

“the facility embodies all of the aspects of sham recycling that the 1989 Lowrance Memo [RO 11426], and both the 2008 and 2015 DSW rulemakings were intended to prohibit.” EPA responds to this comment as follows:

Issues regarding individual facilities are beyond the scope of this rulemaking. The purpose of the proposed rulemaking published at 83 FR 45061, September 5, 2018, was not to evaluate recycling activities at particular facilities or VRF variance applications. The Louisiana proposed rulemaking addresses regulations that the state adopted and EPA reviewed. EPA concluded that the state regulations, except for the court vacated provisions, are equivalent and consistent with the federal RCRA Subtitle C program, as amended through April 17, 2015. EPA reiterates that the Agency determined the Louisiana VRE standard is broader in scope than the federal regulations and, accordingly, did not propose to authorize the State of Louisiana for the VRE standard.

C. Final Action

Based on the comments received in response to the proposed authorization of the State of Louisiana hazardous waste program, EPA’s responses to the comments, and consideration of the administrative record, EPA is granting final authorization of the state’s program, except for the VRE and other state provisions which are broader in scope than federal rules and remain unaffected by the vacatur ordered by the United States Court of Appeals for the District of Columbia Circuit, on July 7, 2017, as modified on March 6, 2018. EPA retains its authority under RCRA sections 3007, 3008, 3013 and 7003 which include, among others, authority to: (1) Take enforcement actions regardless of whether the state has taken its own action, (2) enforce RCRA requirements and suspend or revoke permits; and (3) perform inspections, and require monitoring, tests, analyses or reports.

D. What is codification and is the EPA codifying Louisiana’s hazardous waste program as authorized in this rule?

Codification is the process of placing the State’s statutes and regulations that comprise the State’s authorized hazardous waste program into the CFR. We do this by referencing the authorized State rules in 40 CFR part 272. We reserve the amendment of 40 CFR part 272 subpart T for this authorization of Louisiana’s program changes until a later date. In this authorization application, the EPA is

not codifying the rules documented in this **Federal Register** notice.

E. Administrative Requirements

This final authorization revises Louisiana’s authorized hazardous waste management program pursuant to RCRA section 3006 and imposes no requirements other than those currently imposed by state law. For further information on how this authorization complies with applicable executive orders and statutory provisions, please see the proposed rulemaking published in the **Federal Register** (83 FR 45061, September 5, 2018).

Synopsis

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), the Commission is notifying the public that it received OMB approval on November 27, 2018, for the revised information collection requirements contained in the Commission’s rule at 47 CFR 22.303. Under 5 CFR part 1320, an agency may not conduct or sponsor a collection of information unless it displays a current, valid OMB Control Number.

No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a current, valid OMB Control Number. The OMB Control Number is 3060–0508.

The foregoing notice is required by the Paperwork Reduction Act of 1995, Public Law 104–13, October 1, 1995, and 44 U.S.C. 3507.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–0508.

OMB Approval Date: November 27, 2018.

OMB Expiration Date: November 30, 2021.

Title: Parts 1 and 22 Reporting and Recordkeeping Requirements.

Form Number: Not applicable.

Respondents: Business or other for-profit entities, Individuals or households, and State, Local or Tribal Governments.

Number of Respondents and Responses: 15,465 respondents; 16,183 responses.

Frequency of Response: Recordkeeping requirement; On occasion, quarterly, and semi-annual reporting requirements. Third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 222, 303, 309 and 332.

Total Annual Burden: 2,606 hours.

Annual Cost Burden: \$19,138,350.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information. The information to be collected will be made available for public inspection.

Applicants may request materials or information submitted to the Commission be given confidential treatment under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Part 22 contains the technical and legal requirements for radio stations operating in the Public Mobile Services. The information collected is used to determine, on a case-by-case basis, whether or not to grant licenses authorizing construction and operation of wireless telecommunications facilities to common carriers. Further, this information is used to develop statistics about the demand for various wireless licenses and/or the licensing process itself, and occasionally for rule enforcement purposes.

The Federal Communications Commission (Commission) received approval for a revision of OMB Control No. 3060-0508 from the Office of Management and Budget (OMB). The revised information collection reflects deletion of a rule applicable to all licensees and applicants governed by part 22 of the Commission's rules, as adopted by the Commission in a *Third Report and Order* on July 12, 2018 (WT Docket Nos. 12-40 and 16-138; RM Nos. 11510 and 11660; FCC 19-82). The *Third Report and Order* deleted certain part 22 rules that either imposed administrative and recordkeeping burdens that are outdated and no longer serve the public interest, or that are

largely duplicative of later-adopted rules and are thus no longer necessary. Among the rule deletions and of relevance to this information collection, the Commission deleted rule § 22.303, resulting in discontinued information collection for that rule section.

Federal Communications Commission.
