respectively. The BLM did not issue a Final Supplemental EIS for the PSEGS Project, because BSE and its partner, Abengoa Solar Inc., abandoned the State authorization proceedings at the California Energy Commission. In December 2015, after Abengoa Solar’s partner conveyed its project interest to Abengoa, EDF Renewable Energy acquired Abengoa Solar’s complete interest in the PSEGS project. EDF Renewable Energy then submitted a revised ROW application for the Proposed Project, which is analyzed in the Final Supplemental EIS/EIR and Proposed Land Use Plan Amendment underlying this ROD.

The BLM held public meetings on the revised ROW application in June and August 2016 in Palm Springs, California. On October 27, 2017, the BLM issued the Draft Supplemental EIS/ EIR and Draft Land Use Plan Amendment, which analyzed the impacts of the Proposed Action and two action alternatives, in addition to a No Action Alternative. Alternative 1, the Reduced Footprint, would be a 500 MW Photovoltaic (PV) array and gen-tie on about 3,140 acres. It avoids the central and largest desert wash and incorporates a more efficient use of the land for the solar array. Alternative 2, Avoidance Alternative, would be a solar PV project on about 1,620 acres (160 to 230 MW). Like the Proposed Action, under each of these alternatives, the BLM would amend the CDCA Plan to allow the project. Under the No-Action Alternative, the BLM would deny the ROW application and would not amend the CDCA Plan to allow the project.

The Draft Supplemental EIS/EIR and Draft Land Use Plan Amendment included analysis of the revised ROW application as it related to issues such as: (1) Updated description of the Proposed Project, based on the revised ROW application; (2) Impacts to cultural resources and tribal concerns; (3) Impacts to the Sand Transport Corridor and Mojave fringe-toed lizard and Mojave; (4) Impacts to avian species; (5) Impacts to Joshua Tree National Park; (5) Impacts to visual resources; and (7) Relationship between the Proposed Project and the CDCA Plan, including the amendment to the CDCA Plan by the 2016 Desert Renewable Energy Conservation Plan.

The Draft Supplemental EIS/EIR was released in October 2017, which included a formal 45-day public comment period. The BLM held a public meeting on November 14, 2017, in Palm Desert, CA. Fourteen individuals attended that meeting. The BLM received 40 comment letters during the comment period.

Comments on the Draft Supplemental EIS/EIR and Draft Land Use Plan Amendment received from the public and internal agency review were considered and incorporated as appropriate into the EIS/EIR analysis. These comments resulted in the addition of clarifying text, but did not result in changes in the design, location, or timing of the Project in a way that would cause significant effects to the human environment outside of the range of effects analyzed in the EIS/EIR. Similarly, none of the letters identified new significant circumstances or information relevant to environmental concerns that bear on the Project and its effects. A response to substantive comments is included in the Final Supplemental EIS/EIR and Proposed Land Use Plan Amendment, released in May 2018. The BLM selected Alternative 1, the Reduced Footprint, as the Agency Preferred Alternative in the Final Supplemental EIS/EIR and Proposed Land Use Plan Amendment. Five protests were received on the Final EIS, and the issues raised have been resolved. As a result, only minor editorial modifications were made in response to the issues raised in preparing the Approved Action. These modifications provided further clarification of some of the decision elements. The California Governor’s consistency review identified no inconsistencies with the Final SEIS for the Preferred Alternative.

With this ROD, the BLM adopts the Agency Preferred Alternative. The ASLM approval of this decision is not subject to administrative appeal under Departmental regulations at 43 CFR part 4 pursuant to 43 CFR 4.410(a)(3). Any challenge to this decision must be brought in Federal District Court and is subject to 42 U.S.C. 4370m-6(a)(1).
