

opportunities, events, and other news and announcements from NCJRS and the NCJRS federal sponsors, place online orders, and track their order status by creating a detailed profile on *NCJRS.gov*. End Users can also subscribe to specific Bureau, Program Office, and shared email notification lists and newsletters when creating an NCJRS account. This action can also be accomplished on various Bureau, Program Office, or *GovDelivery* webpages.

However, the NCJRS online subscription center is more than 14 years old and subscription form selections have remained relatively unchanged for more than 20 years. Moreover, the subscription process includes 19 required fields and 7 different screens, creating an undue burden for End Users.

An evaluation of the current use of the information collected through the form and its impact to End Users was conducted to see where updates can be made to make for a better user experience while enabling customer segmentation strategies for targeted outreach. The goals for revising the subscription process are to increase subscriptions by making the sign-up process less cumbersome for users and collect meaningful customer information to assist segmentation strategies for targeted outreach and upselling of Bureau and program office products and services.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* On a monthly basis, an estimated 75 End Users use the NCJRS online subscription center to subscribe. Based on pilot testing, an average of 2–4 minutes per respondent is needed to complete form. The estimated range of burden for respondents is expected to be between 2 minutes to 4 minutes for completion.

6. *An estimate of the total public burden (in hours) associated with the collection:* It is estimated that respondents will take 2–4 minutes to complete their profile. The estimated public burden hours associated for End Users to subscribe is 5 hours per month (75 respondents × 4 minutes = 300 minutes/60 minutes = 5 hours) or 60 hours per year (5 hours × 12 months = 60 hours).
