

VOR are VOR Federal airways V-113, V-137, V-485.

With the planned decommissioning of the Priest VOR, the remaining ground-based NAVAID coverage in the area is insufficient to enable the continuity of the affected airways. As such, proposed modifications to V-113, V-137, and V-485 would result in gaps in the route structures.

To overcome the gap in V-113, instrument flight rules (IFR) traffic could use adjacent VOR Federal airways V-248 and V-107 between the Paso Robles, CA, VORTAC and the Panoche, CA, VORTAC.

V-137 is proposed to terminate at the Avenal, CA, VOR/DME instead of the Salinas, CA, VORTAC (current route termination point). Alternate course to reach the Salinas, CA, VORTAC is to file V-248.

V-485 is proposed to terminate at the Fellows, CA, VOR/DME instead of the San Jose, CA, VOR/DME (current route termination point). Alternate course to reach San Jose, CA, VOR/DME is to file V-25. Additionally, ATS route T-333 is proposed to be extended as part of another rulemaking action that will mitigate the loss of V-485.

Lastly, IFR traffic could file point to point through the affected area using fixes that will remain in place, or receive air traffic control (ATC) radar vectors through the area. Visual flight rules pilots who elect to navigate via the airways through the affected area could also take advantage of the adjacent VOR Federal airways or ATC services listed previously.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to modify Domestic VOR Federal Airways (V-113, V-137 and V-485). The proposed route changes are outlined below.

V-113: V-113 currently extends between the Morro Bay, CA, VORTAC to the Lewistown, MT, VOR/DME. The FAA plans to delete the segment between the Paso Robles, CA, VORTAC and the Panoche, CA, VORTAC causing a gap in the route. The new route will stop at the Paso Robles, CA, VORTAC and resume at the Panoche, CA, VORTAC. The unaffected portion of the existing route will remain as charted.

V-137: V-137 currently extends between Mexicali, Mexico via the Imperial, CA, VORTAC to the Salinas, CA, VORTAC. The FAA plans to delete the segment between the Avenal, CA, VOR/DME and the Salinas, CA, VORTAC. The new route will end at the Avenal, CA, VOR/DME. The unaffected

portion of the existing route will remain as charted.

V-485: V-485 currently extends between the Ventura, CA, VOR/DME to the San Jose, CA, VOR/DME. The FAA plans to delete the segment between the Fellows, CA, VOR/DME and the San Jose, CA, VOR/DME. The new route will end at the Fellows, CA, VOR/DME. The unaffected portion of the existing route will remain as charted.

Domestic VOR Federal Airways in paragraph 6010 of FAA Order 7400.11C dated August 13, 2018, and effective September 15, 2018, which is incorporated by reference in 14 CFR 71.1. The Domestic VOR Federal Airways listed in this document will be subsequently published in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

I. Background

The Fair and Accurate Credit Transactions Act (“FACTA”) was enacted in December 2003.¹ Section 114 of FACTA amended section 615 of the Fair Credit Reporting Act (“FCRA”) and required the Commission and other federal agencies to establish and maintain guidelines for financial institutions and creditors to identify patterns, practices and activities that might indicate identity theft.² FACTA also required the Commission and other federal agencies to prescribe regulations requiring financial institutions and creditors to establish reasonable policies and procedures for implementing the established guidelines.³ In addition, FACTA required the Commission and other federal agencies to prescribe regulations requiring debit and credit

card issuers to validate notifications of changes of address under certain situations.⁴

In November 2007, the Commission and banking agencies published final rules and guidelines implementing the red flags provisions of section 615 of the FCRA.⁵ These rules include the duties regarding the detection, prevention, and mitigation of identity theft (“Red Flags Rule”)⁶ and the duties of card issuers regarding changes of address (“Card Issuers Rule”)⁷ (collectively, the “Identity Theft Rules” or “Rules”). In December 2010, the President signed the Red Flag Program Clarification Act (“Clarification Act”), which narrowed the scope of entities covered as a “creditor” under the Red Flags Rule.⁸ The Clarification Act also empowers the Commission and other federal agencies to determine through rulemaking whether any other type of creditor should be subject to the Red Flags Rule based on whether such creditor offers or maintains accounts with a reasonably foreseeable risk of identity theft.⁹

The Red Flags Rule requires each “financial institution” and “creditor” subject to the Commission’s enforcement authority to periodically determine whether it maintains “covered accounts,” and to develop and maintain a written Identity Theft Prevention Program (“Program”) to detect, prevent and mitigate identity theft in connection with the opening or existence of any “covered account.”¹⁰ Financial institutions or creditors that are required to implement a Program must administer the Program in accordance with the Red Flags Rule, consider the guidelines set forth in appendix A, and include in their Program those guidelines that are appropriate.¹¹ The Card Issuers Rule requires that debit or credit card issuers establish and implement reasonable policies and procedures to assess the validity of a change of address request if, within a short period of time after receiving the request, the card issuer receives a request for an additional or replacement card for the same

account.¹² The Card Issuers Rule further prohibits a card issuer from issuing an additional or replacement card until it has (1) notified the cardholder of the request and provided a reasonable means for the cardholder to promptly report an incorrect address change, or (2) otherwise assessed the validity of the address change.¹³ Card issuers within the FTC’s jurisdiction include, for example, state credit unions, general retail merchandise stores, colleges and universities, and telecoms.

II. Regulatory Review of the Identity Theft Rules

The Commission periodically reviews all of its rules and guides. These reviews seek information about the costs and benefits of the agency’s rules and guides, and their regulatory and economic impact. The information obtained assists the Commission in identifying those rules and guides that warrant modification or rescission. Therefore, the Commission solicits comments on, among other things, the economic impact and benefits of the Identity Theft Rules; possible conflict between the Identity Theft Rules and state, local, or other federal laws or regulations; and the effect on the Identity Theft Rules of any technological, economic, or other industry changes.

III. Issues for Comment

The Commission requests written comment on any or all of the following questions. These questions are designed to assist the public and should not be construed as a limitation on the issues about which public comments may be submitted. The Commission requests that responses to its questions be as specific as possible, including a reference to the question being answered, and refer to empirical data or other evidence upon which the comment is based whenever available and appropriate.
