

Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process.

Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenter will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Dated: December 14, 2018.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Leather Finishing Operations (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Leather Finishing Operations (EPA ICR No. 1985.08, OMB Control No. 2060-0478), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through December 31, 2018. Public comments were previously requested, via the **Federal Register**, on June 29, 2017 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given

below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before January 22, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2014-0083, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The potential respondents for this collection of information are owners or operators of any affected source with leather finishing operations subject to 40 CFR part 63, subpart TTTT. Owners and operators of affected facilities are required to comply with reporting and recordkeeping requirements for the General Provisions of the NESHAP (40 CFR part 63, subpart A), as well as for the requirements in 40 CFR part 63, subpart TTTT. This includes submitting initial notifications, performance tests and periodic reports

and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by the EPA to determine compliance with these standards.

Form numbers: None.

Respondents/affected entities: Leather finishing operations.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart TTTT).

Estimated number of respondents: 4 (total).

Frequency of response: Initially, occasionally and annually.

Total estimated burden: 138 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$12,500 (per year), which includes \$0 for capital/startup and/or operation & maintenance (O&M) costs.

Changes in the estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The change in the burden and cost estimates is due to more accurate estimates of existing sources based on the EPA's recent reevaluation of the source category inventory as part of a recently proposed risk and technology review (83 FR 11314, March 14, 2018), which indicated that several facilities have shut down since the last ICR renewal period. These changes result in an overall decrease in the labor hours, number of responses, and O&M costs.

Director, Regulatory Support Division.

Abstract: The authority for the emergency planning and emergency release notification requirements is sections 302, 303, and 304 of the Emergency Planning and Community Right-to-Know Act (EPCRA) 1986 (42 U.S.C. 11002, 11003, and 11004). EPCRA established broad emergency planning and facility reporting requirements. Section 302 requires facilities to notify their state emergency response commission (SERC) and the local emergency planning committee (LEPC) that the facility is subject to emergency planning. This activity was completed soon after the law was passed. Only new facilities that may become subject to these requirements must notify the SERC and the LEPC. Currently covered facilities are required to notify the LEPC of any changes that occur at the facility which would be relevant to emergency planning. Section 303 requires the LEPC to prepare local emergency response plans for their planning district using the information provided by facilities under section 302. The LEPC may request any information from facilities necessary to develop emergency response plans. Emergency response plans were developed within a few months after the law was passed. LEPCs are required to review and update the plan at least annually or more frequently as changes occur in the community. Section 304 requires facilities to report to SERCs and LEPCs releases exceeding the reportable quantities listed for each extremely hazardous substance (EHS) and for each hazardous substance defined under section 101(14) of the Comprehensive Environmental Response, Compensation, and Liability Act. This ICR also covers the notification and the written follow-up required under section 304. The implementing regulations are codified in 40 CFR part 355.

Form numbers: None.

Respondents/affected entities: Entities that have a threshold planning quantity of an extremely hazardous substance (EHS) listed in 40 CFR part 355, Appendix A and those that have a release of any of the EHSs or CERCLA hazardous substances above a reportable quantity. Entities more likely to be affected by this action may include chemical manufacturers, retailers, petroleum refineries, utilities, etc.

Respondent's obligation to respond: Mandatory under EPCRA sections 302, 303 and 304.

Estimated number of respondents: 108,556.

Frequency of response: EPCRA section 302 reporting is a one-time notification unless there are changes to the reported information; EPCRA section 304 notification is only when a release of an EHS or CERCLA hazardous substance occurs from a facility.

Total estimated burden: 259,456 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$10,784,934 (per year), including \$68,867 annual operations and maintenance costs. There are no capital costs associated with this ICR.

Changes in estimates: The number of facilities subject to section 302 is 95,000, which is the same as in the previous ICR. There is an increase of 4,500 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an adjustment to the estimate, which corrected for a math error in the previous ICR renewal.

Director, Regulatory Support Division.
