## DEPARTMENT OF TRANSPORTATION

### Federal Railroad Administration

[Docket Number FRA-2018-0102]

#### Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on November 16, 2018, the Regional Transportation District (RTD), the City of Arvada, Colorado, and the City of Wheat Ridge, Colorado, petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 222. FRA assigned the petition Docket Number FRA-2018-0102.

Specifically, petitioners seek a waiver from the provisions of 49 CFR 222.35(b)(1) to establish a new quiet zone consisting of thirteen public highway-rail grade crossings with active grade crossing warning devices comprising both flashing lights and gates that are not equipped with constant warning time devices. The crossing warning devices on the proposed "RTDC/BNSF Gold Line-Arvada Quiet Zone" on the RTD G-Line are primarily activated by a wireless crossing activation system (WCAS) using "GPS-determined train speed and location to predict how many seconds a train is from the crossing." Petitioners assert that this information is communicated wirelessly to the crossing warning devices and seeks to provide constant warning times. Additionally, this system is supplemented by a conventional track

warning system in case the WCAS is unavailable.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.
