Background

Codex was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Codex Committee on Fats and Oils (CCFO) is responsible for elaborating worldwide standards for fats and oils of animal, vegetable, and marine origin, including margarine and olive oil.

The CCFO is hosted by Malaysia. The United States attends CCFO as a member country of Codex.

Title: 7 CFR part 1951, subpart F, Analyzing Credit Needs and Graduation of Borrowers.

OMB Control Number: 0575–0093.

Type of Request: Revision of a currently approved information collection.

Abstract: Section 333 of the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1983) requires the Agencies to “graduate” their direct loan borrowers to other credit when they are able to do so. Graduation is required because the Government loans are not to be extended beyond a borrower's need for subsidized rates or Government credit. Borrowers must refinance their direct Government loan when other credit becomes available at reasonable rates and terms. If other credit is not available, the Agencies will continue to review the account for possible graduation at periodic intervals. The information collected to carry out these statutory mandates is financial data such as amount of income, operating expenses, asset values and liabilities. This information collection is then submitted by the Agencies to private creditors.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 2 hours per response.

Respondents: Public bodies, Not for Profits, or Indian Tribes.

Estimated Number of Respondents: 575.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 585.

Estimated Total Annual Burden on Respondents: 1,160.
