A sector is granted an annual allocation of most stocks of fish managed by the NE Multispecies FMP. In return for increased operational flexibility, such as exemptions from certain effort controls and the ability to pool and trade quota, sectors have additional reporting and monitoring requirements. FOR FURTHER INFORMATION CONTACT: Sara Young or Shasta McClenahan, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant requests a five year permit to study northern elephant seals at the Piedras Blancas Rookery in San Simeon, CA, and new pupping beaches at Vandenberg Air Force Base. Research would be conducted year-round on all age classes and both sexes, with increased frequency and effort during the breeding season (December–April). This study would establish a catalog of known individual seals at the Piedras Blancas colony via marking, tagging, and weighing of young-of-the-year pups. Types of takes include behavioral

observations, measurements, bioacoustic recordings, acoustic playbacks, marking, flipper tagging, capture, and non-invasive physiological sampling. A total of 64, 927 elephant seals will be taken annually: 3,550 handle/release takes, 500 capture/ handle/release takes, 1,575 harassment takes, 59,000 incidental disturbance takes, and two unintentional mortality takes, not to exceed five mortalities over the life of the permit. Samples from up to 300 naturally deceased elephant seals may be salvaged and imported, exported, or received annually. Nontarget species that may be incidentally disturbed include California sea lions (Zalophus californianus), harbor seals (Phoca vitulina), and northern fur seals (Callorhinus ursinus).

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

- 2.9 percent for the Shorebased Individual Fishing Quota (IFQ) Program,
- 0 percent for the MS Co-op Program,
- 0 percent for the Catcher/Processer (CP) Co-op Program.
