

Cost recovery fees are submitted to NMFS by Fish buyers via *Pay.gov* (<https://www.pay.gov/paygov/>). Fees are only accepted in *Pay.gov* by credit/debit card or bank transfers. Cash or checks cannot be accepted. Fish buyers registered with *Pay.gov* can login in the upper left-hand corner of the screen. Fish buyers not registered with *Pay.gov* can go to the cost recovery forms directly from the website below. The links to the *pay.gov* forms for each program (IFQ, MS, or CP) are listed below:

IFQ: <https://www.pay.gov/public/form/start/58062865>

MS: <https://www.pay.gov/public/form/start/58378422>

CP: <https://www.pay.gov/public/form/start/58102817>

As stated in the preamble to the cost recovery proposed and final rules, in the spring of each year, NMFS will release an annual report documenting the details and data used for the above calculations. The report includes information such as the fee percentage calculation, program costs, and ex-vessel value by sector. The 2017–2018 annual report was delayed until November 2018 to allow for changes to the report following discussions with members of industry. Annual reports are available at: http://www.westcoast.fisheries.noaa.gov/fisheries/groundfish_catch_shares/rules_regulations/costrecovery.html.

Corrections to the 2018 Cost Recovery Fee Calculations

Between the publication of the 2018 cost recovery fees in the **Federal Register** (82 FR 61752) and the presentation of the 2017–2018 Cost Recovery Annual Report to the Council, NMFS identified two costs (totaling \$163,614.41) that had been included in the 2017 IFQ DPCs that were not recoverable. This does not affect the 2019 fees, and a description of these costs is included below as an explanation.

While reviewing the DPCs for the 2018 cost recovery fee, NMFS identified a total of \$163,614.41 in costs that were not recoverable and, therefore, removed that amount from the fee calculations. Part of that total consisted of a contracting cost of \$74,480.64, which NMFS removed because these contracting costs were to fund a database that supports both catch share and non-catch share data and is not considered incremental. The remainder, *i.e.*, \$89,133.77, was associated with a task code that staff used on their timesheet intended for cost recovery for non-recoverable tasks, and NMFS also

removed that cost. Both of these costs were only associated with the Shorebased IFQ Program and their removal did not affect the 2018 fee percentage for that program because the IFQ DPC remained above the three percent cap.
