

- R&D expense based on accepted accounting standards.
- Worldwide R&D of domestic companies.
- Business segment detail.
- R&D-related capital expenditures.
- Detailed data about the R&D workforce.
- R&D strategy and data on the potential impact of R&D on the market.
- R&D directed to application areas of particular national interest.
- Data measuring intellectual property protection activities and technology transfer.

Domestic and foreign researchers in academia, business, and government analyze and cite data from the BRDS. Among the federal government users are the Bureau of Economic Analysis (BEA) and the White House's Office of Science and Technology Policy (OSTP). BEA includes R&D in the system of national accounts that measures the economic well-being of the country. BRDS data are key inputs into these accounts, which feed into the calculation of the U.S. Gross Domestic Product (GDP). The White House, in 2006, issued the American Competitiveness Initiative to "increase investments in research and development, strengthen education, and encourage entrepreneurship." In support of this initiative and in response to legislative mandates, data on R&D are delivered to OSTP, primarily in the biennial National Science Board report Science and Engineering Indicators. Also, the National Science Foundation (NSF) produces a series of publications containing R&D data including the National Patterns of R&D Resources series, the S&E State Profile series, and the annual Business R&D and Innovation series. Special reports and other publications are also prepared.

*Affected Public:* Business or other for-profit.

*Frequency:* Annually.

*Respondent's Obligation:* Mandatory.

*Legal Authority:* The survey is conducted under the authority of Title 13, United States Code, Sections 8(b), 131, and 182, and Title 42, United States Code, Sections 1861–76 (National Science Foundation Act of 1950, as amended).

### Foreign-Trade Zones Board

[B–69–2018]

#### **Foreign-Trade Zone (FTZ) 203—Moses Lake, Washington, Notification of Proposed Production Activity, Joyson Safety Systems Acquisition, LLC (Automotive Airbag Inflators and Propellants), Moses Lake, Washington**

Joyson Safety Systems Acquisition, LLC (JSSA) submitted a notification of proposed production activity to the FTZ Board for its facility in Moses Lake, Washington. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on October 30, 2018.

JSSA already has authority to produce automotive airbag inflators and related propellants within Subzone 203A. The current request would add foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt JSSA from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below, JSSA would be able to choose the duty rates during customs entry procedures that apply to the finished products in the existing scope of authority. JSSA would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Strontium tinnite; cupric oxide; boron carbide; calcium stearate; guanidine nitrate; nitroguanidine; and, hybrid curtain inflator (HCI) bottles/bodies (metal cylinders) (duty rate ranges from duty-free 6.5%). The request indicates that certain materials/components are subject to special duties under Section

232 of the Trade Expansion Act of 1962 (Section 232) and Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 232 and Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 17, 2018.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Christopher Wedderburn at [Chris.Wedderburn@trade.gov](mailto:Chris.Wedderburn@trade.gov) or (202) 482–1963.

Dated: October 31, 2018.

### Foreign-Trade Zones Board

[B–66–2018]

#### **Foreign-Trade Zone (FTZ) 259—International Falls, Minnesota; Notification of Proposed Production Activity; Digi-Key Corporation; (Consumer Electronics); Thief River Falls, Minnesota**

Digi-Key Corporation (Digi-Key) submitted a notification of proposed production activity to the FTZ Board for its facilities in Thief River Falls, Minnesota. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on October 31, 2018.

The applicant indicates that it will be submitting a separate application for FTZ designation at the Digi-Key facilities under FTZ 259. The facilities are used for light value-added production and kitting of cable connectors and small fans for electronics. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and

subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Digi-Key from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Digi-Key would be able to choose the duty rates during customs entry procedures that apply to: Floor preparation tapes; tape polymer resins; anti-reflective tapes; custom cable assemblies of light emitting diodes; velostat foam; heatshrinks; hook and loop re-closable fasteners; radio frequency shielding gold and copper tapes; wire sleeves; radio frequency shielding tape aluminum foil; custom fan cooling assemblies; starter evaluation boards; aluminum strips; custom reels of electrical transformers; modular power supplies; nickel-metal hydride battery packs; custom reel of inductors; alkaline battery packs; lithium battery packs; carbon zinc battery packs; nickel cadmium battery packs; custom reel of radio frequency integrated circuits; custom speaker cables; programmed microcontrollers; custom buzzers for indication or alerts; custom reel of ceramic dielectric capacitors; custom reel of capacitors; custom reel of fixed carbon resistors; custom reel of resistors; custom cable of thermistors; custom cable of rotary non-contact sensors; custom reel of diodes for over voltage protection; custom reel of integrated circuits; custom cable assemblies for pushbutton switches; custom cable assemblies; custom reel of female terminal connectors and slotted PVC wire ducts for cable management; custom reel of zener diodes; custom reel of mosfets; custom reel of transistors; custom reel of LEDs and optocouplers; custom reel of piezoelectric crystals and programmed oscillators; programmed reel of integrated circuits—memories and amplifiers; custom reel of integrated circuits; custom reel of particle accelerators; programmed encoders; coaxial cables; modular cables and custom cable of female terminal connectors; multi-pair cables, insulated displacement custom cables, ribbon cable custom cables, and cable grounds; ribbon cable custom cables; cable fiber optics; cable flex shields; protective sleeving hoses; snap-on lens for light emitting diodes and brightness enhancement films; custom reel of pressure sensors; custom reel of current switch sensors, and dual lock adhesive custom assemblies (duty rate ranges from duty-free to 7%). Digi-Key would be able to avoid duty on foreign-status components which become scrap/waste.

Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: Fan axials; alkaline batteries; zinc batteries; nickel cadmium batteries; nickel metal hydride batteries; aluminum capacitors; plug insulation displacement connectors, printed circuit board connector ribbons, and connector plugs; connector splices, connector terms, connector strain reliefs, cable modular coils, and cable ribbons used in custom cable assemblies (duty rate ranges from duty-free to 5.3%). The request indicates that several components will be admitted to the zone in privileged foreign status (19 CFR 146.41), thereby precluding inverted tariff benefits on such items. The request also indicates that certain materials/components are subject to special duties under Section 232 of the Trade Expansion Act of 1962 (Section 232) and Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 232 and Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is December 17, 2018.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230-0002, and in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Christopher Wedderburn at [Chris.Wedderburn@trade.gov](mailto:Chris.Wedderburn@trade.gov) or (202) 482-1963.

Dated: November 1, 2018.

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board

[S-185-2018]

#### Foreign-Trade Zone 287—Tunica County, Mississippi Application for Subzone Future Electronics Distribution Center, L.P., Southaven, Mississippi

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by Tunica County, grantee of FTZ 287, requesting subzone status for the facilities of Future Electronics Distribution Center, L.P., located in Southaven, Mississippi. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on October 30, 2018.

The proposed subzone (51.036 acres) is located at 4150 Old Airways Boulevard, Southaven, Desoto County. No authorization for production activity has been requested at this time. The proposed subzone would be subject to the existing activation limit of FTZ 287.

In accordance with the FTZ Board's regulations, Qahira El-Amin of the FTZ Staff is designated examiner to review the application and make recommendations to the Executive Secretary.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is December 17, 2018. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 2, 2019.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230-0002, and in the "Reading Room" section of the FTZ Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Qahira El-Amin at [Qahira.El-Amin@trade.gov](mailto:Qahira.El-Amin@trade.gov) or (202) 482-5928.

Dated: October 31, 2018.
