I. Introduction

On November 16, 2018, the Postal Service filed a request for the Commission to consider the application of the market dominant price cap to rates for Inbound Letter Post and certain other inbound international market dominant products.¹ The Postal Service requests that the Commission replace the price cap treatment with an "evaluation of whether price changes for these services promote the objectives in [39 U.S.C.] [s]ection 3622(b), taking into account the factors in [s]ection 3622(c)." Petition at 2. The Commission initiates this rulemaking to seek comments and facilitate the Commission's examination into ratemaking procedures for Inbound Letter Post and related international services.

II. Background

At the same time it filed the instant Petition, the Postal Service filed a concurrent request seeking to transfer a portion of Inbound Letter Post (and inbound registered services associated with those items) to the competitive product list.² The Postal Service states that it intends for the instant Petition to cover only the related products

remaining on the market dominant product list upon resolution of the Transfer Request. Petition at 2, n.4.

The Postal Service states that the recommendation to adopt self-declared rates for terminal dues,3 made by the Department of State and endorsed by the President, creates uncertainty regarding the rates going forward. See Petition at 1, nn.1, 2; 2-3. The Postal Service further notes that the Department of State's negotiations could result in a decision to rescind withdrawal from the Universal Postal Union (UPU), but it is impossible to predict to what extent terminal dues would be self-declared or set by the UPU. Petition at 2–3. The Postal Service suggests that although the Commission's review of the market dominant ratemaking system is pending, to the extent that a market dominant price cap currently applies or is maintained in some form, there should be an exception for generally applicable rates set by the Postal Service that are paid by foreign postal operators. Id. at 4. The Postal Service states that its requested treatment of Inbound Letter Post rates should apply whether the rates are selfdeclared or not. Id. at 5.

III. Petition

The Postal Service requests that the Commission reconsider its decision in Order No. 43, in which it held that Inbound Letter Post must be classified as a market dominant product.4 The Postal Service states that changes in circumstances, including "a significant shift in U.S. Government policy toward Inbound Letter Post," warrant a reconsideration of the decision to apply the market dominant price cap to inbound international products. See Petition at 5–9. The Postal Service states that the Postal Accountability and Enhancement Act's intent was to protect individual domestic customers, rather than foreign postal operators.⁵

The Postal Service proposes a regulatory system for Inbound Letter Post wherein the Commission would apply the objectives and factors listed in 39 U.S.C. 3622(b) and 3622(c) as standards for review of inbound international rate adjustments. Petition at 2, 9. The Postal Service suggests that this review can occur after-the-fact,

³ Terminal dues refer to payments by foreign postal operators to the Postal Service for delivery of Inbound Letter Post in the United States.

through the annual compliance review proceedings, but also proposes an alternative before-the-fact review of rate adjustments. *Id.* at 10. The Postal Service submits these proposed rules and alternative proposed rules in Appendix I of the Petition.

IV. Invitation to Comment

Pursuant to 39 U.S.C. 505, Kenneth E. Richardson is appointed to serve as an officer of the Commission (Public Representative) to represent the interests of the general public in the above-captioned docket.

I. Background

Each State has a Clean Air Act (CAA) State Implementation Plan (SIP), containing the control measures and strategies used to attain and maintain the national ambient air quality standards (NAAQS) established for the criteria pollutants (carbon monoxide, lead, nitrogen dioxide, ozone, particulate matter, sulfur dioxide). The SIP contains such elements as air pollution control regulations, emission inventories, attainment demonstrations, and enforcement mechanisms. The SIP is a compilation of these elements and is revised and updated by a State over time—to keep pace with Federal requirements and to address changing air quality issues in that State.

The Oregon Department of Environmental Quality (ODEQ) implements and enforces the Oregon SIP through rules set out in Chapter 340 of the Oregon Administrative Rules (OAR), Divisions 200 to 268, apply in all areas of the State, except where the Oregon Environmental Quality Commission (EQC) has designated Lane Regional Air Protection Agency (LRAPA) to administer rules within its area of jurisdiction.

LRAPA has been designated by the EQC to implement and enforce State rules in Lane County, and to adopt local rules that apply within Lane County. LRAPA may promulgate a local rule in lieu of a State rule provided: (1) it is as strict as the corresponding State rule; and (2) it has been submitted to and approved by the EQC. This delegation of authority to LRAPA in the Oregon SIP is consistent with CAA section 110(a)(2)(E) requirements for State and local air agencies.

On July 19, 2018 and September 25, 2018, the ODEQ and LRAPA submitted revisions to the Oregon SIP as it applies in Lane County. These changes update the LRAPA Title 47 outdoor burning rule providing clarification and additional controls of outdoor burning activities in Lane County and align the Title 15 enforcement procedure and civil penalties rule with recently approved State rules in OAR Chapter 340, Division12 (80 FR 64346, October 23, 2015).
