NRA. The planning effort also addressed concerns related to the expansion of free-range tule elk into the park ranch lands, as well as other issues including lease duration, succession, and ranch operational flexibility and diversification.

In February 2016, litigation was brought against the NPS related to the ranch planning process and the ongoing use of lands within the planning area for ranching and dairying. The plaintiffs and the NPS, together with the ranchers and the County of Marin, entered into settlement negotiations in an effort to resolve the litigation. As referenced in the Supplementary Information section above, a multi-party Agreement was approved by the U.S. District Court on July 14, 2017. Per the Agreement, the NPS agreed that in lieu of the Ranch Comprehensive Management Plan, the NPS would prepare a GMP Amendment and EIS addressing the management of the lands currently leased for ranching
