

amounts of the proposed two percent reserve to be allocated among Program Suppliers claimants, Sports claimants, and Devotional claimants. In their motion, the moving parties represented that they had reached a settlement with regard to royalty category allocation. The moving parties maintained that the allocation settlement was non-precedential and confidential. Because the moving parties maintain the confidentiality of the allocation shares, however, the Judges have no way to allocate the reserved funds among the categories with continuing controversies.

By Order dated December 8, 2008, the Judges ordered distribution of 90% of the satellite royalty funds deposited for royalty years 1999 through 2003. While the Judges ordered ten percent of the royalty funds to be held in reserve, they did not allocate the reserve among the categories with remaining distribution controversies. See *Order Granting in Part . . . Partial Distribution . . .*, Dkt. Nos. 2008–5 CRB SD 1999–2000, 2005–2 CRB SD 2001–03 at 2–3 (Dec. 8, 2008) (*Phase I Order*). To direct execution of this final determination, therefore, the Judges must first know the exact dollar amount they should order disbursed to the SDC to complete the distribution.

The Judges therefore *Grant* the Motion as to the percentage of distribution.¹

The Judges *Further Order* that this final distribution determination is without prejudice to the parties' right to appeal the Judges' interlocutory ruling in this consolidated proceeding with regard to both cable and satellite claims issues.

The Judges *Further Order* the Phase I Claimants jointly to notify the Judges and the Licensing Division no later than seven days after the date of publication of this Determination of the percentage of 2000 satellite royalty funds that was allocable to the SDC as of December 8, 2008.

The Judges *Further Order* the Licensing Division of the Copyright Office, based upon the percentage allocable to the SDC provided by the Phase I Claimants, to calculate the dollar amount that is available to be distributed from 2000 satellite royalty funds to the SDC by taking the principal balance as of December 8, 2008, as reported jointly by the remaining categories of claimants to 2000 satellite

royalty funds, adjusting that balance for a proportional deduction of administrative fees, and adding the interest accrued on the Devotional category balance from and after December 8, 2008. The Licensing Division shall provide the result of its calculation to the Judges and to the Phase I Claimants. The SDC may then request that the Judges distribute those funds to complete the final distribution.

The Register of Copyrights ("Register") has concluded her statutory review. The Librarian of Congress shall review and cause this final determination, and any correction thereto by the Register, to be published in the **Federal Register**.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by January 4, 2019. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, at the above address, 703–292–8030, or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

1. *Applicant* Permit Application: 2019–016

Ashley Perrin, Antarctic Ice Pilot, for SY Destination, 14 Washington Ave., San Rafael, CA 94903.

Activity for Which Permit Is Requested

Waste Management. The applicant is requesting a permit for waste management activities associated with operating the yacht, SY Destination, in the Antarctic Treaty area for three weeks in January 2019. The cruise program would consist of a one-time voyage to Antarctica with operations in the Southern Ocean, Antarctic Peninsula region, and the South Shetland Islands. The applicant expects there to be a total of thirteen people total aboard the vessel during the voyage. Activities would include sightseeing, small boat cruising, brief shore excursions, polar plunging, snorkeling/diving, and operation of a remotely piloted aircraft system (RPAS) as a navigational and safety aid. The RPAS would consist of a small, camera-equipped quadcopter, operated by an experienced pilot, within visual line of sight, under fair weather conditions, and according to best operating practices. The yacht has an onboard sewage treatment plant that meets MARPOL standards. All food waste and garbage would be collected, maintained onboard the vessel, and properly disposed of outside the Treaty area. Best practices would be employed to mitigate the risk of accidental releases to the environment.

Location

Southern Ocean, Antarctic Peninsula region, South Shetland Islands.

¹ This finding is based on IPG's lack of compensable claims and not on expert valuation of the relative value of SDC's and IPG's respective claims to 2000 satellite royalties.
