

and animal activity as part of a project called Nature’s Notebook. The Nature’s Notebook forms are used to record phenology (e.g., timing of leafing or flowering of plants and reproduction or migration of animals) as part of a nationwide effort to understand and predict how plants and animals respond to environmental variation and changes in weather and climate. Contemporary data collected through Nature’s Notebook are quality-checked, described and made publicly available; data are used to inform decision-making in a variety of contexts, including agriculture, drought monitoring, and wildfire risk assessment. Phenological information is also critical for the management of wildlife, invasive species, and agricultural pests, and for understanding and managing risks to human health and welfare, including allergies, asthma, and vector-borne diseases. Participants may contribute phenology information to Nature’s

Notebook through a browser-based web application or via mobile applications for iPhone and Android operating systems, meeting GPEA and Privacy Act requirements. The web application interface consists several components: User registration, a searchable list of 1,260 plant and animal species which can be observed; a “profile” for each species that contains information about the species including its description and the appropriate monitoring protocols; a series of interfaces for registering as an observer, registering a site, registering plants and animals at a site, generating datasheets to take to the field, and a data entry page that mimics the datasheets.

Abstract: This notice pertains to the collection of information that enables the BLM to administer its program for wild horses and burros in compliance

with the Wild Free-Roaming Horses and Burros Act (16 U.S.C. 1331-1340). In addition to seeking renewal of control number 1004-0042, the BLM requests revision of an existing information-collection activity and form, and requests the addition of an information-collection form that has been in use without a control number.

OMB has approved Form 4710-10 and its information-collection activity previously with the title, "Application for Adoption of Wild Horse(s) or Burro(s)." The BLM proposes that the information-collection activity and form be revised to enable both adoptions and purchases of wild horses or burros, as authorized by 43 U.S.C. 1333(d) and (e). The revised form that includes sales is titled, "Application for Adoption & Sale of Wild Horses and Burros."

The form that has been in use without a control number is Form 4710-24, "BLM Facility Requirement Form" for use by individuals and non-governmental organizations that participate along with the BLM in joint training programs to increase the number of trained animals available for adoption or purchase.
