DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP19–22–000]

Notice of Application: Greylock Pipeline, LLC; Greylock Shawville Pipeline, LLC

On November 30, 2018, Greylock Pipeline, LLC (Greylock Pipeline), and Greylock Shawville Pipeline, LLC (GSP), 500 Corporate Landing, Charleston, West Virginia 25311, filed a joint application pursuant to section 7 of the Natural Gas Act (NGA) and Part 157 of the Federal Energy Regulatory Commission's (Commission) regulations requesting authorization for Greylock Pipeline to abandon its FERC Gas Tariff and services, and to abandon its facilities by transfer to GSP. Additionally, GSP requests authorization to acquire and operate all of Greylock's facilities and to adopt without substantive change Greylock Pipeline's FERC gas tariff and its jurisdictional services and agreement, all as more fully set forth in the application, which is open to the public for inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Any questions regarding Sendero's application should be directed to Benjamin M. Sullivan, Greylock Energy, LLC, 500 Corporate Landing, Charleston, West Virginia 25311, or phone (304) 925–6100, or fax (304) 925–3285, or by email bsullivan@greylockenergy.com; and Randall S. Rich, Pierce Atwood LLP, 1875 K Street NW, Suite 700, Washington, DC 20006, or phone (202) 530–6424, or by email rrich@pierceatwood.com.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of

Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings

associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Comment Date: January 4, 2018.

Dated: December 14, 2018.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18–487–000]

Notice of Schedule for Environmental Review of the Natural Gas Pipeline Company of America, LLC, Sabine Pass Compression Project

On May 18, 2018, Natural Gas Pipeline Company of America, LLC (Natural) filed an application in Docket No. CP18–487–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the Sabine Pass Compression Project (Project) and involves the construction and operation of facilities in Cameron Parish, Louisiana. The Project would enable Natural to transport an additional 400,000 dekatherms per day of natural gas for delivery to Sabine Pass Liquefaction, LLC's (Sabine Pass) liquefaction export facility located in Cameron Parish.

On May 31, 2018, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to
