Submission for OMB Review; Comment Request

December 11, 2018.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by January 14, 2019 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW, Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Trichinae Certification Program.
OMB Control Number: 0579-0323.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control and eradicate pests or diseases of livestock or poultry. The AHPA is contained in Title X, Subtitle E, Sections 10401-18 of Public Law 107-171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. *Trichinella spiralis* is a contagious nematode affecting animals and people. The disease, trichinellosis, is transmitted by consuming the meat of an infected animal. The Animal and Plant Health Inspection Service (APHIS) will collect information using a certificate site audit, program audit form, request for information during a spot audit, animal disposal plan and recordkeeping, animal movement record and recordkeeping, rodent control logbook and recordkeeping, trichinae herd certification feed mill quality assurance affidavit and recordkeeping, records for slaughter testing and recordkeeping, temporary withdrawal, and program withdrawal.

Need and Use of the Information: APHIS will collect information to certify swine are raised using practices that will reduce or eliminate *T spiralis* exposure. If this information is not collected, it will compromise APHIS' ability to determine the trichinae infection status of pork produced in the United States.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 66.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 521.

Ruth Brown,

Departmental Information Collection Clearance Officer.

[Docket No. APHIS-2016-0013]

Changes to the National Poultry Improvement Plan Program Standards

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of determination.

SUMMARY: We are updating the National Poultry Improvement Plan (NPIP) Program Standards. In a previous notice, we made available to the public for review and comment proposed changes to the NPIP Program Standards pertaining to the compartmentalization of primary poultry breeding establishments and approval of compartment components such as farms, feedmills, hatcheries, and egg depots. These changes will be added to the NPIP Program Standards.

DATES: Applicable February 12, 2019.

FOR FURTHER INFORMATION CONTACT: Dr. Denise Heard, DVM, Senior Coordinator, National Poultry Improvement Plan, VS, APHIS, USDA, 1506 Klondike Road, Suite 101, Conyers, GA 30094-5104; (770) 922-3496.

SUPPLEMENTARY INFORMATION: The National Poultry Improvement Plan (NPIP), also referred to below as "the Plan," is a cooperative Federal-State-Industry mechanism for controlling certain poultry diseases. The Plan consists of a variety of programs intended to prevent and control poultry diseases.

The regulations in 9 CFR parts 56, 145, 146, and 147 (referred to below as the regulations) contain the provisions of the Plan. The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA, also referred to as "the Department") amends these provisions from time to time to incorporate new scientific information and technologies within the Plan.

Because changes in diagnostic science, testing technology, and best practices for maintaining sanitation are continual, and the rulemaking process can be lengthy, certain provisions of the Plan are contained in an NPIP Program Standards document¹ rather than in the regulations. The NPIP Program Standards may be updated or revised via a notice-based process rather than by rulemaking.

The regulations in 9 CFR 145.45, 145.74, and 145.84 provide the basis for compartmentalization of primary poultry breeding establishments. Compartmentalization is a procedure that a country may implement to define and manage animal subpopulations of distinct health status within its territory, in accordance with the guidelines in the World Organization for Animal Health
