

- (g) * * *
- (2) * * *
- (ii) * * *

(B) The typed, printed, or handwritten signature of such claimant, successor or assignee, or agent, accompanied by the typed or printed name of that person if the signature is handwritten;

* * * * *

PART 211—MASK WORK PROTECTION

■ 7. The authority citation for part 211 continues to read as follows:

Authority: 17 U.S.C. 702, 908.

■ 8. Amend § 211.4 by revising paragraphs (b)(3)(ii) and (d) introductory text to read as follows:

§ 211.4 Registration of claims of protection in mask works.

* * * * *

- (b) * * *
- (3) * * *

(ii) The typed, printed, or handwritten signature of the applicant, accompanied by the typed or printed name of that person if the signature is handwritten.

* * * * *

(d) *Registration for one mask work.* Subject to the exceptions specified in paragraph (c)(2) of this section, for purposes of registration on one application and upon payment of one filing fee, the following shall be considered one work:

* * * * *

PART 212—PROTECTION OF VESSEL DESIGNS

■ 9. The authority citation for part 212 continues to read as follows:

Authority: 17 U.S.C. chapter 13.

■ 10. Amend § 212.3 as follows:

- a. In paragraph (f)(1):
 - i. Remove the words “a single make” and add in their place “the same make”;
 - ii. Remove the words “a single application” and add in their place “one application”;
 - iii. Remove the words “used for all designs” and add in their place “used to register all the designs”; and
 - iv. Remove both instances of the words “each of the designs” and add in their place “each design”.
- b. Revise paragraph (f)(2).
- c. In paragraph (f)(4), remove the words “a single” and add in their place “one”.

The revision reads as follows:

§ 212.3 Registration of claims for protection of eligible designs.

* * * * *

- (f) * * *

(2) *One application.* Where one application for multiple designs is appropriate, a separate Form D–VH/CON must be used for each design beyond the first appearing on Form D–VH. Each Form D–VH/CON must be accompanied by deposit material identifying the design that is the subject of the Form D–VH/CON, and the deposit material must be attached to the Form D–VH/CON. The Form D–VH and all the Form D–VH/CONs for the application must be submitted together.

* * * * *

■ 11. Amend § 212.8 by revising paragraphs (c)(1)(x)(A) and (B) to read as follows:

§ 212.8 Correction of errors in certificates of registration.

* * * * *

- (c) * * *
- (1) * * *
- (x) * * *

(A) The typed, printed, or handwritten signature of the owner of the registered design or of the duly authorized agent of such owner (who shall also be identified);

(B) The date of the signature and, if the signature is handwritten, the typed or printed name of the person whose signature appears; and

* * * * *

BILLING CODE 1410–30–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R10–OAR–2017–0597; FRL–9988–51–Region 10]

Air Plan Approval; AK: Fine Particulate Matter Infrastructure Requirements; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction.

SUMMARY: The Environmental Protection Agency (EPA) issued a final rule on November 27, 2018, entitled “Air Plan Approval; AK: Fine Particulate Matter Infrastructure Requirements.” This document makes a minor change to the November 27, 2018, action to correct a

typographical error in the regulatory text for the rule.

DATES: This document is effective on December 27, 2018.

FOR FURTHER INFORMATION CONTACT: Kristin Hall at (206) 553–6357, hall.kristin@epa.gov.

SUPPLEMENTARY INFORMATION:

Background

The EPA issued “Air Plan Approval; AK: Fine Particulate Matter Infrastructure Requirements” as a final rule on November 27, 2018 (83 FR 60769). This final rule approved the Alaska SIP as meeting specific infrastructure requirements for the fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS). For more information, please see the EPA’s rulemaking action at <https://www.regulations.gov> under Docket ID No. EPA–R10–OAR–2017–0597, and the **Federal Register** publications for the proposed rule on January 23, 2018 (83 FR 3101), and the final rule on November 27, 2018 (83 FR 60769).

Need for Correction

As published, the regulatory text in the final rule contains a minor error that, if not corrected, prevents publication of the regulatory amendment in the Code of Federal Regulations. The EPA finds that there is good cause to make this correction without providing for notice and comment because neither notice nor comment is necessary and would not be in the public interest due to the nature of the correction which is minor, technical and does not change the obligations already existing in the rule. The EPA finds that the corrections are merely correcting the wording in the amendatory language so that the provision may be published in the Code of Federal Regulations.

Corrections of Publication

In the regulatory text to the final rule for “Air Plan Approval; AK: Fine Particulate Matter Infrastructure Requirements” published November 27, 2018 (83 FR 60769), the EPA is correcting a minor error in amendatory instruction number 2.b. Instruction number 2.b. reads “Adding entries ‘Infrastructure Requirements—2012 PM_{2.5} NAAQS’ and ‘Infrastructure Requirements—1997, 2006, and 2012 PM_{2.5} NAAQS’ after entry ‘Interstate Transport Requirements—2010 SO₂ NAAQS’.” However, there is no entry “Interstate Transport Requirements—2010 SO₂ NAAQS”. The EPA is correcting this error so that amendatory instruction number 2.b. reads “Adding

entries ‘Infrastructure Requirements—2012 PM_{2.5} NAAQS’ and ‘Infrastructure Requirements—1997, 2006, and 2012 PM_{2.5} NAAQS’ after entry ‘Infrastructure Requirements—2010 SO₂ NAAQS’”.

In FR Doc. 2018–25681, published November 27, 2018 (83 FR 60769), make the following correction:

§ 52.70 [Corrected]

■ 1. On page 60773, in the right column, in the amendatory instruction for § 52.70, amendatory instruction 2.b. is corrected to read “Adding entries ‘Infrastructure Requirements—2012 PM_{2.5} NAAQS’ and ‘Infrastructure Requirements—1997, 2006, and 2012 PM_{2.5} NAAQS’ after entry ‘Infrastructure Requirements—2010 SO₂ NAAQS’”.

Dated: December 13, 2018.

Chris Hladick,

Regional Administrator, Region 10.

Air Plan Approval; Illinois; Indiana; Revised Designation of Illinois and Indiana 2012 PM_{2.5} Unclassifiable Areas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving Illinois’ May 8, 2018 request to revise the designation for the entire State of Illinois from unclassifiable to unclassifiable/attainment and Indiana’s July 3, 2018 request to revise the designation for the Indiana portions of the Chicago IL–IN and Louisville KY–IN areas from unclassifiable to unclassifiable/attainment for the 2012 primary and secondary annual fine particulate matter (PM_{2.5}) National Ambient Air Quality Standards (NAAQS). EPA is approving these requests because valid, quality-assured, and certified ambient air monitoring data show that the PM_{2.5} monitors in the areas are meeting the 2012 primary and secondary annual PM_{2.5} NAAQS.

DATES: This final rule is effective on January 28, 2019.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–R05–OAR–2018–0368

(Illinois) or EPA–R05–OAR–2018–0556 (Indiana). All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either through www.regulations.gov or at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Michelle Becker, Life Scientist, at (312) 886–3901 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT:

Michelle Becker, Life Scientist, at (312) 886–3901, Attainment Planning and Maintenance Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–3901, becker.michelle@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA. This supplementary information section is arranged as follows:

- I. Background
- II. What action is EPA taking?
- III. Statutory and Executive Order Reviews

I. Background

On December 14, 2012, EPA revised the primary annual NAAQS for PM_{2.5} to a level of 12 micrograms per cubic meter (µg/m³), based on a 3-year average of annual mean PM_{2.5} concentrations. See 78 FR 3085 (January 15, 2013). EPA established the standard based on significant evidence and numerous health studies demonstrating that serious health effects are associated with exposures to particulate matter.

The process for designating areas following promulgation of a new or revised NAAQS is contained in section 107(d)(1) of the Clean Air Act (CAA). On January 15, 2015 (80 FR 2206) and April 7, 2015 (80 FR 18535), EPA designated areas across the country as nonattainment, unclassifiable, or unclassifiable/attainment for the PM_{2.5} NAAQS based upon air quality monitoring data from monitors for calendar years 2011–2013 or 2012–2014.

In the first action, EPA designated the entire State of Illinois, including the

multi-State areas of Chicago, IL–IN and St. Louis, MO–IL as unclassifiable because the ambient air quality monitoring sites lacked complete data for the relevant periods, which were from 2011–2013. Therefore, EPA could not determine, based on available information, whether those areas were meeting the 2012 PM_{2.5} NAAQS. EPA also designated the Louisville, KY–IN area as nonattainment, based on monitoring data for Indiana counties Clark and Floyd for 2011–2013 showing that a monitor in Clark County had a design value above the standard.

However, in the April 7, 2015 (80 FR 18535) action, EPA changed the designation for Louisville, KY–IN area from nonattainment to unclassifiable due to invalid monitoring data for Jefferson County, Kentucky.

On May 8, 2018, Illinois submitted a request to revise the designation for the entire State of Illinois from unclassifiable to unclassifiable/attainment and on July 3, 2018 Indiana submitted a request to revise the designation for the Indiana portions of the Chicago IL–IN and Louisville KY–IN areas from unclassifiable to unclassifiable/attainment for the 2012 annual PM_{2.5} NAAQS.

In a notice of proposed rulemaking (NPRM) published on October 9, 2018 (83 FR 50556), EPA proposed to approve Illinois’ request to revise the entire State of Illinois from unclassifiable to unclassifiable/attainment, and Indiana’s request to similarly revise the designation for the Indiana portions of the Chicago IL–IN and Louisville KY–IN, for the 2012 annual PM_{2.5} NAAQS. The details of Illinois’ and Indiana’s submittals and the rationale for EPA’s actions are further explained in the NPRM. EPA did not receive any adverse comments on the proposed action.

II. What action is EPA taking?

EPA is approving Illinois’ May 8, 2018 request to revise the designation of the entire State from unclassifiable to unclassifiable/attainment as well as Indiana’s July 3, 2018 request to similarly revise the designation of the Indiana portions of the Louisville and Chicago areas for the 2012 annual PM_{2.5} NAAQS. The revised designations change the legal designation, found at 40 CFR part 81, for the Illinois and Indiana counties of Lake, Porter, Clark, and Floyd from unclassifiable to unclassifiable/attainment for the 2012 annual PM_{2.5} NAAQS.

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission
