

municipal waste combustor unit capacity greater than 225 megagrams per day of municipal solid waste. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 60, subparts Ea and Eb.

Form numbers: None.

Respondents/affected entities:

Owners and operators of municipal waste combustor (MWC) facilities.

Respondent's obligation to respond:

Mandatory (40 CFR part 60, subparts Ea and Eb).

Estimated number of respondents: 23.

Frequency of response: Initially, quarterly and semiannually.

Total estimated burden: 34,900 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,440,000 (per year), which includes \$226,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an increase in the respondent burdens from the most recent ICR. The adjustments are due to a change in the number of sources subject to each Subpart, which was revised to reflect more recent information obtained through the Agency's research within the MWC sector.

Agency require testing for whole pesticide formulations to account for the toxicological effects of inert and adjuvant ingredients and the testing of tank mixes to assess the interaction between pesticide ingredients. CSF believes this change is needed to meet the applicable safety standards of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

DATES: Comments must be received on or before March 21, 2019.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2018-0262, by one of the following methods:

II. What action is the agency taking?

EPA requests public comment on a petition received from CFS requesting EPA take the following actions:

1. Revise pesticide registration regulations to take into account all pesticide ingredients (active, inert and adjuvant) and their effects on the environment.
2. Revise pesticide registration regulations to require whole pesticide formulation and tank mixture testing to take into account synergistic effects.
3. Revise pesticide registration regulations to require inert ingredients and whole pesticide formulations testing for chronic toxicological effects and degradation.
4. Revise pesticide registration regulations to require Endangered Species Act (ESA) consultation on the effects of whole pesticide formulations and tank mixtures on threatened and endangered species.
5. Comply with the above requirements in conducting statutorily mandated registration reviews of pesticides.

III. What should I consider as I prepare my comments for EPA?

Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI.
