### Foreign-Trade Zones Board

[B-75-2018]

#### **Foreign-Trade Zone (FTZ) 87—Lake Charles, Louisiana, Notification of Proposed Production Activity, Driftwood LNG, LLC (Liquified Natural Gas Processing), Sulphur, Louisiana**

The Lake Charles Harbor and Terminal District, grantee of FTZ 87, submitted a notification of proposed production activity to the FTZ Board on behalf of Driftwood LNG, LLC (Driftwood LNG), located in Sulphur, Louisiana. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 16, 2018.

The Driftwood LNG facility is located within Subzone 87G. The facility (currently proposed for construction) will be used for liquified natural gas processing. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status material and specific finished products described in the submitted notification and

subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Driftwood LNG from customs duty payments on the foreign-status gaseous natural gas (duty-free) used in export production. On its domestic sales, for the foreign-status gaseous natural gas, Driftwood LNG would be able to choose the duty rates during customs entry procedures that apply to: Liquified natural gas and stabilized condensate by-product (duty rates are duty-free and 10 cents/barrel, respectively). Driftwood LNG would be able to avoid duty on the foreign-status material which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The request indicates that gaseous natural gas is subject to special duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 2, 2019.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230-0002, and in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

For further information, contact Diane Finver at [Diane.Finver@trade.gov](mailto:Diane.Finver@trade.gov) or (202) 482-1367.

Dated: November 16, 2018.

**Elizabeth Whiteman,**

*Acting Executive Secretary.*

## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board

[B-74-2018]

#### **Foreign-Trade Zone (FTZ) 18—San Jose, California; Notification of Proposed Production Activity; Bloom Energy Corporation (Commercial Fuel Cells and Related Subassemblies), Sunnyvale and Mountain View, California**

The City of San Jose, California, grantee of FTZ 18, submitted a notification of proposed production activity to the FTZ Board on behalf of Bloom Energy Corporation (Bloom), located at sites in Sunnyvale and Mountain View, California. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 15, 2018.

The Bloom facility is located within Subzone 18I. The facility is used for the production of commercial fuel cells and related subassemblies. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Bloom from customs duty payments on the foreign-status components used in export production. On its domestic sales, for the foreign-status materials/components noted below, Bloom would be able to choose the duty rates during customs entry procedures that apply to: Piping manifolds; water distribution modules; fuel processing units; fuel cell power modules (DC generators); nickel iron alloy fuel cell power module enclosures (housings); power inverters; and, energy storage and distribution modules (duty rates range from duty-free to 3.8%). Bloom would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components and materials sourced from abroad include: Glass powder; ceramic substrates; plastic labels; plastic containers with sleeves; plastic enclosure bags; plastic cable ties; rubber grommets; adhesives; cardboard boxes; textile paper filters; zirconia alumina shaping stones; ceramic heat plating; glass fiber insulation jackets; nickel alloy wire probes; alloy steel adapters; stainless steel tubing; stainless steel coated tubing; stainless steel
