

facilities that are either in design or construction. These stages require the highest level of reporting and management documentation per the Major Facilities Guide. NSF estimates there will be four (4) mid-scale projects in progress at a given time.

Burden to the Public: The Foundation estimates that approximately five (5) Full Time Equivalents (FTE's) are necessary for each major facility project in design or construction to respond to NSF performance and financial reporting and project management documentation requirements on an annual basis; or 10,400 hours per year. The Foundation estimates approximately one and half (1.5) FTE for a major facility in operations to respond to NSF performance and financial reporting on an annual basis; or 3,120 hours per year. For mid-scale projects, the Foundation estimates approximately one (1) Full Time Equivalent (FTE's) is necessary for each mid-scale project to respond to NSF project management documentation requirements on an annual basis; or 2,080 hours per year. With seven (7) major facilities in design or construction and twenty-one (21) in operations and four (4) mid-scale projects, this equates to roughly 150,000 public burden hours annually.

II. Discussion

On October 30, 2018, the NRC solicited comments on its draft guidance document, NUREG/BR-0204, Rev. 3, "Instructions for Completing NRC's Uniform Low-Level Radioactive Waste Manifest." This document provides instructions to prepare NRC Form 540 (Uniform Low-Level Radioactive Waste Manifest (Shipping Paper)), NRC Form 541 (Uniform Low-Level Radioactive Waste Manifest (Container and Waste Description)), and NRC Form 542 (Uniform Low-Level Radioactive Waste Manifest (Manifest Index and Regional Compact Tabulation)). Pursuant to the requirements of part 20 of title 10 of the Code of Federal Regulations (10 CFR part 20), "Standards for Protection Against Radiation," Appendix G, "Requirements for Transfers of Low-Level Radioactive Waste Intended for Disposal At Licensed Land Disposal Facilities and Manifests," NRC Forms 540 and 541 must be prepared for low-level radioactive waste intended for ultimate disposal at a licensed low-level radioactive waste land disposal facility. NRC Form 542 is required only if processors and collectors of low-level

radioactive waste are shipping low-level radioactive waste attributed to others for disposal at a licensed low-level radioactive waste land disposal facility. The public comment period was originally scheduled to close on December 31, 2018. The NRC has decided to extend the public comment period on this document until January 31, 2019, to allow more time for stakeholders to submit their comments.

II. Discussion

Entergy is the holder of Renewed Facility Operating License No. DPR-35 for Pilgrim. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The facility consists of one boiling-water reactor located in Plymouth, Massachusetts. By letter dated November 10, 2015 (ADAMS Accession No. ML15328A053), the licensee submitted Notification of Permanent Cessation of Power Operations for Pilgrim. In this letter, Entergy notified the NRC of its intent to permanently cease operations at Pilgrim no later than June 1, 2019.

On November 16, 2018, Entergy submitted the PSDAR including and the DCE for Pilgrim in accordance with § 50.82(a)(4)(i) of Title 10 of the *Code of Federal Regulations* (ADAMS Accession No. ML18320A034). The PSDAR includes a description of the planned decommissioning activities, a proposed schedule for their accomplishment, the DCE, and a discussion that provides the basis for concluding that the environmental impacts associated with the site-specific decommissioning activities will be bounded by appropriate, previously issued generic and plant-specific environmental impact statements.

III. Request for Comment and Public Meeting

The NRC is requesting public comments on the PSDAR including the DCE for Pilgrim. The NRC will conduct a public meeting to discuss the PSDAR including the DCE and receive comments on Tuesday, January 15, 2019, from 6 p.m. until 9 p.m., at the Hotel 1620, 180 Water Street, Plymouth, Massachusetts 02360.
