

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: The Commission adopted the Contest Rule in 1976 to address concerns about the manner in which broadcast stations were conducting contests over the air. The Contest Rule generally requires stations to broadcast material contest terms fully and accurately the first time the audience is told how to participate in a contest, and periodically thereafter. In addition, stations must conduct contests substantially as announced. These information collection requirements are necessary to ensure that broadcast licensees conduct contests with due regard for the public interest.

The Contest Rule permit broadcasters to meet their obligation to disclose contest material terms on an internet website in lieu of making broadcast announcements. Under the amended Contest Rule, broadcasters are required to (i) announce the relevant internet website address on air the first time the audience is told about the contest and periodically thereafter; (ii) disclose the material contest terms fully and accurately on a publicly accessible internet website, establishing a link or tab to such terms through a link or tab on the announced website's home page, and ensure that any material terms disclosed on such a website conform in all substantive respects to those mentioned over the air; (iii) maintain contest material terms online for at least thirty days after the contest has ended; and (v) announce on air that the material terms of a contest have changed (where that is the case) within 24 hours of the change in terms on a website, and periodically thereafter, and to direct consumers to the website to review the changes.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

BILLING CODE 6715-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; National and Tribal Evaluation of the 2nd Generation of the Health Profession Opportunity Grants (OMB #0970-0462)

AGENCY: Office of Planning, Research, and Evaluation; Administration for Children and Families; HHS.

ACTION: Request for Public Comment.

SUMMARY: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is proposing data collection activities as part of the Health Profession Opportunity Grants (HPOG) to Serve TANF Recipients and Other Low Income Individuals. ACF has developed a multi-pronged research and evaluation approach for the HPOG Program to better understand and assess the activities conducted and their results. Two rounds of HPOG grants have been awarded—the first in 2010 (HPOG 1.0) and the second in 2015 (HPOG 2.0). There are federal evaluations associated with each round of grants. HPOG grants provide funding to government agencies, community-based organizations, post-secondary educational institutions, and tribal-affiliated organizations to provide education and training services to Temporary Assistance for Needy Families (TANF) recipients and other low-income individuals, including tribal members. Under HPOG 2.0, ACF provided grants to five tribal-affiliated organizations and 27 non-tribal entities. OMB previously approved data collection under OMB Control Number 0970-0462 for the HPOG 2.0 National and Tribal Evaluation. The first submission, approved in August 2015, included baseline data collection instruments and the grant performance management system. A second

submission, approved in June 2017, included additional data collection for the National Evaluation impact study, the National Evaluation descriptive study, and the Tribal Evaluation. A third submission for National Evaluation impact study data collection was approved in June 2018. The proposed data collection activities described in this **Federal Register** Notice will provide data for the impact, descriptive, and cost benefit studies of the 27 non-tribal grantees participating in the National Evaluation of HPOG 2.0.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation, 330 C Street SW, Washington, DC 20201, Attn: OPRE Reports Clearance Officer. Email address: OPREinfocollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The National Evaluation pertains only to the 27 non-tribal grantees that received HPOG 2.0 funding. The design for the National Evaluation features an impact study, a descriptive study, and a cost benefit study. The National Evaluation is using an *experimental design* to measure and analyze key participant outcomes including completion of education and training, receipt of certificates and/or degrees, earnings, and employment in a healthcare career. The impact evaluation will assess the outcomes for study participants that were offered HPOG 2.0 training, financial assistance, and support services, compared to outcomes for a control group that were not offered HPOG 2.0 services.

ACF and the study team estimates that the non-tribal grantees will randomize about 40,000 applicants. As detailed in the burden estimates below, the study team will only survey a subset of those randomized.

The goal of the descriptive study is to describe and assess the implementation, systems change, outcomes, and other important information about the operations of the 27 non-tribal HPOG grantees, which are operating 38 distinct programs. To achieve these goals, it is
