DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Title: Survey of Uses of NOAA Ecological Forecasting Products in Western Lake Erie, the Gulf of Mexico, and Chesapeake Bay.

OMB Control Number: 0648–xxxx.

Form Number(s): None.

Type of Request: Regular (request for a new information collection).

Number of Respondents: 600.

Average Hours per Response: 15 minutes.

Burden Hours: 150.

Needs and Uses: This request is for a new information collection.

In recent years, harmful algal blooms (HABs) and waterborne pathogens such as Vibrio vulnificus have caused major health, ecological, and economic concerns. HABs and other waterborne pathogens can lead to a number of impacts including impaired drinking water, reduced recreational opportunities, and human health impacts from either ingesting affected fish/water or contact with the bloom. To better serve the public and its stakeholders, NOAA has developed forecasts of HABs extent and severity in the western Lake Erie and in the Gulf of Mexico and is finalizing development of a forecast for Vibrio vulnificus in Chesapeake Bay. These forecast products are designed to provide stakeholders and the public with information that can be used to make better decisions that would mitigate the impacts of HABs and waterborne pathogens.

This request is for a set of related surveys to collect information on how stakeholders use NOAA’s ecological forecast products in western Lake Erie, the Gulf of Mexico (the western shore of Florida and the Texas coastline), and Chesapeake Bay. The surveys are designed to collect similar information from the public and other stakeholders across the three geographic regions covered by the forecast products. The information from these surveys will assist NOAA in understanding how stakeholders, including the public, would use the forecast products. This information will help NOAA further improve upon research, development, and delivery of forecast products nationwide.

For western Lake Erie and the Gulf of Mexico, NOAA plans two related surveys in each region. First, NOAA will collect information from the public on how using the information in the forecast products would affect decisions related to fishing, swimming and boating. A companion survey would ask charter boat operators on Lake Erie how information in the forecast would affect their decisions regarding fishing operations. These activities (fishing, swimming and boating) reflect the types of activities likely to be affected by HABs in each area. Drinking water is also at risk in Lake Erie due to HABs, but NOAA has information on how drinking water facilities respond to HABs and is also discussing use of the forecast products with a small (fewer than 10) number of drinking water facilities.

For Chesapeake Bay, NOAA would implement one survey focused on recreational swimmers. The primary risk posed by Vibrio vulnificus is through contact with the bacterium; thus, NOAA determined that focusing on recreational swimmers use of the forecast product would be the most productive approach.

Affected Public: Individuals or households; business or other for-profit organizations.

Frequency: One time.

Respondent’s Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA Submission@omb.eop.gov or fax to (202) 395–5806.

Sarah Brabson,
NOAA PRA Clearance Officer.

BILLING CODE 3510–JE–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Greater Atlantic Region Logbook Family of Forms

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before March 4, 2019.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at pracommnts@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to James StCyr, Greater Atlantic Regional Office, Analysis & Program Support Division, Data Processing & Quality Branch, 55 Great Republic Dr, Gloucester, MA 01930, (978) 281–9369 or james.stcyr@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection. Under the provisions of the Magnuson-Stevens Fishery Conservation and Management
Act (16 U.S.C. 1801 et seq.), the National Oceanic and Atmospheric Administration’s (NOAA) National Marine Fisheries Service (NMFS) is responsible for management of the nation’s marine fisheries. Fishing vessels permitted to participate in Federally-permitted fisheries in the Northeast are required to submit logbooks containing catch and effort information about their fishing trips. The information submitted is needed for the management of the fisheries. This action seeks to renew Paperwork Reduction Act clearance for these requirements.

II. Method of Collection

Information is collected using either paper or electronic logbooks.

III. Data

OMB Control Number: 0648–0212.

Estimated Total Annual Cost to Public: 61,160.

Estimated Total Annual Burden Hours: 11,509.

Estimated Total Annual Cost to Public: 61,160.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sarah Brabson,

NOAA PRA Clearance Officer.
of Indian children with disabilities. The meeting is open to the public.

The following items will be on the agenda:

- An orientation session will be provided to new Advisory Board members.
- The Advisory Board will meet with SIPI personnel to inquire about mission and articulation agreements with 4-year post-secondary schools for teacher preparation programs within BIE.
- Meet with BIE Senior management to discuss special education topics related to students with disabilities.
- Work on priorities, advice and recommendations for 2019.
- Public Comment Period on Friday, January 18, 2019 from 3–3:30 p.m.

The final agenda will be posted to the Advisory Board’s website at https://www.bie.edu/Programs/SpecialEd/AdvisoryBoard/index.htm.

Interested members of the public may submit relevant information or questions for the Board to consider during the public meeting. Written comments received in advance of the meeting will be made available to the Advisory Board for their consideration. Written comments can be emailed to the DFO at jennifer.davis@bie.edu; or faxed to (602) 265–0293, Attention: Jennifer Davis, DFO; or mailed or hand delivered to the Bureau of Indian Education, Attention: Jennifer Davis, DFO, 2600 N Central Avenue, Suite 800, Phoenix, Arizona 85004.

Individuals wishing to make an oral comment during the time reserved for public comment should contact the DFO (see FOR FURTHER INFORMATION CONTACT).

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Tara Sweeney,
Assistant Secretary—Indian Affairs.

[FR Doc. 2018–28368 Filed 12–31–18; 8:45 am]
must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the Federal Register. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of section 204(a) of the Federal Advisory Committee Act (5 U.S.C. 552c). Pursuant to section 207.61(e) of the Commission’s rules, the Secretary will make BPI available in the proceeding, provided that the Secretary determines that the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 1, 2019. Pursuant to section 207.61(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.61(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is March 8, 2019. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s Handbook on E-Filing, available on the Commission’s website at https://edis.usitc.gov, elaborates upon the Commission’s rules with respect to electronic filing. Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed; the OMB number is 3117 0016/USITC No. 18–5–419, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission in writing within 30 days of publication and specify the reason for not furnishing the information. A five-year review is not the same particular matter as the underlying investigation for purposes of section 204(a) of the Act (5 U.S.C. 552c) and a five-year review is not the same particular matter as the underlying investigation for purposes of section 204(a) of the Act (5 U.S.C. 552c). If an interested party responds that it has suffered an adverse inference against the party pursuant to section 204(a) of the Act (5 U.S.C. 552c) in making its determinations in the reviews.

Information to be provided in response to this Notice of Institution: As used below, the term “firm” includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the Domestic Like Product, a U.S. union or worker group, a U.S. importer of the Subject Merchandise, a foreign producer or exporter of the Subject Merchandise, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your works are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the Domestic Industry in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675(a)(1)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of Subject Merchandise on the Domestic Industry.
(5) A list of all known and currently operating U.S. producers of the Domestic Like Product. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the Subject Merchandise and producers of the Subject Merchandise in the Subject Country that currently export or have exported Subject Merchandise to the United States or other countries after 2012.

(7) A list of 3–5 leading purchasers in the U.S. market for the Domestic Like Product and the Subject Merchandise (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the Domestic Like Product or the Subject Merchandise in the U.S. or other markets.

(9) If you are a U.S. producer of the Domestic Like Product, provide the following information on your firm’s operations on that product during calendar year 2018, except as noted (report quantity data in pounds and in number of tires and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the Domestic Like Product accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm to produce the Domestic Like Product (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the Domestic Like Product produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the Domestic Like Product produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold, (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the Domestic Like Product produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the Subject Merchandise from the Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and in number of tires and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from the Subject Country accounted for by your firm’s(s’) imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of Subject Merchandise imported from the Subject Country; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. imports of Subject Country.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the Subject Merchandise in the Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and in number of tires and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of Subject Merchandise in the Subject Country accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm(s) to produce the Subject Merchandise in the Subject Country (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of your firm(s’) exports to the United States of Subject Merchandise and, if known, an estimate of the percentage of total exports to the United States of Subject Merchandise from the Subject Country accounted for by your firm’s(s’) exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in the Subject Country after 2012, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States, Subject Merchandise produced in the Subject Country, and such merchandise from other countries.

(13) (OPTIONAL) A statement of whether you agree with the above definitions of the Domestic Like Product and Domestic Industry; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission’s rules.

By order of the Commission.

Issued: December 21, 2018.

Lisa Barton,
Secretary to the Commission.

[FR Doc. 2018–28270 Filed 12–31–18; 8:45 am]

BILLING CODE 7020–02–P
INTERNATIONAL TRADE COMMISSION

Sodium Nitrite From China and Germany: Institution of Five-Year Reviews

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether revocation of the antidumping and countervailing duty orders on sodium nitrite from China and the antidumping duty order on sodium nitrite from Germany would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted January 2, 2019. To be assured of consideration, the deadline for responses is February 1, 2019. Comments on the adequacy of responses may be filed with the Commission by March 6, 2019.

SUPPLEMENTARY INFORMATION:

Background.—On August 27, 2008, the Department of Commerce issued antidumping and countervailing duty orders on sodium nitrite from China and an antidumping duty order on sodium nitrite from Germany (73 FR 50593 and 73 FR 50595). Following the first five-year reviews by Commerce and the Commission, effective February 12, 2014, Commerce issued a continuation of the antidumping duty order on imports of sodium nitrite from China (79 FR 53016). The Commission is now conducting second reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR parts 201, subparts A and B and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission’s determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

1. Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

2. The Subject Countries in these reviews are China and Germany.

3. The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determinations and its expedited first five-year review determinations, the Commission defined a single Domestic Like Product consisting of sodium nitrite, regardless of form or grade, coextensive with Commerce’s scope.

4. The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determinations and its expedited first five-year review determinations, the Commission defined a single Domestic Industry consisting of all U.S. sodium nitrite producers.

5. An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the Federal Register. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same underlying matter as the underlying original investigation, and a five-year review is not the same underlying matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the Federal Register. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any
person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 1, 2019. Pursuant to section 207.62(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is March 8, 2019. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s Handbook on E-Filing, available on the Commission’s website at https://edis.usitc.gov, elaborates upon the Commission’s rules with respect to electronic filing. Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed; the OMB number is 3117 0016-USITC No. 18–05–421, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677(e)(b)) in making its determinations in the reviews.

Information to be provided in response to this Notice of Institution: If you are a domestic producer, union/worker group, or trade/business association: import/export Subject Merchandise from more than one Subject Country; or produce Subject Merchandise in more than one Subject Country, you may file a single response. If you do so, please ensure that your response to each question includes the information requested for each pertinent Subject Country. As used below, the term “firm” Includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.
(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the Domestic Like Product, a U.S. union or worker group, a U.S. importer of the Subject Merchandise, a foreign producer or exporter of the Subject Merchandise, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.
(3) A statement indicating whether your firm/entity specifically. In your firm’s operations on that product during calendar year 2018, except as noted (report quantity data in pounds and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the Domestic Industry in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of Subject Merchandise on the Domestic Industry.
(5) A list of all known and currently operating U.S. producers of the Domestic Like Product. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the Subject Merchandise and producers of the Subject Merchandise in each Subject Country that currently export or have exported Subject Merchandise to the United States or other countries after 2012.
(7) A list of 3–5 leading purchasers in the U.S. market for the Domestic Like Product and the Subject Merchandise (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).
(8) A list of known sources of information on national or regional prices for the Domestic Like Product or the Subject Merchandise in the U.S. or other markets.
(9) If you are a U.S. producer of the Domestic Like Product, provide the following information on your firm’s operations on that product during calendar year 2018, except as noted (report quantity data in pounds and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the Domestic Like Product accounted for by your firm’s(s’) production;
(b) Capacity (quantity) of your firm to produce the Domestic Like Product (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime.
merchandise, repair, and cleanup, and a typical or representative product mix; (c) the quantity and value of U.S. commercial shipments of the Domestic Like Product produced in your U.S. plant(s); (d) the quantity and value of U.S. internal consumption/company transfers of the Domestic Like Product produced in your U.S. plant(s); and (e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the Domestic Like Product produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends). 

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the Subject Merchandise from any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of Subject Merchandise imported from each Subject Country; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of Subject Merchandise imported from each Subject Country.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the Subject Merchandise in any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of Subject Merchandise in each Subject Country accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm(s) to produce the Subject Merchandise in each Subject Country (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm’s(s’) exports to the United States of Subject Merchandise and, if known, an estimate of the percentage of total exports to the United States of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in each Subject Country after 2012, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production to facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States, Subject Merchandise produced in each Subject Country, and such merchandise from other countries.

(13) (OPTIONAL) A statement of whether you agree with the above definitions of the Domestic Like Product and Domestic Industry; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission’s rules.

By order of the Commission.

Issued: December 21, 2018.
Lisa Barton, Secretary to the Commission.

SUPPLEMENTARY INFORMATION:

Background.—On September 17, 2008, the Department of Commerce published antidumping and countervailing duty orders on imports of raw flexible magnets from China and an antidumping duty order on raw flexible magnets from China and Taiwan would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted January 2, 2019. To be assured of consideration, the deadline for responses is February 1, 2019. Comments on the adequacy of responses may be filed with the Commission by March 8, 2019.

INTERNATIONAL TRADE COMMISSION

Raw Flexible Magnets From China and Taiwan; Institution of Five-Year Reviews

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether the countervailing duty order on raw flexible magnets from China and the revocation of the antidumping duty orders on raw flexible magnets from China and Taiwan would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

BILLING CODE 7020–02–P

8 Federal Register / Vol. 84, No. 1 / Wednesday, January 2, 2019 / Notices
magnets from Taiwan (73 FR 53847–53850). Following the first five-year reviews by Commerce and the Commission, effective February 5, 2014, Commerce issued a continuation of the antidumping and countervailing duty orders on imports of raw flexible magnets from China and Taiwan (79 FR 6886). The Commission is now conducting second reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR parts 201, subparts A and B and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission’s determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to these reviews:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The Subject Countries in these reviews are China and Taiwan.

(3) The Domestically Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determinations and expedited first five-year review determinations, the Commission found a single Domestically Like Product consisting of raw flexible magnets coextensive with Commerce’s definition.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestically Like Product, or those producers whose collective output of the Domestically Like Product constitutes a major proportion of the total domestic production of the product. In its original determinations and its expedited first five-year review determinations, the Commission defined a single Domestic Industry consisting of the U.S. producers of raw flexible magnets.

(5) An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the Federal Register. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the Federal Register. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceedings may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 1, 2019. Pursuant to section 207.62(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is March 8, 2019. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s Handbook on E-Filing, available on the Commission’s website at https://edis.usitc.gov, elaborates upon the Commission’s rules with respect to electronic filing. Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed; the
Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested in this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677(4)(B)) in making its determinations in the reviews.

Information to be provided in response to this Notice of Institution: If you are a domestic producer, union/worker group, or trade/business association; import/export Subject Merchandise from more than one Subject Country; or produce Subject Merchandise in more than one Subject Country, you may file a single response. If you do so, please ensure that your response to each question includes the information requested for each pertinent Subject Country. As used below, the term “firm” includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is a union/worker group or trade/business association; import/export Subject Merchandise from more than one Subject Country; or produce Subject Merchandise in more than one Subject Country; you may file a single response. If you do so, please ensure that your response to each question includes the information requested for each pertinent Subject Country. As used below, the term “firm” includes any related firms.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the Domestic Industry in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of Subject Merchandise on the Domestic Industry.

(5) A list of all known and currently operating U.S. producers of the Domestic Like Product. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the Subject Merchandise and producers of the Subject Merchandise in each Subject Country that currently export or have exported Subject Merchandise to the United States or other countries after 2012.

(7) A list of 3–5 leading purchasers in the U.S. market for the Domestic Like Product and the Subject Merchandise (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the Domestic Like Product or the Subject Merchandise in the U.S. or other markets.

(9) If you are a U.S. producer of the Domestic Like Product, provide the following information on your firm’s operations on that product during calendar year 2018, except as noted (report quantity data in pounds and value data in U.S. dollars, f.o.b. plant).

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) imports.

(b) Capacity (quantity) of your firm to produce the Domestic Like Product (that is, the level of production that your establishment(s) could reasonably have operated during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the Domestic Like Product produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the Domestic Like Product produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the Domestic Like Product produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the Subject Merchandise from any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) imports;

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of Subject Merchandise imported from each Subject Country; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of Subject Merchandise imported from each Subject Country.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the Subject Merchandise in any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in pounds and value data in U.S. dollars, landed and duty-paid at the U.S. port but not including antidumping or countervailing duties). If you are a trade/business association, provide the...
information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of Subject Merchandise in each Subject Country accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm(s) to produce the Subject Merchandise in each Subject Country (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

c) the quantity and value of your firm’s(s’) exports to the United States of Subject Merchandise and, if known, an estimate of the percentage of total exports to the United States of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in each Subject Country after 2012, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

Hot-Rolled Steel Products From China, India, Indonesia, Taiwan, Thailand, and Ukraine; Institution of Five-Year Reviews

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted reviews pursuant to the Tariff Act of 1930 ("the Act"), as amended, to determine whether revocation of the countervailing duty orders on hot-rolled steel products from India, Indonesia, and Thailand and antidumping duty orders on hot-rolled steel products from China, India, Indonesia, Taiwan, Thailand, and Ukraine would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted January 2, 2019. To be assured of consideration, the deadline for responses is February 1, 2019. Comments on the adequacy of responses may be filed with the Commission by March 8, 2019.

SUPPLEMENTARY INFORMATION:

Background. — On November 29, 2001, the Department of Commerce issued antidumping duty orders on imports of hot-rolled steel products from China, Taiwan, Thailand, and Ukraine (66 FR 59561, 59563, 59562, and 59559). On December 3, 2001, the Department of Commerce issued countervailing duty orders on imports of hot-rolled steel products from India, Indonesia, and Thailand and antidumping duty orders on imports of hot-rolled steel products from India and Indonesia (66 FR 60197, 60194, 60198, 60192, and 60198).

Following the first five-year reviews by Commerce and the Commission, effective December 27, 2007, Commerce issued a continuation of the countervailing duty orders on hot-rolled steel products from India, Indonesia, and Thailand and antidumping duty orders on hot-rolled steel products from China, India, Indonesia, Taiwan, Thailand, and Ukraine (72 FR 73316).

Following the second five-year reviews by Commerce and the Commission, effective February 7, 2014, Commerce issued a continuation of the countervailing duty orders on hot-rolled steel products from India, Indonesia, and Thailand and antidumping duty orders on hot-rolled steel products from China, India, Indonesia, Taiwan, Thailand, and Ukraine (79 FR 7425).

The Commission is now conducting third reviews pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR parts 201, subparts A and B and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission’s determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions. — The following definitions apply to these reviews:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The Subject Countries in these reviews are China, India, Indonesia, Taiwan, Thailand, and Ukraine.
(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with the Subject Merchandise. In its original determinations and its full first and second five-year review determinations, the Commission defined the Domestic Like Product as all hot-rolled steel products corresponding to Commerce’s scope.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determinations and its full first and second five-year review determinations, the Commission defined the Domestic Industry as all domestic producers of hot-rolled steel products.

(5) An Importer is any person or firm engaged, either directly or through a parent or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the Federal Register. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008).

Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the Federal Register. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 1, 2019. Pursuant to section 207.62(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is March 8, 2019. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s Handbook on E-Filing, available on the Commission’s website at https://edis.usitc.gov, elaborates upon the Commission’s rules with respect to electronic filing. Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed; the OMB number is 3117 0016/USITC No. 18–5–417, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677(e)(b)) in making its determinations in the reviews.

Information to be provided in response to this Notice of Institution: If you are a domestic producer, union/worker group, or trade/business association; import/export Subject Merchandise from more than one Subject Country; or produce Subject Merchandise in more than one Subject
Country, you may file a single response. If you do so, please ensure that your response to each question includes the information requested for each pertinent Subject Country. As used below, the term “firm” includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the Domestic Like Product, a U.S. union or worker group, a U.S. importer of the Subject Merchandise, a foreign producer or exporter of the Subject Merchandise, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping and countervailing duty orders on the Domestic Industry in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of Subject Merchandise on the Domestic Industry.

(5) A list of all known and currently operating U.S. producers of the Domestic Like Product. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677(4)(B)).

(6) A list of all known and currently operating U.S. importers of the Subject Merchandise and producers of the Subject Merchandise in each Subject Country that currently export or have exported Subject Merchandise to the United States or other countries after 2012.

(7) A list of 3–5 leading purchasers in the U.S. market for the Domestic Like Product and the Subject Merchandise (including street address, World Wide Web address, telephone number, fax number, and Email address of a responsible official at each firm).

(8) A list of known sources of information on national or regional prices for the Domestic Like Product or the Subject Merchandise in the U.S. or other markets.

(9) If you are a U.S. producer of the Domestic Like Product, provide the following information on your firm’s operations on that product during calendar year 2018, except as noted (report quantity data in short tons and value data in U.S. dollars, f.o.b. plant). If you are a union/worker group or trade/business association, provide the information, on an aggregate basis, for the firms in which your workers are employed/which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total U.S. production of the Domestic Like Product accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm to produce the Domestic Like Product (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix);

(c) the quantity and value of U.S. commercial shipments of the Domestic Like Product produced in your U.S. plant(s);

(d) the quantity and value of U.S. internal consumption/company transfers of the Domestic Like Product produced in your U.S. plant(s); and

(e) the value of (i) net sales, (ii) cost of goods sold (COGS), (iii) gross profit, (iv) selling, general and administrative (SG&A) expenses, and (v) operating income of the Domestic Like Product produced in your U.S. plant(s) (include both U.S. and export commercial sales, internal consumption, and company transfers) for your most recently completed fiscal year (identify the date on which your fiscal year ends).

(10) If you are a U.S. importer or a trade/business association of U.S. importers of the Subject Merchandise from any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars).

(a) The quantity and value (landed, duty-paid but not including antidumping or countervailing duties) of U.S. imports and, if known, an estimate of the percentage of total U.S. imports of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) imports:

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of Subject Merchandise imported from each Subject Country; and

(c) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. internal consumption/company transfers of Subject Merchandise imported from each Subject Country.

(11) If you are a producer, an exporter, or a trade/business association of producers or exporters of the Subject Merchandise in any Subject Country, provide the following information on your firm’s(s’) operations on that product during calendar year 2018 (report quantity data in short tons and value data in U.S. dollars). If you are a trade/business association, provide the information, on an aggregate basis, for the firms which are members of your association.

(a) Production (quantity) and, if known, an estimate of the percentage of total production of Subject Merchandise in each Subject Country accounted for by your firm’s(s’) production;

(b) Capacity (quantity) of your firm to produce the Subject Merchandise in each Subject Country (that is, the level of production that your establishment(s) could reasonably have expected to attain during the year, assuming normal operating conditions (using equipment and machinery in place and ready to operate), normal operating levels (hours per week/weeks per year), time for downtime, maintenance, repair, and cleanup, and a typical or representative product mix); and

(c) the quantity and value of your firm’s(s’) exports to the United States of Subject Merchandise and, if known, an estimate of the percentage of total exports to the United States of Subject Merchandise from each Subject Country accounted for by your firm’s(s’) exports.

(12) Identify significant changes, if any, in the supply and demand conditions or business cycle for the Domestic Like Product that have occurred in the United States or in the market for the Subject Merchandise in each Subject Country after 2012, and significant changes, if any, that are likely to occur within a reasonably foreseeable time. Supply conditions to consider include technology;
production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States. Subject Merchandise produced in each Subject Country, and such merchandise from other countries.

(13) (OPTIONAL) A statement of whether you agree with the above definitions of the Domestic Like Product and Domestic Industry; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

Authority: This proceeding is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.61 of the Commission’s rules.

Issued: December 20, 2018.
By order of the Commission.

Lisa Barton,
Secretary to the Commission.

BILLING CODE 7020–02–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–990 (Third Review)]

Non-Malleable Cast Iron Pipe Fittings From China; Institution of a Five-Year Review

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it has instituted a review pursuant to the Tariff Act of 1930 (“the Act”), as amended, to determine whether revocation of the antidumping duty order on non-malleable cast iron pipe fittings from China would be likely to lead to continuation or recurrence of material injury. Pursuant to the Act, interested parties are requested to respond to this notice by submitting the information specified below to the Commission.

DATES: Instituted January 2, 2019. To be assured of consideration, the deadline for responses is February 1, 2019.

Comments on the adequacy of responses may be filed with the Commission by March 8, 2019.

SUPPLEMENTARY INFORMATION: Background.—On April 7, 2003, the Department of Commerce issued an antidumping duty order on imports of non-malleable cast iron pipe fittings from China (68 FR 16765). Following the five-year reviews by Commerce and the Commission, effective August 15, 2008, Commerce issued a continuation of the antidumping duty order on imports of non-malleable cast iron pipe fittings from China (73 FR 47887). Following the second five-year reviews by Commerce and the Commission, effective February 12, 2014, Commerce issued a continuation of the antidumping duty order on imports of non-malleable cast iron pipe fittings from China (79 FR 8437). The Commission is now conducting a third review pursuant to section 751(c) of the Act, as amended (19 U.S.C. 1675(c)), to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. Provisions concerning the conduct of this proceeding may be found in the Commission’s Rules of Practice and Procedure at 19 CFR parts 201, subparts A and B and 19 CFR part 207, subparts A and F. The Commission will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission’s determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

Definitions.—The following definitions apply to this review:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The Subject Country in this review is China.

(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its original determination and its expedited first and second five-year review determinations, the Commission defined a single Domestic Like Product consisting of nonmalleable and ductile cast iron pipe fittings corresponding to the scope.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its original determination and its expedited first and second five-year review determinations, the Commission defined the Domestic Industry as all domestic producers of non-malleable and ductile cast iron pipe fittings.

(5) An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the proceeding and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the proceeding as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the Federal Register. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the proceeding.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation or an earlier review of the same underlying investigation. The Commission’s designated agency ethics official has advised that a five-year review is not the same particular matter as the underlying original investigation, and a five-year
review is not the same particular matter as an earlier review of the same underlying investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 79 FR 3246 (Jan. 17, 2014), 73 FR 24609 (May 5, 2008). Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation or an earlier review of the same underlying investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Charles Smith, Office of the General Counsel, at 202–205–3408.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this proceeding available to authorized applicants under the APO issued in the proceeding, provided that the application is made no later than 21 days after publication of this notice in the Federal Register. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the proceeding. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this proceeding must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will acknowledge that information submitted in response to this request for information and throughout this proceeding or other proceeding may be disclosed to and used: (i) By the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. Appendix 3; or (ii) by U.S. government employees and contract personnel, solely for cybersecurity purposes. All contract personnel will sign appropriate nondisclosure agreements.

Written submissions.—Pursuant to section 207.61 of the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is February 1, 2019. Pursuant to section 207.62(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is March 8, 2019. All written submissions must conform with the provisions of section 201.8 of the Commission’s rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission’s rules. The Commission’s Handbook on E-Filing, available on the Commission’s website at https://edis.usitc.gov, elaborates upon the Commission’s rules with respect to electronic filing. Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the proceeding must be served on all other parties to the proceeding (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the proceeding you do not need to serve your response).

No response to this request for information is required if a currently valid Office of Management and Budget (“OMB”) number is not displayed: the OMB number is 3117 0016/USITC No. 18–5–418, expiration date June 30, 2020. Public reporting burden for the request is estimated to average 15 hours per response. Please send comments regarding the accuracy of this burden estimate to the Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436.

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission will take an adverse inference against the party pursuant to section 776(b) of the Act (19 U.S.C. 1677(b)) in making its determination in the review.

Information to be provided in response to this Notice of Institution: As used below, the term “firm” includes any related firms.

(1) The name and address of your firm or entity (including World Wide Web address) and name, telephone number, fax number, and Email address of the certifying official.

(2) A statement indicating whether your firm/entity is an interested party under 19 U.S.C. 1677(9) and if so, how, including whether your firm/entity is a U.S. producer of the Domestic Like Product, a U.S. union or worker group, a U.S. importer of the Subject Merchandise, a foreign producer or exporter of the Subject Merchandise, a U.S. or foreign trade or business association (a majority of whose members are interested parties under the statute), or another interested party (including an explanation). If you are a union/worker group or trade/business association, identify the firms in which your workers are employed or which are members of your association.

(3) A statement indicating whether your firm/entity is willing to participate in this proceeding by providing information requested by the Commission.

(4) A statement of the likely effects of the revocation of the antidumping duty order on the Domestic Industry in general and/or your firm/entity specifically. In your response, please discuss the various factors specified in section 752(a) of the Act (19 U.S.C. 1675a(a)) including the likely volume of subject imports, likely price effects of subject imports, and likely impact of imports of Subject Merchandise on the Domestic Industry.

(5) A list of all known and currently operating U.S. producers of the Domestic Like Product. Identify any known related parties and the nature of the relationship as defined in section 771(4)(B) of the Act (19 U.S.C. 1677e(b)) in making its determination in the review.

(6) A list of all known and currently operating U.S. importers of the Subject Merchandise and producers of the Subject Merchandise in the Subject Country that currently export or have exported Subject Merchandise to the United States or other countries after 2012.

(7) A list of 3–5 leading purchasers in the U.S. market for the Domestic Like Product and the Subject Merchandise (including street address, World Wide Web address, and the name, telephone number, fax number, and Email address of a responsible official at each firm).
The Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Employment and Training Administration (ETA) of the U.S. Department of Labor (the Department or DOL) is issuing this notice proposing the deactivation of the Gainesville Job Corps Center (Gainesville) in Gainesville, Florida and the consolidation of the Barranquitas Job Corps Center (Barranquitas) in Barranquitas, Puerto Rico with two other Job Corps Centers located in Puerto Rico. This proposed consolidation would maintain the same overall number of students served in Puerto Rico. The Gainesville center has been inactive since Hurricane Irma in September 2017. This facility incurred considerable hurricane damage and
hazardous environmental conditions exist. The Barranquitas center has been inactive since Hurricane Maria significantly damaged it in September 2017. Under these proposals, at-risk youth in Florida and Puerto Rico will continue to have options for service by the Job Corps program. This notice seeks public comment on these proposals.

DATES: To be ensured consideration, comments must be submitted in writing on or before February 1, 2019.

ADDRESSES: You may submit comments, identified by Docket Number ETA–2018–0006, by only one of the following methods:

- Mail and hand delivery/courier: Submit comments to Lenita Jacobs-Simmons, National Director, Office of Job Corps (OJC), U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue NW, Room N–4463, Washington, DC 20210. Due to security-related concerns, there may be a significant delay in the receipt of submissions by United States Mail. You must consider this when preparing to meet the deadline for submitting comments. The Department will post all comments received on http://www.regulations.gov without making any changes to the comments or redacting any information, including any personal information provided. The http://www.regulations.gov website is the Federal e-rulemaking portal and all comments posted there are available and accessible to the public. The Department recommends that commenters not include personal information such as Social Security Numbers, personal addresses, telephone numbers, and email addresses in their comments that they do not wish to be made public, as such submitted information will be available to the public via the http://www.regulations.gov website. Comments submitted through http://www.regulations.gov will not include the email address of the commenter unless the commenter chooses to include that information as part of his or her comment. It is the responsibility of the commenter to safeguard personal information.

Instructions: All submissions received should include the Docket Number for the notice: Docket Number ETA–2018–0006. Please submit your comments by only one method. Again, please note that due to security concerns, postal mail delivery in Washington, DC may be delayed. Therefore, the Department encourages the public to submit comments on http://www.regulations.gov.

Docket: All comments on the selected Job Corps Center will be available on the http://www.regulations.gov website. The Department also will make all of the comments it receives available for public inspection by appointment during normal business hours at the above address. If you need assistance to review the comments, the Department will provide appropriate aids such as readers or print magnifiers. The Department will make copies of this methodology and the selected Job Corps center materials available, upon request, in large print and electronic file on computer disk. To schedule an appointment to review the comments and/or obtain the notice in an alternative format, contact the Office of Job Corps at (202) 693–3000 (this is not a toll-free number). You may also contact this office at the address listed below.

FOR FURTHER INFORMATION CONTACT:
Lenita Jacobs-Simmons, National Director, Office of Job Corps, ETA, U.S. Department of Labor, 200 Constitution Avenue NW, Room N–4463, Washington, DC 20210; Telephone (202) 693–3000 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–(877) 889–5627 (TTY/TDD).

SUPPLEMENTARY INFORMATION:

I. Background on the Job Corps Program

Established in 1964, Job Corps is a national program administered by ETA in the Department. It is the nation’s largest federally-funded, primarily residential skills instruction program for at-risk youth, ages 16 to 24. Through 123 centers in 50 states, Puerto Rico, and the District of Columbia, Job Corps seeks to change lives through education and skills instruction for in-demand careers. Job Corps serves at-risk young people who seek to overcome barriers to employment, which can include poverty, homelessness, or aging out of the foster care system, by providing them with the academic, career technical, and employability skills to enter the workforce, enroll in post-secondary education, pursue apprenticeship opportunities, or enlist in the military. Large and small businesses, nonprofit organizations, and Native American tribes manage and operate 98 of the Job Corps centers through contractual agreements with the Department of Labor, which are awarded pursuant to Federal procurement rules. Twenty-five Civilian Conservation Centers (CCCs) are operated through an interagency agreement with the U.S. Department of Agriculture (USDA). Job Corps receives annual funding to operate centers, administer the program, and build, maintain, expand, or upgrade a limited number of new and existing facilities.

II. Established Criteria

As part of the Department’s ongoing efforts to ensure that Job Corps resources are used to deliver the best possible results for students, it may determine that a different approach will allow Job Corps to more effectively serve its students.

A. The Criteria for Proposing a Different Approach

The Workforce Innovation and Opportunity Act (WIOA), which became effective on July 1, 2015, directs DOL to “establish written criteria that the Secretary shall use to determine when a Job Corps center supported under this part is to be closed and how to carry out such closure[,]” 29 U.S.C. 3211(c)(1). Consequently, the Department published three criteria for making this determination:

1. A methodology for selecting a center based on its chronic low performance. First described in an August 2014 Federal Register Notice (FRN) (79 FR 51198), and updated in a March 2016 FRN (81 FR 12529);

2. An agreement between the Secretaries of Labor and Agriculture to close a CCC, as described in the March 2016 FRN; and

3. An evaluation of the effort required to provide a high-quality education and training program at the center, as described in the March 2016 FRN.

DOL may make this determination based on any one of the three criteria, and a single criterion may be applied independently of the others. Thus, while a center may qualify under more than one criterion, DOL may choose to rely on only one criterion when making its determination. These criteria have been previously established; therefore, the Department does not seek comments on these criteria in response to this Notice.

Prior to making a decision, the Department also applies the Additional Considerations first discussed in the August 2014 notice and amended in a September 2017 FRN (82 FR 44842), and described below.
B. Additional Considerations

As described in the March 2016 FRN, after applying any of the three criterion identified above the Department will consider the following factors, as appropriate, when deciding a different course of action:

1. Job Corps Services for Residents in All Geographic Areas

The Department is committed to providing services in a broad geographic area. When deciding to propose a center for deactivation or consolidation, DOL will continue to ensure adequate training opportunities for eligible individuals in or near the area where they reside. The Job Corps program will also continue to maintain a nationwide outreach strategy. Additionally, DOL will take into account whether proposing a different direction for a center would have a disproportionate impact on the training and post-enrollment opportunities for students in any one geographic area and ensure that it does not too rapidly reduce Job Corps’ presence in any geographic area.

2. Sufficiency of Data Available To Evaluate Center Performance

When proposing a different direction for chronic low performance, the Department will not consider any center for which it does not have sufficient data to evaluate that center’s performance. Because this notice is not based on center performance, this consideration does not apply to the proposed actions discussed below.

3. Indication of Significant Recent Performance Improvement

When applying the performance-based methodology, the Department will consider evidence of recent performance improvement. Therefore, a center will be removed from consideration based on performance-based criteria if it is performing in the top half of centers in the most recent full year of performance data. Again, because this notice does not propose an action based on performance, this consideration does not apply to the proposals discussed below.

4. Job Corps’ Commitment to Diversity

Job Corps currently serves a diverse student population and remains committed to serving at-risk youth from all backgrounds. In making final decisions under any of the three criteria identified in Section A above, the Department will consider whether an action could result in a significant reduction in student diversity within the overall Job Corps system.

III. Proposal To Take a Different Approach

For the reasons discussed below, Job Corps proposes to deactivate the Gainesville center, and consolidate the Barranquitas center into two other centers under the third criterion—an evaluation of the effort required to provide a high-quality education and training program at the center, as described in the March 2016 FRN.

Some centers, for a variety of reasons, face more difficult challenges than others in providing a safe, secure environment where participants can receive high-quality skills instruction. Addressing these challenges may require sustained efforts that involve significant programmatic, staff, capital, organizational, and/or other investments and resources, and sometimes these challenges continue regardless of the contractor or entity operating the center. Even with such a commitment, it may be difficult to achieve positive outcomes for students.

In such a situation, Job Corps will carefully assess the following:

1. The ongoing needs of the center against those of the program overall.
2. The effort required to provide and maintain a high-quality, safe, and productive living and learning environment.
3. Whether that effort is likely to ultimately produce an outcome that contributes to the program’s overall strength and integrity.

Following an evaluation of continuing center operations using the framework outlined above, the Department proposes deactivation of the Gainesville Job Corps Center and the consolidation of the Barranquitas Job Corps Center.

A. Gainesville Job Corps Center

The Gainesville center has been inactive since September 2017, when it suffered considerable damage by Hurricane Irma. The center has 12 buildings and is located on 47 acres of land. The original building was built around 1955. Due to the age of the facility, it faced numerous significant issues prior to the hurricane.

Improvements are needed to the fire prevention system, including fire separation walls and the fire sprinkler system. Sanitary sewer lines in two separate buildings are collapsing and require extensive repairs. There are also numerous other deficiencies in multiple buildings, including heating, ventilation, and air conditioning problems.

The aging facility is located in an industrial area. As a result of previous use, there is significant soil and groundwater contamination on the property. Under an agreement with the Florida Department of Environmental Protection, the property is subject to a Remedial Action Plan, which restricts the ability to perform work in the contaminated areas. A plume of groundwater contaminated by chlorinated solvents is also present on the southern property border and has migrated towards neighboring properties owned by the City of Gainesville. The plume is under remediation by Unisys, the successor company to Sperry Rand, the original owner, under a settlement agreement between the Department, the City of Gainesville, and the Florida Department of the Environmental Protection.

As a result of Hurricane Irma in September 2017, the facilities sustained serious flooding that raised concerns that chemically contaminated water entered into the center’s buildings, including the dormitory and other buildings frequented by students. Extensive mold was found in multiple buildings, remediation of which will require a major asbestos abatement project due to the large quantity of asbestos floor tile and adhesive in the buildings. Sewage contamination was also present. Pre-existing soil contamination must also be addressed to perform needed facility repairs.

The total estimated costs to address the existing facility issues and repair the damage caused by Hurricane Irma and the related environmental issues is $10.3 million. This is a level of dedicated resources that will tax the Job Corps program’s ability to create safe environments for skills instruction. More than 25 percent of Job Corps’ more than 4,000 buildings are over 50 years old and their repair costs contribute to a total repair and construction cost estimated at more than $700 million.1

Spending such a significant part of the program’s construction budget to make the needed repairs at this center would significantly impact Job Corps’ ability to make needed repairs and improvements, including important safety improvements, at other centers. This is not a prudent use of the Department’s resources, particularly given the successful maintenance of opportunities in Florida and the Southeast generally.

1 This information is based on data reported to the General Services Administration’s Federal Real Property Profile Management System. The data reported is from Job Corps’ Engineering Support Contractor Information System (ESCIS) as of September 30, 2018.
In addition, Gainesville rehabilitation would take years to complete. The Job Corps program retains robust capacity in Florida, a state where there are three other centers, including the Jacksonville Job Corps Center approximately 70 miles from the Gainesville campus. None of the three Job Corps centers in Florida are operating at capacity; all have the ability to accept additional students. Collectively these centers have the capacity to absorb the area’s demand. By consolidating the operation of the Job Corps program at the three remaining Florida centers, the state will retain the ability to adequately serve at-risk youth with greater operational and administrative efficiencies. In addition, through demonstration project authority in section 156(a) of WIOA, DOL plans to expand opportunities to serve Job Corps eligible youth through a partnership with the Florida Department of Military Affairs (Florida National Guard).

In order to provide functional, safe, and secure campuses for as many students as possible given the limited resources available, DOL has determined students in Florida and across the country will be better served if Job Corps’ construction and repair budget—and the time, personnel, and effort required to administer the use of these funds—is allotted across the entire system to improve the conditions of as many centers and as many students as possible as opposed to investing the necessary resources in Gainesville.

**B. Barranquitas Job Corps Center**

The Barranquitas Job Corps Center has 14 buildings on 12 acres of land in a rural area approximately 40 miles south of San Juan, Puerto Rico. The center has been inactive since Hurricane Maria damaged it in September 2017. All three centers in Puerto Rico were damaged by the hurricane; Barranquitas sustained the greatest amount of damage.

Barranquitas has numerous physical deficiencies that existed prior to the hurricane and many caused by Hurricane Maria. Prior to the hurricane, multiple center deficiencies were under contract for repair, including roof leaks in eight of the 14 buildings, and replacement of all of the windows in the gymnasium, many of which were no longer keeping the elements out. The hurricane exacerbated these roof issues and caused significant interior water damage. Further, the hurricane caused significant erosion along the north boundary of the property, leading to a destabilized slope that resulted in foundation damage to the emergency generator facility. If the slope is not repaired and stabilized, future storms could cause additional erosion under the foundation of the facilities used for academic and vocational training. The total estimated cost to address the pre-existing facility issues and repair the hurricane damage at Barranquitas is $19 million.

Job Corps can continue to serve at-risk youth in Puerto Rico by consolidating operations at two of Puerto Rico’s three centers. Puerto Rico’s Ramey Job Corps Center sustained the least damage from Hurricane Maria. Job Corps re-opened the center in May 2018. All of the trades formerly offered by both the Arecibo Job Corps Center, also in Puerto Rico, and the Barranquitas Job Corps Center are now offered at Ramey. There were 249 students at the Ramey Job Corps Center at the time of the hurricane; however, after assessing available space, the planned number of students was increased to 470 to accommodate as many students as possible. Further, Job Corps initiated the rehabilitation of the Arecibo Job Corps Center in June 2018. The center is scheduled to reopen by February 2020, with an increased capacity of 201 students. When Arecibo reopens, Job Corps will have the capacity to serve the same number of students on the island as it had prior to Hurricane Maria. Merging the operations of three centers into two centers will increase the efficiency of the administration and operation of the Job Corps program in Puerto Rico, leading to reduced costs and better service for the students on the island.

Given the other two Job Corps centers in Puerto Rico can successfully serve the same number of students previously served by all three centers, it is a more prudent long-term approach to invest available construction and rehabilitation resources in two Job Corps centers rather than divide the resources among three centers.

**IV. Request for Public Comments**

After studying (1) the needs of the centers against those of the program overall; (2) the effort needed to provide and maintain a high-quality, safe, and productive living and learning environment; and (3) whether that effort is likely to ultimately produce an outcome that contributes to the program’s overall strength and integrity, the Department has concluded that restarting operations at the Gainesville and Barranquitas Job Corps Centers is not in the best interest serving at-risk youth as well as the program as a whole.

After completing this evaluation, the Department then applied the relevant additional considerations as amended in the September 2017 FRN and discussed above in Section II.B and determined that these considerations did not preclude actions proposed as to the Gainesville or Barranquitas Job Corps Centers.

The Department now requests public comments on its proposals associated with the Gainesville and Barranquitas Job Corps centers.

**V. The Process Under the Workforce Innovation and Opportunity Act (WIOA)**

The Department’s process will follow the requirements of section 159(i) of the WIOA, which include the following:

- Announcing the proposed decision concerning a particular center in advance to the general public through publication in the Federal Register or other appropriate means;
- Establishing a reasonable comment period, not to exceed 30 days, for interested individuals to submit written comments to the Secretary; and
- Notifying the Member of Congress who represents the district in which the center is located within a reasonable period in advance of any final decision concerning the status of the center.

This Notice serves as the public announcement of the proposals associated with the Gainesville Job Corps Center and the Barranquitas Job Corps Center. The Department is providing a 30-day period—the maximum amount of time allowed for comment under WIOA sec. 159(i)—for interested individuals to submit written comments on the proposed decision. The Department will announce its final decision following the conclusion of the comment period.

Molly E. Conway,
Acting Assistant Secretary for Employment and Training,

BILLING CODE 4510–FT–P

**DEPARTMENT OF LABOR**

**Employment and Training Administration**

**Agency Information Collection Activities; Comment Request; Required Elements for Submission of the Unified or Combined State Plan and Plan Modifications Under the Workforce Innovation and Opportunity Act**

**ACTION:** Notice.

**SUMMARY:** The Department of Labor’s (DOL’s), Employment and Training Administration (ETA) is soliciting comments concerning a proposed
extension for the authority to conduct the information collection request (ICR) titled, “Required Elements for Submission of the Unified or Combined State Plan and Plan Modifications under the Workforce Innovation and Opportunity Act.” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by March 4, 2019.

ADDRESSES: A copy of this ICR with applicable supporting documentation; including a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained free by contacting Sean Fox by telephone at 202–693–2946, TTY 1–877–889–5627 (these are not toll-free numbers), or by email at fox.sean@dol.gov. Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Workforce Investment, 200 Constitution Ave. NW, Washington, DC 20210; by email: WIOA.PLAN@dol.gov or by Fax at 202–693–3817.

FOR FURTHER INFORMATION CONTACT: Sean Fox by telephone 202.693.2946 (this is not a toll-free number) or by email at fox.sean@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This ICR collects the required information for the submission of WIOA State Plans and Modifications. The information covered includes the State’s strategic focus for its public workforce system and then several key items for operationalizing the strategic goals. Information in the WIOA State Plan includes an overview of the State’s governance structure, resources, programs, career pathways, and sector strategy initiatives. The ICR also includes assurances that the WIOA program in the State is compliant with statutory and regulatory requirements.

In February 2016, OMB approved the Information Collection Request (ICR), OMB control number 1205–0522, that allows the Department of Labor and Department of Education (the Departments) to collect State Plans required by the Workforce Innovation and Opportunity Act (WIOA). OMB granted approval for the ICR through September of 2019. U.S.C. 3101 (The Workforce Innovation and Opportunity Act) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0522.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments. DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–ETA.

Type of Review: Extension without Changes.

Title of Collection: Required Elements for Submission of the Unified or Combined State Plan and Plan Modifications under the Workforce Innovation and Opportunity Act.

Form: None.

OMB Control Number: 1205–0522.

Affected Public: State and local workforce development board members, chief local elected officials, job-seekers, and employers.

Estimated Number of Respondents: 38. For the last version of this ICR, we listed 38 respondents. In this extension request, we retain the calculation for 38 respondents.

Frequency: Every 2 years (an initial Plan and 2-year modification as needed).

Total Estimated Annual Responses: 38.

Estimated Average Time per Response: 214 hours.

Estimated Total Annual Burden: 8,136 hours.

Total Estimated Annual Other Cost Burden: $388,819.

Molly E. Conway, Acting Assistant Secretary.

BILLING CODE 4510–30–P

NUCLEAR REGULATORY COMMISSION

[NRC–2018–0287]

Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving No Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission.

ACTION: Biweekly notice.

SUMMARY: Pursuant to the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or
combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person. This biweekly notice includes all notices of amendments issued, or proposed to be issued, from December 4, 2018, to December 14, 2018. The last biweekly notice was published on December 18, 2018.

DATES: Comments must be filed by February 1, 2019. A request for a hearing must be filed by March 4, 2019.

ADDRESSES: You may submit comments by any of the following methods:

- Federal Rulemaking website: Go to http://www.regulations.gov and search for Docket ID NRC–2018–0287. Address questions about Docket IDs in Regulations.gov to Krupskaya Castellon; telephone: 301–287–9221; email: Krupskaya.Castellon@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- Mail comments to: May Ma, Office of Administration, Mail Stop: TWFN–7–A60M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the SUPPLEMENTARY INFORMATION section of this document.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2018–0287, facility name, unit number(s), plant docket number, application date, and subject when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2018–0287, facility name, unit number(s), plant docket number, application date, and subject in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at http://www.regulations.gov as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Pursuant to Section 189a(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

III. Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Combined Licenses and Proposed No Significant Hazards Consideration Determination

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission’s regulations in § 50.92 of title 10 of the Code of Federal Regulations (10 CFR), this means that operation of the facility in accordance with the proposed amendment would not: (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The Commission expects that the need to take this action will occur very infrequently.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day period provided that its final determination is that the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period if circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. If the Commission takes action prior to the expiration of either the comment period or the notice period, it will publish in the Federal Register a notice of issuance. If the Commission makes a final no significant hazards consideration determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

A. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the
action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s website at http://www.nrc.gov/reading-rm/doc-collections/cfr/. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1–F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.

As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner’s right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures. Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document.

If a hearing is requested, and the Commission has not made a final determination on the issue of no significant hazards consideration, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to establish when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of the amendment unless the Commission finds an imminent danger to the health or safety of the public, in which case it will issue an appropriate order or rule under 10 CFR part 2.

A State, local governmental body, Federally-recognized Indian Tribe, or agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(h)(1). The petition should state the nature and extent of the petitioner’s interest in the proceeding. The petition should be submitted to the Commission no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document, and should meet the requirements for petitions set forth in this section, except that under 10 CFR 2.309(h)(2) a State, local governmental body, or Federally-recognized Indian Tribe, or agency thereof do not need to address the standing requirements in 10 CFR 2.309(d) if the facility is located within its boundaries. Alternatively, a State, local governmental body, Federally-recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a hearing is granted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the opportunity to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.

B. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing and petition for leave to intervene (petition), any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities that request to participate under 10 CFR 2.315(c), must be filed in accordance with the NRC’s E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Detailed guidance on making electronic submissions may be found in the Guidance for Electronic Submissions to the NRC and on the NRC website at http://www.nrc.gov/site-help/e-submittals.html. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301–415–1677, to: (1) Request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be
submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at http://www.nrc.gov/site-help/e-submittals/getting-started.html. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC’s public website at http://www.nrc.gov/site-help/electronic-sub-ref-mat.html. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC’s electronic hearing docket which is available to the public at https://adams.nrc.gov/ehd, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click cancel when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in demonstrations of proximity to a facility or site. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

For further details with respect to these license amendment applications, see the application for amendment which is available for public inspection in ADAMS and at the NRC’s PDR. For additional direction on accessing information related to this document, see the “Obtaining Information and Submitting Comments” section of this document.

FirstEnergy Nuclear Operating Company, Docket No. 50–440, Perry Nuclear Power Plant, Unit No. 1, Lake County, Ohio

Date of amendment request: November 28, 2018. A publicly-available version is in ADAMS under Accession No. ML18332A500.

Description of amendment request: The proposed amendment would revise the Perry Nuclear Power Plant (PNPP) Emergency Plan to transfer rescue and first aid duties from two on-shift security force members to on-shift fire brigade personnel, reduce the number of radiation monitoring teams by one, and make other related changes.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?

Response: No.

The proposed changes to reduce the number of radiation monitoring teams, transfer responsibility for radiological surveys in certain areas, redefine the boundary of certain survey areas, and transfer on-shift responsibility for rescue and first aid duties do not affect structures, systems, and components (SSCs) of the plant, normal plant operation, design functions or analyses that verify the capability of an SSC to perform a design function. Therefore, the proposed changes do not increase the likelihood of a malfunction of an SSC.

With the proposed changes the emergency response organization will continue to be capable of performing their intended functions to mitigate the consequences of an accident or event. The ability of the on-shift emergency response organization to respond adequately to radiological emergencies has been demonstrated as acceptable through a staffing analysis as required by 10 CFR 50, Appendix E, paragraph IV.A.9.

Therefore, the proposed PNPP Emergency Plan changes do not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed amendment create the possibility of a new or different kind of accident from any accident previously evaluated?

Response: No.

The proposed changes to reduce the number of radiation monitoring teams, transfer responsibility for radiological surveys in certain areas, redefine the boundary of certain survey areas, and transfer on-shift responsibility for rescue and first aid duties do not involve a physical alteration
of the plant (that is, no new or different type of equipment will be installed), a change in the method of plant operation, or the ability of SSCs to perform their design function. Since SSCs are not affected, there are no new failure mechanisms, malfunctions, or accident initiators not considered in the design and licensing basis.

Therefore, the proposed changes do not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Does the proposed amendment involve a significant reduction in a margin of safety?
   Response: No.

The proposed changes to reduce the number of radiation monitoring teams, transfer responsibility for radiological surveys in certain areas, redefine the boundary of certain survey areas, and transfer on-shift responsibility for rescue and first aid duties do not impact operation of the plant or its response to transients or accidents. The proposed changes do not affect the Technical Specifications, accident analyses, safety margins applied to design and licensing basis functions or to controlling parameters to account for uncertainties to avoid exceeding regulatory or licensing limits established in the licensing basis.

Therefore, the proposed changes do not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee’s analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Attorney for licensee: Rick C. Giannantonio, General Counsel, FirstEnergy Corporation, Mail Stop A-GO–15, 76 South Main Street, Akron, OH 44308.

NRC Branch Chief: David J. Wrona.

Florida Power and Light Company, et al., Docket No. 50–389, St. Lucie Plant, Unit No. 2, St. Lucie County, Florida

Date of amendment request: November 9, 2018. A publicly-available version is in ADAMS under Accession No. ML18316A028.

Description of amendment request: The amendment would revise the Technical Specifications by eliminating the requirements for the Iodine Removal System (IRS). The proposed amendment would also revise the surveillance requirements for the trisodium phosphate dodecahydrate (TSP) basket. Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed amendment involve a significant increase in the probability or consequences of an accident previously evaluated?
   Response: No.

The Safety Evaluation for Unit 2 extended power uprate [TAC No. ME5843] states that PSL [St. Lucie Plant, Unit 2] evaluated the radiological consequences resulting from the postulated LOCA at the exclusion area boundary. The low population zone and control room comply with the reference values and the control room dose criterion provided in 10 CFR 50.67 and the accident specific dose guidelines specified in SRP [Standard Review Plant] Section 15.0.1 and Regulatory Guide [RG] 1.183. The NRC review determined that this analysis, the assumptions and inputs are consistent with the applicable regulatory guidance.

The NRC concluded that the estimates for dose consequences of the accident basis LOCA will comply with the requirements of 10 CFR 50.67 and the guidelines of Regulatory Guide 1.183 and are therefore acceptable. Per the Unit 2 FUSAR [Updated Final Safety Analysis Report], hydrazine addition is not credited for the EPU dose assessment.

Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed amendment create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.

The IRS is used post-LOCA and is not an accident initiator. Therefore, there is no new or different kind of accident from an accident previously evaluated. There is no equipment added by this change, only removal of iodine removal system equipment.

Therefore, the proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Does the proposed amendment involve a significant reduction in a margin of safety?
   Response: No.

The Safety Evaluation for Unit 2 extended power uprate [TAC No. ME5843] states that PSL evaluated the radiological consequences resulting from the postulated LOCA at the exclusion area boundary, the low population zone and control room comply with the reference values and the control room dose criterion provided in 10 CFR 50.67 and the accident specific dose guidelines specified in SRP Section 15.0.1 and RG 1.183. The NRC review determined that this analysis, the assumptions and inputs are consistent with the applicable regulatory guidance.

The NRC concluded that the estimates for dose consequences of a design basis LOCA will comply with the requirements of 10 CFR 50.67 and the guidelines of Regulatory Guide 1.183 and are therefore acceptable. Per the Unit 2 FUSAR, hydrazine addition is not credited for the EPU dose assessment.

There is no reduction in a margin of safety as there is no credit taken for hydrazine to ensure containment spray iodine removal.
Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed amendment create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.

The proposed change does not alter the physical design, safety limits, or safety analysis assumptions associated with operation of the plant. Accordingly, the change does not introduce any new accident initiators, nor does it reduce or adversely affect the capabilities of any plant structure, system, or component to perform their safety function. Removal of the LCO note is appropriate because this current TS allowance could put the plant at risk for potential cavitation of the RHR pumps and voiding in the suction piping, resulting in the potential occurrence of water hammer and damage to the RHR System.

Therefore, the proposed change does not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Does the proposed amendment involve a significant reduction in a margin of safety? Response: No.

The proposed change conforms to NRC regulatory guidance regarding the content of the TSs. The proposed change does not affect the capabilities of any plant structure, system, or component to perform its associated safety function. Since the safety analysis assumptions are unaffected the associated safety margins are also not impacted. Removal of the LCO note is appropriate because the current TS requirement could put the plant at risk of damage to the RHR System and impact the LPCI function.

Therefore, the proposed change does not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee’s analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Attorney for licensee: Peter M. Class, Assistant General Counsel, Xcel Energy Services, Inc., 414 Nicolet Mall, Minneapolis, MN 55401.

NRC Branch Chief: David J. Wrona.

Southern Nuclear Operating Company, Docket Nos. 52–025 and 52–026, Vogtle Electric Generating Plant, Units 3 and 4, Burke County, Georgia

Date of amendment request: November 16, 2018. A publicly-available version is in ADAMS under Accession No. ML18320A225.

Description of amendment request: The amendment request includes a departure from information in the Updated Final Safety Analysis Report (UFSAR) Tier 2 information (which includes the plant-specific Design Control Document (DCD) Tier 2 information) and involves related changes to plant-specific Tier 1 information, with corresponding changes to the associated Combined License (COL) Appendix C information. The proposed changes would revise the routing for the passive containment cooling system associated Class 1E cables. Pursuant to the provisions of 10 CFR 52.63(b)(1), an exemption from elements of the design as certified in the 10 CFR part 52, Appendix D, design certification rule is also requested for the plant-specific DCD Tier 1 material departures.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed amendment involve a significant increase in the probability or consequences of an accident previously evaluated?
   Response: No.

The proposed routing of Class 1E cables has been found to continue to comply with divisional separation design requirements to maintain required functional capability of the safety systems for previously evaluated accidents, including the safe shutdown evaluation for a fire event. The cables continue to be qualified for the environments of the rooms through which they are proposed to be routed, and no changes are proposed to the cable design. The pertinent cables are not an initiator of any accident analyzed in Chapter 15 of the UFSAR. The changes do not involve an interface with any SSC accident initiator or initiating sequence of events, and thus, the probabilities of the accidents evaluated in the UFSAR are not affected. The proposed changes do not involve a change to any mitigation sequence or the predicted radiological releases due to postulated accident conditions, thus, the consequences of the accidents evaluated in the UFSAR are not affected.

Therefore, the proposed amendment does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed amendment create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.

The proposed routing of Class 1E cables has been found to continue to comply with divisional separation design requirements to maintain required functional capability of the safety systems for previously evaluated accidents, including the safe shutdown for a fire event. The cables continue to be qualified for the environments of the rooms through which they are proposed to be routed, and no changes are proposed to the cable design. The routing of the pertinent cables does not change the function of the related systems, and thus, the changes do not introduce a new failure mode, malfunction or sequence of events that could adversely affect safety or safety-related equipment.

Therefore, the proposed amendment does not create the possibility of a new or different kind of accident from any accident previously evaluated.

3. Does the proposed amendment involve a significant reduction in a margin of safety? Response: No.

The proposed routing of Class 1E cables has been found to continue to comply with divisional separation design requirements to maintain required functional capability of the safety systems for previously evaluated accidents, including the safe shutdown evaluation for a fire event. The cables continue to be qualified for the environments of the rooms through which they are proposed to be routed, and no changes are proposed to the cable design. The routing of the pertinent cables does not change the function of the related systems, and thus, the changes do not introduce a new failure mode, malfunction or sequence of events that could adversely affect safety or safety-related equipment.

Therefore, the proposed amendment does not create the possibility of a new or different kind of accident from any accident previously evaluated.

The NRC staff has reviewed the licensee’s analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Attorney for licensee: M. Stanford Blanton, Balch & Bingham LLP, 1710 Sixth Avenue North, Birmingham, AL 35203–2015.

NRC Branch Chief: Jennifer L. Dixon-Herrity.

STP Nuclear Operating Company, Docket Nos. 50–498 and 50–499, South Texas Project (STP), Units 1 and 2 (STP), Matagorda County, Texas

Date of amendment request: September 27, 2018. A publicly-available version is in ADAMS under Accession No. ML18270A319.

Description of amendment request: The amendment would revise the STP, Units 1 and 2, Technical Specification Surveillance Requirement 4.7.7.b, “Control Room Makeup and Cleanup Filtration System,” to operate for at least 15 continuous minutes at a frequency controlled in accordance with the Surveillance Frequency Control Program by adoption of Technical Specifications Task Force (TSTF) Traveler TSTF–522, Revision 0, “Revise Ventilation System Surveillance Frequency Control Requirements to Operate for 10 Hours per Month.” The NRC approved TSTF–
522, Revision 0, as a part of the consolidated line item improvement process on September 20, 2012 (77 FR 58421).

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the proposed change involve a significant increase in the probability or consequences of an accident previously evaluated?
   Response: No.
   The proposed change replaces an existing Surveillance Requirement to operate the Control Room Makeup and Cleanup Filtration System with electric heaters for a continuous 10 hour period at a frequency controlled in accordance with the Surveillance Frequency Control Program with a requirement to operate the system for 15 continuous minutes with the heaters operating.
   Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Does the proposed change create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.
   The proposed change replaces an existing Surveillance Requirement to operate the Control Room Makeup and Cleanup Filtration System with electric heaters for a continuous 10 hour period at a frequency controlled in accordance with the Surveillance Frequency Control Program with a requirement to operate the system for 15 continuous minutes with the heaters operating.
   Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

3. Does the proposed change involve a significant reduction in a margin of safety?
   Response: No.
   The proposed change replaces an existing Surveillance Requirement to operate the Control Room Makeup and Cleanup Filtration System with electric heaters for a continuous 10 hour period at a frequency controlled in accordance with the Surveillance Frequency Control Program with a requirement to operate the system for 15 continuous minutes with the heaters operating.
   Therefore, the proposed change does not involve a significant increase in the probability or consequences of an accident previously evaluated.

2. Do the proposed changes create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.
   The proposed change to the CPNPP Emergency Plan is administrative in nature. This proposed change does not alter accident analysis assumptions, add any initiators, or affect the performance of plant systems or the manner in which systems are operated, maintained, modified, tested, or inspected. The proposed change does not require any plant modifications which affect the performance capability of the SSCs relied upon to mitigate the consequences of postulated accidents and does not create the possibility of a new or different kind of accident from any accident previously evaluated.
   Therefore, the proposed change does not create the possibility of a new or different kind of accident from any previously evaluated.

3. Do the proposed changes involve a significant reduction in a margin of safety?
   Response: No.
   Plant safety margins are established through limiting conditions for operation, limiting safety systems settings, and safety limits specified in the technical specifications. The proposed change to the CPNPP Emergency Plan is administrative in nature. Since the proposed change is administrative in nature, there are no changes to these established safety margins. Therefore, the proposed change does not involve a significant reduction in a margin of safety.

The NRC staff has reviewed the licensee’s analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the amendment request involves no significant hazards consideration.

Basis for proposed no significant hazards consideration determination: As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Do the proposed changes involve a significant increase in the probability or consequences of an accident previously evaluated?
   Response: No.
   The proposed change to the CPNPP Emergency Plan to extend staff augmentation times and reduce the number of required Emergency Response Organization positions.

2. Do the proposed changes create the possibility of a new or different kind of accident from any accident previously evaluated?
   Response: No.
   The proposed change to the CPNPP Emergency Plan to extend staff augmentation times and reduce the number of required Emergency Response Organization positions.

3. Do the proposed changes involve a significant reduction in a margin of safety?
   Response: No.
   The proposed change to the CPNPP Emergency Plan to extend staff augmentation times and reduce the number of required Emergency Response Organization positions.

IV. Notice of Issuance of Amendments to Facility Operating Licenses and Combined Licenses

During the period since publication of the last biweekly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission’s rules and regulations in
10 CFR chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or combined license, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the Federal Register as indicated.

Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.22(b) and has made a determination based on that assessment, it is so indicated.

For further details with respect to the action see: (1) The applications for amendment, (2) the amendment, and (3) the Commission’s related letter, Safety Evaluation and/or Environmental Assessment as indicated. All of these items can be accessed as described in the “Obtaining Information and Submitting Comments” section of this document.

Exelon Generation Company, LLC, Docket No. 50–456 and 50–457, Braidwood Station, Units 1 and 2, Will County, Illinois and Docket Nos. 50–454 and 50–455, Byron Station, Unit Nos. 1 and 2, Ogle County, Illinois

Date of amendment request: April 2, 2018. A Publicly-available version is in ADAMS under Accession Nos. ML18092B081.

Brief description of amendments: The amendments revised Technical Specification 3.2.3 to require that the axial flux difference be maintained within the limits specified in the core operating limits report during MODE 1 with reactor thermal power greater than or equal to 50 percent. An associated change was also made to the NOTE modifying surveillance 3.2.3.1.

Date of issuance: December 12, 2018. Effective date: As of the date of issuance and shall be implemented within 90 days from the date of issuance.

Amendment Nos: 200, 200 (Braidwood), and 205, 205 (Byron). A publicly-available version is in ADAMS under Accession No. ML18302A227; documents related to these amendments are listed in the related Safety Evaluation enclosed with the amendments.

Renewed Facility Operating License Nos. NPF–72, NPF–77, NPF–37, and NPF–66: The amendments revised the technical specifications, the surveillance requirements and the Renewed Facility Operating Licenses.

Date of initial notice in Federal Register: June 5, 2018 (83 FR 26104).

No significant hazards consideration comments received: No.

FirstEnergy Nuclear Operating Company, Docket No. 50–440, Perry Nuclear Power Plant, Unit No. 1, Lake Country, Ohio

Date of amendment request: December 6, 2017, as supplemented by letter dated July 24, 2018.

Brief description of amendment: The amendment revised existing PNPP Unit No. 1 technical specification (TS) requirements related to “operations with a potential for draining the reactor vessel” with new requirements on reactor pressure vessel water inventory control to protect TS 2.1.1.3 Safety Limit. The revised changes are based on Technical Specifications Task Force (TSTF) traveler TSTF–542, Revision 2, “Reactor Pressure Vessel Water Inventory Control.”

Date of issuance: December 12, 2018. Effective date: As of its date of issuance, and shall be implemented within 90 days of issuance.

Amendment No.: 184. A publicly-available version is in ADAMS under Accession No. ML18292A816; documents related to this amendment are listed in the Safety Evaluation enclosed with the amendment.

Facility Operating License No. NPF–58: The amendment revised the Facility Operating License and TS.

Date of initial notice in Federal Register: January 30, 2018 (83 FR 4293).

The supplemental letter dated July 24, 2018, provided additional information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the staff’s original proposed no significant hazards consideration determination as published in the Federal Register.

The Commission’s related evaluation of the amendment is contained in a Safety Evaluation dated December 12, 2018.

No significant hazards consideration comments received: No.

Florida Power & Light Company, Docket Nos. 50–250 and 50–251, Turkey Point Nuclear Generating Unit Nos. 3 and 4, Miami-Dade County, Florida

Date of amendment request: December 23, 2014, as supplemented by letters dated June 16, and August 11, 2016; February 9, April 27, and October 30, 2017; and February 15, March 22, June 12, and September 6, 2018.

Brief description of amendments: The amendments revised the Technical Specifications (TSs) related to Completion Times for Required Actions to provide the option to calculate a longer, risk-informed completion time. A new program, the Risk-Informed Completion Time Program, was added to TS Section 6.0, “Administrative Controls.” The methodology for using the Risk-Informed Completion Time Program is described in Nuclear Energy Institute Report 06–09, “Risk-Informed Technical Specifications Initiative 4b, Risk-Managed Technical Specifications (RMTS) Guidelines,” Revision 0–A (ADAMS Accession No. ML12286A322).

Date of issuance: December 3, 2018.
Effective date: As of the date of issuance and shall be implemented within 180 days of issuance.
Amendment Nos.: 284 and 278. A publicly-available version is in ADAMS under Accession No. ML18270A429; documents related to these amendments are listed in the Safety Evaluation enclosed with the amendments.
Renewed Facility Operating License Nos. DPR—31 and DPR—41: Amendments revised the Renewed Facility Operating Licenses and TSs.
Date of initial notice in Federal Register: April 28, 2015 (80 FR 23604). The supplemental letters dated June 16, and August 11, 2016; February 9, April 27, and October 30, 2017; and February 15, March 22, June 12, and September 6, 2018, provided additional information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the staff’s original proposed no significant hazards consideration determination as published in the Federal Register.
The Commission’s related evaluation of the amendments is contained in a Safety Evaluation dated December 3, 2018.
No significant hazards consideration comments received: No.
V. Notice of Issuance of Amendments to Facility Operating Licenses and Combined Licenses and Final Determination of No Significant Hazards Consideration and Opportunity for a Hearing (Exigent Public Announcement or Emergency Circumstances)
During the period since publication of the last biweekly notice, the Commission has issued the following amendments. The Commission has determined for each of these amendments that the application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission’s rules and regulations in 10 CFR chapter I, which are set forth in the license amendment.
Because of exigent or emergency circumstances associated with the date the amendment was needed, there was not time for the Commission to publish, for public comment before issuance, its usual notice of consideration of issuance of amendment, proposed no significant hazards consideration determination, and opportunity for a hearing.
For exigent circumstances, the Commission has either issued a Federal Register notice providing opportunity for public comment or has used local media to provide notice to the public in the area surrounding a licensee’s facility of the licensee’s application and of the Commission’s proposed determination of no significant hazards consideration. The Commission has provided a reasonable opportunity for the public to comment, using its best efforts to make available to the public means of communication for the public to respond quickly, and in the case of telephone comments, the comments have been recorded or transcribed as appropriate and the licensee has been informed of the public comments. In circumstances where failure to act in a timely way would have resulted, for example, in derating or shutdown of a nuclear power plant or in prevention of either resumption of operation or of increase in power output up to the plant’s licensed power level, the Commission may not have had an opportunity to provide public comment on its no significant hazards consideration determination. In such case, the license amendment has been issued without opportunity for comment. If there has been some time for public comment but less than 30 days, the Commission may provide an opportunity for public comment. If comments have been requested, it is so stated. In either event, the State has been consulted by telephone whenever possible.
Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that no significant hazards consideration is involved.
The Commission has applied the standards of 10 CFR 50.92 and has made a final determination that the amendment involves no significant hazards consideration. The basis for this determination is contained in the documents related to this action. Accordingly, the amendments have been issued and made effective as indicated. Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment is required for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.12(b) and has made a determination based on that assessment, it is so indicated. For further details with respect to the action see: (1) The application for amendment, (2) the amendment to Facility Operating License or Combined License, as applicable, and (3) the Commission’s related letter, Safety Evaluation and/or Environmental Assessment, as indicated. All of these items can be accessed as described in the “Obtaining Information and Submitting Comments” section of this document.
A. Opportunity To Request a Hearing and Petition for Leave To Intervene
The Commission is also offering an opportunity for a hearing with respect to the issuance of the amendment. Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s website at http://www.nrc.gov/reading-rm/doc-collections/cfr/. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1–F21, 11555 Rockville Pike (First Floor), Rockville, Maryland 20852. If a petition is filed, the Commission or a presiding officer will rule on the petition and, if appropriate, a notice of a hearing will be issued.
As required by 10 CFR 2.309(d) the petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner’s right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.
In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or
controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures.

Petitions must be filed no later than 60 days from the date of publication of this notice. Petitions and motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination made by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document.

If a hearing is requested, and the Commission has not made a final determination on the issue of no significant hazards consideration, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to establish when the hearing is held. If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing would take place after issuance of the amendment. If the final determination is that the amendment request involves a significant hazards consideration, then any hearing held would take place before the issuance of the amendment unless the Commission finds an imminent danger to the health or safety of the public, in which case it will issue an appropriate order or rule under 10 CFR part 2.

A State, local governmental body, Federally-recognized Indian Tribe, or agency thereof, may submit a petition to the Commission to participate as a party under 10 CFR 2.309(b)(1). The petition should state the nature and extent of the petitioner’s interest in the proceeding. The petition should be submitted to the Commission no later than 60 days from the date of publication of this notice. The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)” section of this document, and one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(b)(2) a State, local governmental body, or Federally-recognized Indian Tribe, or agency thereof does not need to address the standing requirements in 10 CFR 309(d) if the facility is located within its boundaries. Alternatively, a State, local governmental body, Federally-recognized Indian Tribe, or agency thereof may participate as a non-party under 10 CFR 2.315(c).

If a hearing is granted, any person who is not a party to the proceeding and is not affiliated with or represented by a party may, at the discretion of the presiding officer, be permitted to make a limited appearance pursuant to the provisions of 10 CFR 2.315(a). A person making a limited appearance may make an oral or written statement of his or her position on the issues but may not otherwise participate in the proceeding. A limited appearance may be made at any session of the hearing or at any prehearing conference, subject to the limits and conditions as may be imposed by the presiding officer. Details regarding the opportunity to make a limited appearance will be provided by the presiding officer if such sessions are scheduled.

B. Electronic Submissions (E-Filing)

All documents filed in NRC adjudicatory proceedings, including a request for hearing and petition for leave to intervene (petition), any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities that request to participate under 10 CFR 2.315(c), must be filed in accordance with the NRC’s E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Detailed guidance on making electronic submissions may be found in the Guidance for Electronic Submissions to the NRC and on the NRC website at http://www.nrc.gov/site-help/e-submittals.html. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public website at http://www.nrc.gov/site-help/e-submittals/getting-started.html. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC’s public website at http://www.nrc.gov/site-help/electronic-sub-ref-mat.html. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not
serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed so that they can obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC’s adjudicatory E-Filing system may seek assistance by contacting the NRC’s Electronic Filing Help Desk through the “Contact Us” link located on the NRC’s public website at http://www.nrc.gov/site-help/e-submittals.html, by email to MSHD.Resource@nrc.gov, or by a toll-free call at 1–866–672–7640. The NRC Electronic Filing Help Desk is available between 9 a.m. and 6 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing stating why there is good cause for not filing electronically and requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, 11555 Rockville Pike, Rockville, Maryland 20852; Attention: Rulemaking and Adjudications Staff.

Participants filing adjudicatory documents in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in the NRC’s electronic hearing docket which is available to the public at https://adams.nrc.gov/ehd, unless excluded pursuant to an order of the Commission or the presiding officer. If you do not have an NRC-issued digital ID certificate as described above, click cancel when the link requests certificates and you will be automatically directed to the NRC’s electronic hearing dockets where you will be able to access any publicly available documents in a particular hearing docket. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or personal phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. For example, in some instances, individuals provide home addresses in order to demonstrate proximity to a facility or site. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submission.

Exelon Generation Company, LLC, Docket No. 50–410, Nine Mile Point Nuclear Station, Unit 2, Oswego County, New York

Date of amendment request: December 6, 2018, as supplemented by letter dated December 7, 2018. Publicly-available versions are in ADAMS under Accession Nos. ML18340A142 and ML18341A343, respectively.

Brief description of amendment: The amendment modified the Nine Mile Point Nuclear Station, Unit 2, Technical Specification 3.5.1, “ECCS [Emergency Core Cooling System]—Operating,” for a one-time extension of the high pressure core spray completion time. Specifically, the amendment revised the completion time for an inoperable high pressure core spray system from 14 days to 35 days, until the diesel engine replacement and restoration of the diesel generator is returned to operable status, not to exceed 0100 hours eastern time on December 10, 2018. Additionally, the amendment allows extending the completion of several surveillance requirements of equipment that is being protected during the replacement of the high pressure core spray diesel generator.

Date of issuance: December 9, 2018.
Effective date: December 9, 2018.
Amendment No.: 174. A publicly-available version is in ADAMS under Accession No. ML18342A015; documents related to this amendment are listed in the Safety Evaluation enclosed with the amendment.

Renewed Facility Operating License No. NPF–69: The amendment revised the Renewed Facility Operating License and Technical Specifications.

Public comments requested as to proposed no significant hazards consideration: No.

The Commission’s related evaluation of the amendments, finding of emergency circumstances, State consultation, and final no significant hazards consideration determination are contained in a Safety Evaluation dated December 9, 2018.

Attorney for licensee: Tamra Domeyer, Associate General Counsel, Exelon Generation Company, LLC, 4300 Winfield Road, Warrenville, IL 60555.

NRC Branch Chief: James G. Danna.

Dated at Rockville, Maryland, this 19th day of December, 2018.

For the Nuclear Regulatory Commission.

Craig G. Erlanger,
Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

## Federal Register

**Vol. 84, No. 1**

*Wednesday, January 2, 2019*

---

### CUSTOMER SERVICE AND INFORMATION

| General Information, indexes and other finding aids | 741–6000 |
| **Laws** | 741–6000 |
| Presidential Documents | 741–6000 |
| Executive orders and proclamations | 741–6000 |
| The United States Government Manual | 741–6000 |
| Other Services | 741–6020 |
| Electronic and on-line services (voice) | 741–6050 |

### ELECTRONIC RESEARCH

**World Wide Web**

Full text of the daily Federal Register, CFR and other publications is located at: [www.govinfo.gov](http://www.govinfo.gov).

Federal Register information and research tools, including Public Inspection List and electronic text are located at: [www.federalregister.gov](http://www.federalregister.gov).

**E-mail**

**FEDREGTOC** (Daily Federal Register Table of Contents Electronic Mailing List) is an open e-mail service that provides subscribers with a digital form of the Federal Register Table of Contents. The digital form of the Federal Register Table of Contents includes HTML and PDF links to the full text of each document.

To join or leave, go to [https://public.govdelivery.com/accounts/USGPOOFR/subscriber/new](https://public.govdelivery.com/accounts/USGPOOFR/subscriber/new), enter your email address, then follow the instructions to join, leave, or manage your subscription.

**PENS** (Public Law Electronic Notification Service) is an e-mail service that notifies subscribers of recently enacted laws.

To subscribe, go to [http://listserv.gsa.gov/archives/publaws-l.html](http://listserv.gsa.gov/archives/publaws-l.html) and select *Join or leave the list (or change settings)*; then follow the instructions.

**FEDREGTOC** and **PENS** are mailing lists only. We cannot respond to specific inquiries.

**Reference questions.** Send questions and comments about the Federal Register system to: [fedreg.info@nara.gov](mailto:fedreg.info@nara.gov)

The Federal Register staff cannot interpret specific documents or regulations.

### CFR PARTS AFFECTED DURING JANUARY

At the end of each month the Office of the Federal Register publishes separately a List of CFR Sections Affected (LSA), which lists parts and sections affected by documents published since the revision date of each title.

TABLE OF EFFECTIVE DATES AND TIME PERIODS—JANUARY 2019

This table is used by the Office of the Federal Register to compute certain dates, such as effective dates and comment deadlines, which appear in agency documents. In computing these dates, the day after publication is counted as the first day. When a date falls on a weekend or holiday, the next Federal business day is used. (See 1 CFR 18.17)

A new table will be published in the first issue of each month.
