

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on July 31, 2018. The collection involves FAA Form 5280–1, Application for Airport Operating Certificate. Every airport that wants to become a certificated airport must complete this form, as well as provide a draft Airport Certification Manual (ACM). In addition, currently certificated airports must maintain their ACM, as well as keep and maintain records related to training, self-inspection, and other requirements.

These records allow the FAA to verify compliance with regulation safety and operational requirements to ensure that the airports meet the minimum safety requirements, which in turn enhances the safety of the flying public.

**DATES:** Written comments should be submitted by December 21, 2018.

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to [oira\\_submission@omb.eop.gov](mailto:oira_submission@omb.eop.gov), or faxed to (202) 395–6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Barbara Hall at (940) 594–5913, or by email at: [Barbara.L.Hall@faa.gov](mailto:Barbara.L.Hall@faa.gov).

**SUPPLEMENTARY INFORMATION:**

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120–0675.

*Title:* Certification of Airports, 14 CFR part 139.

*Form Numbers:* FAA Form 5280–1.

*Type of Review:* Renewal of an information collection.

*Background:* The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on July 31, 2018 (83 FR 37042). The statutory authority to issue airport operating certificates to airports serving certain air carriers and to establish minimum safety standards for the operation of those airports is currently found in Title 49, United States Code (U.S.C.) 44706, Airport operation certificates. The FAA uses this authority to issue requirements for the certification and operation of certain airports that service commercial air carriers. These requirements are contained in Title 14, Code of Federal Regulation part 139 (14 CFR part 139), Certification and Operations: Land Airports Serving Certain Air Carriers, as amended. 14 CFR part 139 establishes certification requirements for airports serving scheduled air carrier operations in aircraft with 10–30 seats. Information collection requirements are used by the FAA to determine an airport operator's compliance with part 139 safety and operational requirements, and to assist airport personnel to perform duties required under the regulation.

Operators of certificated airports are required to complete FAA Form 5280–1 and develop, and comply with, a written document, an Airport Certification Manual (ACM), that details how an airport will comply with the requirements of part 139. The ACM shows the means and procedures whereby the airport will be operated in compliance with part 139, plus other instructions and procedures to help personnel concerned with operation of the airport to perform their duties and responsibilities.

When an airport satisfactorily complies with such requirements, the FAA issues to that facility an airport operating certificate (AOC) that permits an airport to serve air carriers. The FAA periodically inspects these airports to ensure continued compliance with part 139 safety requirements, including the maintenance of specified records. Both the application for an AOC and annual compliance inspections require operators of certificated airports to collect and report certain operational information. The AOC remains in effect as long as the need exists and the operator complies with the terms of the AOC and the ACM.

The likely respondents to new information requests are those civilian

U.S. airport certificate holders who operate airports that serve scheduled and unscheduled operations of air carrier aircraft with more than 30 passenger seats (approximately 530 airports). These airport operators already hold an AOC and comply with all current information collection requirements.

Operators of certificated airports are permitted to choose the methodology to report information and can design their own recordkeeping system. As airports vary in size, operations and complexities, the FAA has determined this method of information collection allows airport operators greater flexibility and convenience to comply with reporting and recordkeeping requirements. 100% of the information may be submitted electronically.

The FAA has an automated system, the Certification and Compliance Management Information System (CCMIS), which allows FAA airport safety and certification inspectors to enter into a national database airport inspection information. This information is monitored to detect trends and developing safety issues, to allocate inspection resources, and generally, to be more responsive to the needs of regulated airports.

*Respondents:* Approximately 530 airports.

*Frequency:* Information collected on occasion.

*Estimated Average Burden per Response:* 22 hours.

*Estimated Total Annual Burden:* 95,191 hours.

Issued in Washington, DC, on November 15, 2018.

#### Agency Information Collection

#### Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Report of Inspections Required by Airworthiness Directives

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 19, 2018. Airworthiness Directives are regulations issued to require corrective action to resolve an unsafe condition in aircraft, engines, propellers, and appliances. Reports of inspections are often needed when emergency corrective action is taken to determine if the action was adequate to correct the unsafe condition. The respondents are aircraft owners and operators.

**DATES:** Written comments should be submitted by December 21, 2018.

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed information collection to

the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to [oira\\_submission@omb.eop.gov](mailto:oira_submission@omb.eop.gov), or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

#### SUPPLEMENTARY INFORMATION:

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

*OMB Control Number:* 2120-0056.

*Title:* Report of Inspections Required by Airworthiness Directives.

*Form Numbers:* There are no FAA forms associated with this collection.

*Type of Review:* Renewal of an information collection.

*Background:* The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 19, 2018 (83 FR 47397). Title 14 CFR part 39, Airworthiness Directives (AD), authorized by §§ 40113(a), 44701, and 44702 of Title 49 United States Code, prescribes how the FAA issues ADs.

The FAA issues ADs when an unsafe condition is discovered on a specific aircraft type. Specific information may be required from aircraft owners/operators if an unsafe condition requires more information to develop corrective action. If it is necessary for the aircraft manufacturer or airworthiness authority to evaluate the information, owners/operators will be instructed to send the information to them.

*Respondents:* Approximately 1,120 aircraft owners/operators.

*Frequency:* Information is collected on occasion.

*Estimated Average Burden per Response:* 1 hour.

*Estimated Total Annual Burden:* 28,000 hours.
