DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2018-0108]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on December 4, 2018, the San Pedro Valley Railroad (SPVR) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 229.23(a). FRA assigned the petition Docket Number FRA-2018-0108.

Specifically, SPVR seeks relief from 49 CFR 229.23(a), which requires that railroads perform periodic inspections "only where adequate facilities are available," and that "a locomotive shall be positioned so that a person may safely inspect the entire underneath portion of the locomotive." SPVR explains the railroad operates a small, rural switching operation with one locomotive in Willcox, AZ, and does not have an inspection pit. SPVR states that quarterly periodic inspections do not justify a costly inspection pit, which would entail extensive excavation, require a pumping system to remove storm water, and would create a safety hazard to the public. Finally, SPVR states it has been performing periodic inspections without the use of a pit for several years without accident or incident.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.
