Call for Coal and Other Resource Information

The BLM requests that industry, State and local governments, and the public interested in coal management in the planning area provide the BLM relevant coal resource data that can help inform this project. Specifically, the BLM requests information on the development potential (*e.g.*, location, quality, and quantity) of BLM-administered coal mineral estate, and on surface resource values related to multiple use conflicts.

The purpose of this request is to assure that the planning effort has sufficient information and data to consider a reasonable range of resource uses, management options, and alternatives for management of the BLM-administered Federal coal mineral estate. The BLM will use this information to complete the Supplemental EIS and formulate alternatives that identify areas acceptable for further consideration for leasing.

Proprietary data marked as “Confidential” may be submitted in response to this request for coal and other resource information. Please submit all proprietary information submissions to the Montana/Dakotas State Director at the address listed above. The BLM will treat submissions marked as “Confidential” in accordance with the laws and regulations governing the confidentiality of such information.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request us to withhold your personal identifying information from public review, BLM cannot guarantee that it will be able to do so. (Authority: 43 CFR 1610.2(c) and 3420.1–2)
