Title: Recording of Aircraft

Conveyances and Security Documents.
Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on October 9, 2018 (83 FR 50740). Since the single form (AC Form 8050-41, Notice of Recordation) of the collection is sent to the lienholder when the Registry records the lien on aircraft, propeller(s), engine(s) and/or spare parts location(s) as a part of another collection this form is now removed. When the lien is satisfied, the lienholder completes Part II of the form AC Form 8050-41 and returns it to the Registry as official notification of the release of the lien. The lienholder may send the same information in any format without the form if desired. The collection involves return to the Civil Aviation Aircraft Registry of information relating to the release of a lien that has been recorded with the Registry. Title 49, U. S. C. Section 44108 provides for establishing and maintaining a system for the recording of security conveyances affecting title to, or interest in U.S. civil aircraft, as well as certain specifically identified engines, propellers, or spare parts locations, and for recording of releases relating to those conveyances. Federal Aviation Regulations Part 49 (14 CFR 49) establishes procedures for implementation of 49 U. S. C. 44108. Part 49 describes what information must be contained in a security conveyance in order for it to be recorded with FAA.

Respondents: Any aircraft, propeller or engine lienholder, who has received the Notice of Recordation from the Registry, who is releasing the subject lien.

Frequency: On occasion.

Estimated Average Burden per

Response: 1 hour.

Estimated Total Annual Burden: For FY 2017, records indicate a return of 23,681 release notifications for a total time burden of approximately 23,681 hours.

Issued in Washington, DC, on November 9, 2018.
