

regarding the public record.⁷⁷ Following that precedent, in this proceeding, any such communication will be so limited. The primary means to communicate views in the course of the designation process will be through the submission of written comments. In other words, informal communication will supplement, not substitute for, the written record. While exact guidelines governing *ex parte* communications with the Office regarding the designation process may be issued at a later date on <https://www.copyright.gov/rulemaking/mma-designations/>, they would be similar to those imposed by the Office for the recently concluded section 1201 proceeding.⁷⁸ For example, the participating party or parties will be responsible for submitting a list of attendees and written summary of any oral communication to the Office, which will be made publicly available on the Office's website. In sum, the Office will require that all such communications be on the record to ensure the greatest possible transparency.

Dated: December 18, 2018.

Regan A. Smith,

General Counsel and Associate Register of Copyrights.

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Gatrie Johnson, National Aeronautics and Space Administration,

⁷⁷ See, e.g., 82 FR 49550, 49563 (Oct. 26, 2017) (identifying guidelines for *ex parte* communications in section 1201 rulemaking); 82 FR 58153, 58154 (Dec. 11, 2017) (identifying guidelines for *ex parte* communications in rulemaking regarding cable, satellite, and DART license reporting practices).

⁷⁸ See U.S. Copyright Office, *Ex Parte Communications*, <https://www.copyright.gov/1201/2018/ex-parte-communications.html>.

300 E Street SW, Washington, DC 20546-0001.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Gatrie Johnson, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email Gatrie.Johnson@NASA.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Contractor Financial Management Reporting System is the basic financial medium for contractor reporting of estimated and incurred costs, providing essential data for projecting costs and hours to ensure that contractor performance is realistically planned and supported by dollar and labor resources. The data provided by these reports is an integral part of the Agency's accrual accounting and cost based budgeting system. Respondents are reimbursed for associated cost to provide the information, per their negotiated contract price and associated terms of the contract. There are no "total capital and start-up" or "total operation and maintenance and purchase of services" costs associated since NASA policy requires that data reported is generated from the contractors' existing system. The contractors' internal management system shall be relied upon to the maximum extent possible. Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

II. Methods of Collection

NASA collects this information electronically and that is the preferred manner, however information may also be collected via mail or fax.

III. Data

Title: NASA Contractor Financial Management Reports.

OMB Number: 2700-0003.

Type of Review: Renewal of a previously approved collection.

Affected Public: Business or other for profit, not-for-profit institutions.

Average Expected Annual Number of Activities: 500.

Average Number of Responses per Activity: 12.

Annual Responses: 6000.

Frequency of Responses: Monthly.

Average Minutes per Response: 540.

Burden Hours: 54,000.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collection has practical utility; (2) the accuracy of NSA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Gatrie Johnson,

NASA PRA Clearance Officer.

BILLING CODE 7510-13-P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[18-100]

Notice of Information Collection

SUMMARY: The Office of Chief Health and Medical Officer (OCHMO), within the National Aeronautics and Space Administration (NASA) as part of its continuing effort to reduce public burden and maximize the utility of government information, provides the general public and other Federal agencies the opportunity to comment on an information collection project, as required by the Paperwork Reduction Act of 1995. This notice invites comment on an information collection project titled, "Electronic Medical Record for Implementation of TREAT Astronaut Act." The TREAT Astronaut Act is subsection 441 within the National Aeronautics and Space Administration Transition Authorization Act of 2017 (115th Congress, <https://www.congress.gov/115/plaws/publ10/PLAW-115publ10.pdf>).

The goal is to maintain digital medical records of routine health care, emergency treatment, and scheduled examinations for active or retired astronauts in order to develop a knowledge base and address gaps in services in support of medical monitoring, diagnosis and treatment of conditions associated with human space flight as stated in Public Law 115-10.
