**SUPPLEMENTARY INFORMATION:**

**I. Background**

DoD, GSA, and NASA are proposing to revise the FAR to implement a new clause that provides the agency task- and delivery-order ombudsman's responsibilities and contact information for use in multiple-award indefinite-delivery, indefinite-quantity (IDIQ) contracts. 10 U.S.C. 2304c and 41 U.S.C. 4106 require agencies to appoint or designate a task- and delivery-order ombudsman who is responsible for reviewing complaints from contractors and ensuring that all of the contractors are afforded a fair opportunity to be considered for the award of an order, consistent with the procedures in the contract.

To help implement the statutory requirement, FAR 16.504(a)(4)(v) requires the name, address, telephone number, facsimile number, and email address of the agency's task- and delivery-order ombudsman be included in IDIQ solicitations, if multiple awards may result from the solicitation, and multiple-award IDIQ contracts. As a result of the requirement at FAR 16.504, several agencies created an agency-level contract clause that provides this information to contractors. This rule provides a standardized way to provide the necessary information to contractors with a single contract clause for use by all agencies.

**II. Discussion and Analysis**

This rule proposes to amend the FAR, as follows:

- FAR part 16 is revised to add a prescription that requires the use of the

new clause in solicitations and contracts when a multiple-award, IDIQ contract is contemplated.

- FAR part 52 is revised to add a new clause at FAR 52.216–XX, Task-Order and Delivery-Order Ombudsman, that provides contractors with contact information (as a fill-in) for the agency ombudsman, explains the responsibilities of the ombudsman, and explains that contacting the ombudsman does not alter the timelines for other processes in the FAR.

- An Alternate I clause is added to the main clause for contracts used by multiple agencies. The Alternate I clause explains that for contracts used by multiple agencies, complaints from contractors concerning orders placed under multi-agency contracts are primarily reviewed by the task- and delivery-order ombudsman for the ordering agency and provides the offeror with the contact information for the ordering agency's ombudsman.

### III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT) and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

This rule proposes to create a new FAR clause 52.216–XX, Task-Order and Delivery-Order Ombudsman. The objective of the rule is to implement a single clause available for use by all agencies when awarding multiple-award IDIQ contracts that provides contractors with the requisite information for the agency task- and delivery-order ombudsman.

DoD, GSA, and NASA plan to apply this clause to solicitations and contracts for the acquisition of commercial items, including COTS items, as defined at FAR 2.101. This rule does not impose any burden on contractors. Rather, this rule provides contractors with information on the responsibilities of and how to contact the ombudsman. Not applying this guidance to contracts for the acquisition of commercial items, including COTS items, could prevent some contractors from receiving the requisite information needed to address an issue with an agency's task- and delivery-order ombudsman. Consequently, DoD, GSA, and NASA plan to apply the rule to contracts for the acquisition of commercial items, including COTS items.

The rule is not likely to apply to contracts at or below the SAT, since the value of multiple-award IDIQ contracts are usually above the SAT.

### IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs

and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

### V. Executive Order 13771

This rule is not subject to E.O. 13771, because this rule is not a significant regulatory action under E.O. 12866.

### VI. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act 5 U.S.C. 601 *et seq.* However, an Initial Regulatory Flexibility Analysis (IRFA) has been performed and is summarized as follows:

The Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA) are proposing to revise the Federal Acquisition Regulation (FAR) to implement a new clause that provides the agency task- and delivery-order ombudsman's responsibilities and contact information for use in multiple-award indefinite-delivery, indefinite-quantity (IDIQ) contracts. 10 U.S.C. 2304c and 41 U.S.C. 4106 require agencies to appoint or designate a task- and delivery-order ombudsman who is responsible for reviewing complaints from contractors and ensuring that all of the contractors are afforded a fair opportunity to be considered for the award of an order, consistent with the procedures in the contract.

To help implement the statutory requirement, FAR 16.504(a)(4)(v) requires the name, address, telephone number, facsimile number, and email address of the agency's task- and delivery-order ombudsman be included in IDIQ solicitations and contracts, if multiple awards may result from the solicitation. As a result of the requirement at FAR 16.504, several agencies created an agency-level contract clause that provides this information to contractors. This rule provides a standardized way to provide the necessary information to contractors with a single contract clause for use by all agencies.

The objective of this proposed rule is to implement a single clause that provides contractors with the requisite information for the agency task- and delivery-order ombudsman and is available for use by all

agencies when awarding a multiple-award IDIQ contract.

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* According to data from the Federal Procurement Data System, there were 6,207 new multiple-award contracts awarded in fiscal year 2017. Of the 6,207 new awards, 4,477 (72 percent) of these actions were awarded to 3,873 unique small business entities. The proposed rule applies to all entities who do business with the Federal Government and is not expected to have a significant impact on these entities, regardless of business size.

This proposed rule does not include any new reporting, recordkeeping, or other compliance requirements.

The proposed rule does not duplicate, overlap, or conflict with any other Federal rules. There are no known significant alternative approaches to the proposed rule that would meet the proposed objectives.

The Regulatory Secretariat Division has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat Division. DoD, GSA and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by this rule consistent with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2017–020) in correspondence.

### VII. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).
