Scope of the Investigation

The merchandise covered by this investigation is welded carbon and alloy steel pipe (including stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope large diameter welded pipe.

The large diameter welded pipe that is subject to this investigation is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6010, 7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS subheadings are provided for convenience and customs

purposes, the written description of the scope of this investigation is dispositive.

Certain Hot-Rolled Steel Flat Products From Japan: Preliminary Results of Antidumping Duty Administrative Review and Preliminary Determination of No Shipments; 2016–2017

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that Nippon Steel & Sumitomo Metal Corporation (Nippon Steel) and Tokyo Steel Manufacturing Co., Ltd. (Tokyo Steel), the two companies selected for individual examination, sold subject merchandise in the United States at prices below normal value during the period of review (POR). Additionally, Commerce preliminarily determines that three other companies for which we initiated reviews had no shipments during the POR. We invite interested parties to comment on these preliminary results.

DATES: Applicable November 14, 2018.

FOR FURTHER INFORMATION CONTACT: Myrna Lobo or Jack Zhao, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2371 or (202) 482–1396, respectively.

SUPPLEMENTARY INFORMATION:

Background

Commerce is conducting an administrative review of the antidumping duty order on certain hot-rolled steel flat products (hot-rolled steel) from Japan. The notice of initiation of this administrative review was published on December 7, 2017.¹ This review covers 20 producers and exporters of the subject merchandise. The POR is March 22, 2016, through September 30, 2017. Commerce selected two mandatory respondents for individual examination: Nippon Steel and Tokyo Steel.

¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 82 FR 57705 (December 7, 2017).

Scope of the Order

The merchandise covered by the order is certain hot-rolled steel flat products. For a complete description of the scope of the order, see the Preliminary Decision Memorandum.²

Methodology

Commerce is conducting this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). Export price and constructed export price are calculated in accordance with section 772 of the Act. NV is calculated in accordance with section 773 of the Act.

For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and electronic versions of the Preliminary Decision Memorandum are identical in content. A list of the topics discussed in the Preliminary Decision Memorandum is attached as the Appendix to this notice.

Preliminary Determination of No Shipments

Among the companies under review, four companies, Hitachi Metals, Ltd. (Hitachi), Honda Trading Canada, Inc. (Honda), Mitsui & Co. Ltd. (Mitsui), and Panasonic Corporation (Panasonic) properly filed statements reporting that they made no shipments of subject merchandise to the United States during the POR. Based on the certifications submitted and our analysis of Customs and Border Protection (CBP) information, we preliminarily determine that Hitachi, Honda, and Panasonic had no shipments during the POR.³

Consistent with its practice, Commerce finds that it is not appropriate to preliminarily rescind the review with respect to these companies but, rather, to complete the review and issue appropriate instructions to CBP based

on the final results of this review. We intend to solicit more information and comments with respect to Mitsui's no shipment certification.⁴

Assessment Rates

Upon completion of the administrative review, Commerce shall determine, and CBP shall assess, antidumping duties on all appropriate entries.

Pursuant to 19 CFR 351.212(b)(1), where the mandatory respondents reported the entered value for their U.S. sales, we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of

dumping calculated for the examined sales to the total entered value of the sales for which entered value was reported. Where the mandatory respondents did not report entered value, we calculated the entered value

⁶ We have collapsed Nisshin Steel Co., Ltd. and Nippon Steel & Sumitomo Metal Corporation as of March 13, 2017. See Preliminary Decision Memorandum at 9.

⁷ Entries of subject merchandise produced/exported by Nisshin Steel Co., Ltd. made prior to March 13, 2017 are subject to the all others rate calculated in this administrative review. See Memorandum re: Calculation of the Review-Specific Average Rate for the Preliminary Results, dated concurrently with this notice.

⁸ Entries of subject merchandise produced/exported by Nisshin Steel Co., Ltd. made on/or after March 13, 2017 are subject to the AD rate assigned to Nippon Steel in this administrative review.

⁹ This rate is based on the weighted-average margin using the publicly-ranged sales value of mandatory respondents, and is the best proxy of the

actual weighted-average margin determined for the mandatory respondents. Due to requests to protect business proprietary information, we cannot apply our normal methodology of calculating a weighted-average margin. in order to calculate the assessment rate. Where either the respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For the companies which were not selected for individual review, we will assign an assessment rate based on the average¹¹ of the cash deposit rates calculated for the two mandatory respondents. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.¹²

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for each specific company listed above will be that established in the final results of this review, except if the rate is less than 0.50 percent and, therefore, *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously investigated companies not participating in this review, the cash deposit will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, or the underlying investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent segment for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 5.58 percent, the all-others rate established in the underlying investigation.¹³ These
