SUPPLEMENTARY INFORMATION: In October 2014, a new cohort of sites was added to the Regional Innovation Clusters (RIC) initiative, which was originally started in October 1, 2010 by the Small Business Administration (SBA)'s Office of Entrepreneurial Development. Through this initiative, organizations in 11 communities across the U.S. have been selected to provide industry-specific assistance to small businesses, and to develop industry relationships and supply chains within their regions. Clusters—geographically concentrated groups of interconnected businesses, suppliers, service providers, and associated institutions in a particular industry or field—act as a networking hub to convene a number of resources to help navigate the funding, procurement, and supply-chain opportunities in a specific industry.

SBA is conducting an evaluation of the Regional Innovation Clusters initiative to determine how the clusters have developed, the type and volume of services they provided to small businesses, client perceptions of the program, and the various outcomes related to their existence, including collaboration among firms, innovation, and small business growth. Small business growth will be compared to the overall growth of firms in those same

regions and industries. This evaluation will also include lessons learned and success stories. SBA proposes the use of three instruments for data collection and analysis of three distinct populations. These instruments are: (1) Small Business Survey, (2) Large Organization Survey and (3) Cluster Administrator Survey. In addition, SBA plans to interview each of the 11 cluster administrators several times a year regarding program impact and successes or challenges, and to obtain clarifications on information provided in quarterly reports. Each of the proposed surveys will be administered electronically and will contain both open- and close-ended questions. The information collected and analyzed from these instruments will contribute to monitoring performance metrics and program goals, as well as recommendations on improving program practices.

(TSU), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to renew its lease of approximately 12.86 miles of railroad line owned by Union Pacific Railroad Company (UP), located in Tulsa County, Okla. (the Line). The Line, known as the Jenks Industrial Lead, extends from milepost 136.40 near the Kimberly Clark facility in Jenks, Okla., to the end of UP's ownership at milepost 149.26 and the connection with UP's trackage rights over BNSF Railway Company in Tulsa, Okla.

TSU states that it and UP previously executed a lease agreement regarding the Line in 2001.¹ TSU states that the new lease agreement, dated as of December 21, 2018, has an initial five-year term that may be extended by TSU for an additional 15 years.

TSU certifies that its projected annual revenues from this transaction will not result in its becoming a Class I or Class II rail carrier and will not exceed \$5 million. As required under 49 CFR 1150.43(h)(1), TSU has disclosed in its verified notice that the lease renewal agreement contains an interchange commitment that charges TSU an asset use fee for carloads that originate or terminate on the Line that are not interchanged to UP.² TSU has provided additional information regarding the interchange commitment as required by 49 CFR 1150.43(h).

TSU states in its verified notice that it intends to consummate the proposed lease renewal on or shortly after December 21, 2018. The earliest this

An original and 10 copies of all pleadings, referring to Docket No. FD 36237, must be filed with the Surface Transportation Board, 395 E Street SW, Washington, DC 20423–0001.
