Notice of Inventory Completion: Robert S. Peabody Museum of Archaeology, Andover, MA; Correction

AGENCY: National Park Service, Interior.

ACTION: Notice; correction.

SUMMARY: The Robert S. Peabody Institute of Archaeology (formerly the Robert S. Peabody Museum of Archaeology) has corrected an inventory of human remains and associated funerary objects, published in a Notice of Inventory Completion in the **Federal Register** on September 13, 2005. This notice corrects the minimum number of individuals and the number of associated funerary objects. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian

organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the Robert S. Peabody Institute of Archaeology. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the Robert S. Peabody Institute of Archaeology at the address in this notice by January 22, 2019.

ADDRESSES: Ryan Wheeler, Robert S. Peabody Institute of Archaeology, Phillips Academy, 180 Main Street, Andover, MA 01810, telephone (978) 749-4490, email rwheeler@andover.edu.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated funerary objects under the control of the Robert S. Peabody Institute of Archaeology, Andover, MA. The human remains and associated funerary objects were removed from the Etowah site, Bartow County, GA and Little Egypt site, Murray County, GA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

This notice corrects the number of human remains and associated funerary objects published in a Notice of Inventory Completion in the **Federal Register** (70 FR 54075-54076, September 13, 2005). During a re-inventory inconsistencies in the original count of both the minimum number of individuals and associated funerary objects were identified. One individual had been counted twice; an additional individual was identified; and objects associated with the additional individual, which had previously been identified as unassociated funerary objects, were now designated associated

funerary objects. Confusion regarding which individuals were from Etowah versus Little Egypt also was resolved with the re-inventory. Additionally, the re-inventory correlated original ledger book entries with cataloged and re-cataloged objects, thus identifying previously unknown burial associations. Finally, many associated funerary objects that were misidentified or miscounted in the original inventory (likely due to attempts to count the large numbers of shell beads) were corrected, identified and counted. Transfer of control of the items in this correction notice has not occurred.

Correction

In the **Federal Register** (70 FR 54075, September 13, 2005), column 2, paragraph 4, sentence 1 is corrected by substituting the following sentence:

Between 1925 and 1928, human remains representing a minimum of 94 individuals were removed from the Etowah site, Bartow County, GA, by Warren King Moorehead of the Robert S. Peabody Museum of Archaeology.

In the **Federal Register** (70 FR 54075, September 13, 2005), column 2, paragraph 4, sentence 3 is corrected by substituting the following sentence:

The 21,638 associated funerary objects are 34 animal bone fragments and fragment lots; one basketry fragment with clay matrix lot; three burnt clay, ceramic sherds, and animal bones in lot; one ceramic bead; two ceramic elbow pipes, one ceramic basket- or canoe-shaped pipe; one ceramic handle; 21 ceramic sherds; eight ceramic vessels; one lot of charcoal and soil; one concretion; two fragments of a copper axe with wooden handle; one copper covered wooden top knot, serpent shaped; two copper disks; 680 copper fragments, including wood fragments, copper bilobed arrow ornament, mica, adhered shell beads, textile and matting fragments, animal bone; 90 copper headdress, hair ornaments and fragments; 69 copper repousse plates and fragments; three fragments of daub and fire-hardened soil; 175 freshwater pearl beads; 56 freshwater periwinkle shells; seven freshwater shells and fragments; one fur fragment with copper staining; four galena crystals; one bear canine; one kaolin core with copper; one lot of kaolin, bark, animal bone fragments, mica, soil, and ceramic sherds; four large flint bifaces or swords; 11 chipped stone projectile points; one ground stone tool fragment; three leather fragments; one limestone spatulate celt; one lump of mineral ore; 108 matting fragments, including copper stained matting, textiles, and adhered shell beads; 83 mica fragments, some with copper stained matrix; 405 miscellaneous shells and small shells; 11 modified animal bone fragments; one quartz preform; 19,352 shell beads, including diverse sizes and shapes (round, ovoid, tubular, disc, barrel, elongated, irregular), as well as mixed lots of shell beads, freshwater pearl beads, Olivella and Marginella shell

beads, soil matrix, ceramic sherds, as well as copper stained shell beads, and fragments and deteriorated beads; two rough shell disks; 12 shell gorgets and gorget fragments; 166 small stones; three soil samples; 10 pieces of wood and animal bone mixed with soil in lot; five stone celts and fragments; one stone discoidal; 10 textile fragments, including some mixed lots with wood, copper fragments, and shell beads; nine tortoise shell strips or bands; one unmodified horse conch shell; six whelk shell cup fragments; 22 whelk shell fragments; two whelk shell columella ornaments and fragments; 237 wood fragments, and mixed lots of wood with copper staining, mica, and soil; one worked stone fragment; two large Atlantic cockle shells; and one "puffball" fungus.

In the **Federal Register** (70 FR 54076, September 13, 2005), column 1, paragraph 1, sentence 1 is corrected by substituting the following sentence:

Between 1927 and 1928, human remains representing a minimum of 10 individuals were removed from the Little Egypt site in Murray County, GA, by Warren King Moorehead of the Robert S. Peabody Museum of Archaeology.

In the **Federal Register** (70 FR 54076, September 13, 2005), column 1, paragraph 1, sentence 4 is corrected by substituting the following sentence:

The 43 associated funerary objects are six miscellaneous shells and small shells; 18 shell beads; two shell gorgets; five ceramic vessels; two whelk shell ornaments; and 10 shell ornaments and fragments.

In the **Federal Register** (70 FR 54076, September 13, 2005), column 2, paragraph 1, sentence 2 is corrected by substituting the following sentence:

Officials of the Robert S. Peabody Museum of Archaeology also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 21,681 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of a death rite or ceremony.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to Ryan Wheeler, Robert S. Peabody Institute of Archaeology, Phillips Academy, 180 Main Street, Andover, MA 01810, telephone (978) 749-4490, email rwheeler@andover.edu, by January 22, 2019. After that date, if no additional requestors have come forward, transfer of control of the human remains and associated funerary objects to the Alabama-Quassarte Tribal Town; Kialegee Tribal Town; Poarch

Band of Creeks (previously listed as the Poarch Band of Creek Indians of Alabama); The Muscogee (Creek) Nation; and the Thlopthlocco Tribal Town (hereafter referred to as "The Tribes") may proceed.

The Robert S. Peabody Institute of Archaeology is responsible for notifying The Tribes that this notice has been published.

Dated: November 28, 2018.

Melanie O'Brien,

Manager, National NAGPRA Program.

Notice of Inventory Completion: Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Peabody Museum of Archaeology and Ethnology has completed an inventory of human remains in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is no cultural affiliation between the human remains and any present-day Indian Tribes or Native Hawaiian organizations. Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to the Peabody Museum of Archaeology and Ethnology. If no additional requestors come forward, transfer of control of the human remains to the Indian Tribes or Native Hawaiian organizations stated in this notice may proceed.

DATES: Representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to the Peabody Museum of Archaeology and Ethnology at the address in this notice by January 22, 2019.

ADDRESSES: Patricia Capone, Museum Curator and Director of Research and Repatriation, Peabody Museum of Archaeology and Ethnology, Harvard University, 11 Divinity Avenue,

Cambridge, MA 02138, telephone (617) 496-3702, email pcapone@fas.harvard.edu.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of the Peabody Museum of Archaeology and Ethnology, Harvard University, Cambridge, MA. The human remains were removed from Stewart County, TN.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3) and 43 CFR 10.11(d). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Peabody Museum of Archaeology and Ethnology professional staff in consultation with representatives of the Cherokee Nation; Eastern Band of Cherokee Indians; The Chickasaw Nation; The Choctaw Nation of Oklahoma; The Muscogee (Creek) Nation; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

History and Description of the Remains

In 1879, human remains representing, at minimum, three individuals were removed from a "Mound on Mr. Banister's Place," located near Dover in Stewart County, TN, by Edwin Curtiss as part of a Peabody Museum of Archaeology and Ethnology expedition led by F. W. Putnam. No known individuals were identified.

In 1879, human remains representing, at minimum, three individuals were removed from a cemetery on "James C. Green's Place," located near Dover in Stewart County, TN, by Edwin Curtiss as part of a Peabody Museum of Archaeology and Ethnology expedition led by F. W. Putnam. No known individuals were identified.

In 1879, human remains representing, at minimum, three individuals were removed from a mound on "Mr. Perkin's Farm," located 100 miles below Nashville on the Cumberland River in Stewart County, TN, by Edwin Curtiss as part of a Peabody Museum of Archaeology and Ethnology expedition led by F. W. Putnam. No known individuals were identified.

In 1879, human remains representing, at minimum, one individual were
