**SUPPLEMENTARY INFORMATION:****I. Background**

FAR 1.304(b) states that agency regulations shall not “unnecessarily repeat, paraphrase, or otherwise restate material contained in the FAR.” Here, both GSAR 509.105–1(b) and FAR 9.105(b) provide guidance to obtaining information from Government sources for a responsibility determination of potential Government contractors.

**II. Discussion and Analysis**

Both GSAR 509.105–1(b) and FAR 9.105–1(b) pertain to how contracting officers obtain information regarding a contractor's responsibility. GSAR 509.105–1(b) states “[t]he contracting officer may solicit and consider information from any appropriate activities[.]” FAR 9.105–1(b) states “[g]enerally, the contracting officer shall obtain information regarding the responsibility of prospective contractors, including requesting pre-award surveys when necessary (see 9.106) promptly after bid opening or receipt of offers . . .” GSAR 509.105–1(b) simply paraphrases FAR 9.105–1(b) as it restates that a contracting officer should obtain information regarding a contractor's responsibility through “any appropriate activities” which is implied through FAR 9.105–1(b)'s language. Further, FAR 9.105 includes that standards and procedures for requesting and obtaining information sufficient to determine the responsibility of a

prospective contractor, *i.e.*, that an offeror meets the standards at FAR 9.104. Therefore, GSAR 509.105–1(b) will be removed from the GSAR because it violates FAR 1.304(b) by unnecessarily paraphrasing FAR 9.105–1(b).

### III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

### IV. Executive Order 13771

This final rule is not subject to E.O. 13771, because this rule is not a significant regulatory action under E.O. 12866.

### V. Regulatory Flexibility Act

This rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because the rule merely removes unnecessarily duplicative regulatory language. The rule imposes no new reporting, recordkeeping, or other information collection requirements. Therefore, a Regulatory Flexibility Analysis has not been performed.

### VI. Paperwork Reduction Act

This rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

## PART 509—CONTRACTOR QUALIFICATIONS

■ 1. The authority citation for part 509 continues to read as follows:

**Authority:** 40 U.S.C. 121(c).

■ 2. Revise section 509.105–1 to read as follows:

### 509.105–1 Obtaining information.

FAR 9.105–1 lists a number of sources of information that a contracting officer may utilize before making a determination of responsibility. The contracting officer may request information directly from a prospective contractor using GSA Form 527, Contractor's Qualifications and Financial Information, but only after exhausting other available sources of information.

### Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; reallocation.

**SUMMARY:** NMFS is reallocating the projected unused amount of Pacific cod total allowable catch (TAC) from vessels using jig gear, trawl catcher vessels, and American Fisheries Act (AFA) catcher/processors to catcher vessels less than 60 feet (18.3 m) length overall (LOA) using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area. This action is necessary to allow the 2018 TAC of Pacific cod to be harvested.

**DATES:** Effective November 13, 2018, through 2400 hours, Alaska local time (A.l.t.), December 31, 2018.

**FOR FURTHER INFORMATION CONTACT:** Steve Whitney, 907–586–7228.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands (BSAI) according to the Fishery Management Plan for Groundfish of the Bering Sea

and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2018 Pacific cod TAC specified for vessels using jig gear in the BSAI is 249 metric tons (mt) as established by the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) and reallocation (83 FR 42227, August 21, 2018).

The 2018 Pacific cod TAC specified for trawl catcher vessels in the BSAI is 40,227 mt as established by the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018).

The 2018 Pacific cod TAC specified for AFA catcher/processors in the BSAI is 4,186 mt as established by the final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018).

The 2018 Pacific cod TAC allocated to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear in the BSAI is 6,290 mt as established by final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) and reallocation (83 FR 42227, August 21, 2018).

The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that jig vessels will not be able to harvest 100 mt of the 2018 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(1), the trawl catcher vessels will not be able to harvest 2,200 mt of the 2018 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9), and the AFA catcher/processors will not be able to harvest 158 mt of the 2018 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(7). Therefore, in accordance with § 679.20(a)(7)(iii)(A), NMFS apportions 100 mt of Pacific cod from the jig vessel apportionment, 2,200 mt of Pacific cod from the trawl catcher vessel apportionment, and 158 mt of Pacific cod from the AFA catcher/processor apportionment to the annual amount specified for catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear. The harvest specifications for Pacific cod included in final 2018 and 2019 harvest specifications for groundfish in the BSAI (83 FR 8365, February 27, 2018) and reallocations (83 FR 42227, August 21, 2018) are revised as follows: 149 mt to the annual amount for vessels using
