[Docket Number FRA-2018-0078]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that on September 19, 2018, Pan Am Railways (PAR) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA-2018-0078.

Applicant: Pan Am Railways, Mr. Timothy R. Kunzler, AVP, Engineering, 1700 Iron Horse Park, No. Billerica, MA 01862.

The applicant's corporate name is Springfield Terminal Railway Company (ST). The applicant is the operator of the line as lessor from Boston and Maine Corporation (BM), owner. Both the applicant and BM are wholly owned subsidiaries of PAR.

ST seeks approval to discontinue the signal system on the single main track on the Northern Main Line between control point number (CPN) 1 in Chelmsford, MA, and milepost number (MPN) 28.70 in Manchester, NH.

ST proposes to discontinue the interlockings and associated appliances at CPN-9; CPN-13; CPN-18; CPN-20 and CPN-28. ST intends to replace the power-operated switch with a hand-operated switch at CPN-20 and replace the spring switch with a hand-operated switch at CPN-9. ST seeks to discontinue block signals 306/307; 352/353; 144/145; 160/161; 400/500; 539/540; and the block signal at MPN 28.70. ST plans to install holding signal, CPN-3, at MPN 28.70 and distant signal at MPN 5.

ST states the reasons for the proposed changes are that (1) no passenger service operates on the line; (2) traffic volumes do not warrant a traffic control system; (3) there are no active interchange points on this portion of the main line; and (4) to employ resources more effectively elsewhere.

Operation over this territory will be conducted in accordance with Northeast Operating Rules Advisory Committee Form D Control System rules.

Federal Railroad Administration

[Docket Number FRA-2018-0070]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that by letter dated August 21, 2018, the Union Pacific Railroad Company (UP) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA assigned the petition Docket Number FRA-2018-0070.

UP seeks a waiver of compliance from 49 CFR 236.1006, *Equipping locomotives operating in PTC territory*. Specifically, UP requests relief to operate UP Heritage Steam Locomotives

UP 844, 4-8-4 Type—1944; UP 4014, 4-8-8-4 Type—1941; and UP 3985, 4-6-6-4 Type—1943 for excursion trips in positive train control (PTC) territory. UP states these units are specifically designated and utilized on an extremely limited number of excursion trips annually. Excursions utilizing this equipment historically and continually involve the highest level of preparation in planning and operational safety during operation, giving special designation to each move. No less than two operators are present at any given time ensuring continual functional safety awareness during operational moves. UP explains they have been operating steam powered excursions without PTC-initiated application and have found no adverse mechanical effect on operational safety.
