**IV. Provisions of the Final Notice**

*A. Differences Between AAAHC's Standards and Requirements for Accreditation and Medicare Conditions and Survey Requirements*

We compared AAAHC's ASC accreditation program requirements and survey process with the Medicare CfCs at part 416, and the survey and certification process requirements of parts 488 and 489. Our review and evaluation of AAAHC's ASC application, which were conducted as described in section III of this final notice, yielded the following areas where, as of the date of this notice, AAAHC has revised its standards and certification processes in order to meet the requirements at:

- § 416.44(b)(1), to ensure its standards appropriately reference Life Safety Code requirements;
- § 416.44(c), to ensure its standards appropriately reference Life Safety Code requirements;
- § 416.44(c)(1)(iv), to ensure its standards appropriately reference Life Safety Code requirements;

- § 488.5(a)(4)(ii), to ensure comparability of AAAHC's survey process and surveyor guidance to those required for state survey agencies conducting federal Medicare surveys for the same provider or supplier type;

- § 488.5(a)(4)(iv), to ensure all identified areas of non-compliance are clearly documented and cited appropriately in the final survey report.

- § 488.5(a)(7) through (9), to ensure its surveyors are appropriately qualified, trained and maintain competence during extended periods of time without conducting a survey;

- § 488.5(a)(11)(ii), to ensure accurate survey findings are reported to CMS;

- § 488.5(a)(12), to ensure complaints are triaged appropriately and surveyed within the required timeframes;

- § 488.18(a), to ensure that the findings are documented and written within the principles of documentation.

- § 488.26(b), to ensure deficiencies are cited at the appropriate level based on manner and degree of findings; and

- § 488.28(d), to ensure that its policies for correction of deficiencies in ASCs is comparable to CMS requirements, requiring that deficiencies normally must be corrected within 60 days.

- § 489.13(c), to ensure that all accreditation requirements have been met before granting accreditation and making a recommendation for participation or continued participation in the Medicare program comparable to CMS requirements, requiring that deficiencies normally must be corrected within 60 days.

*B. Term of Approval*

Based on our review and observations described in section III of this final notice, we approve AAAHC as a national accreditation organization for ASCs that request participation in the Medicare program, effective December 20, 2018 through December 20, 2024.

*Proposed Projects:*  
*Title:* Head Start Eligibility Verification.  
*OMB No.:* 0970–0374.  
*Description:* The Office of Head Start (OHS) within the Administration for Children and Families, United States Department of Health and Human

Services, proposes to renew, with changes, its authority for record keeping requirements associated with Head Start eligibility verification. OHS revised the Head Start Eligibility Verification form to reflect changes in the eligibility final rule published on February 10, 2015 (80 FR 7368). OHS initially developed the form to help programs determine eligibility. However, Head Start programs are not required to use this specific form. Programs may either adopt the form or design a new form to meet the eligibility requirements.

The Office of Head Start published a final rule on eligibility under the authority granted to the Secretary of Health and Human Services under the Head Start Act (Act) at sections 644(c), 645(a)(1)(A), and 645A(c). The final rule clarifies Head Start’s eligibility procedures and enrollment requirements, and reinforces Head Start’s overall mission to support low-income families and early learning. A program must maintain records as specified in sections 1305.4(d)(2), 1305.4(l), and 1305.4(h) through (j) of the final rule.

*Respondents:* Head Start and Early Head Start program grant recipients.
