Information; Department of the Army
Form 190–45–SG (Army Law
Enforcement Reporting and Tracking
System (ALERTS)); OMB Control
Number 0702–0128.

Type of Request: Extension.
Number of Respondents: 120.
Responses per Respondent: 1.
Annual Responses: 120.
Average Burden per Response: 20
minutes.
Annual Burden Hours: 40.

Needs and Uses:
The information
collection requirement is necessary to
obtain and record the sex offender
registration information of those sex
offenders who live, work, or go to
school on Army installations.
Respondents are any convicted sex
offender required to register pursuant to
any DoD, Army, State government, law,
regulation, or policy where they are
employed, reside, or are a student. The
information collected is used by Army
law enforcement to ensure that the sex
offender is compliant with any court
order restrictions.

Affected Public: Business or other for-
profit; not-for-profit institutions;
individuals or households.

Frequency: On occasion.

Respondent’s Obligation: Required to
obtain or retain benefits.

OMB Desk Officer: Ms. Jasmeet
Seehra.
You may also submit comments and
recommendations, identified by Docket
ID number and title, by the following
method:
• Federal eRulemaking Portal: http://
www.regulations.gov. Follow the
instructions for submitting comments.
Instructions: All submissions received
must include the agency name, Docket
ID number, and title for this Federal
Register document. The general policy
for comments and other submissions
from members of the public is to make
these submissions available for public
viewing on the internet at http://
www.regulations.gov as they are
received without change, including any
personal identifiers or contact
information.

House of Representatives, Transmittal
18–17 with attached Policy Justification.

Aaron T. Siegel,
Alternate OSD Federal Register Liaison
Officer, Department of Defense.
The Honorable Paul D. Ryan  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 18-17, concerning the Army’s proposed Letter(s) of Offer and Acceptance to the Government of Turkey for defense articles and services estimated to cost $3.5 billion. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

Charles W. Hooper  
Lieutenant General, USA  
Director

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Turkey—Patriot Missile System and Related Support and Equipment

Turkey has requested the possible sale of four (4) AN/MPQ–65 Radar Sets, four (4) Engagement Control Stations, ten (10) Antenna Mast Groups (AMGs), twenty (20) M903 Launching Stations, eighty (80) Patriot MIM–104E Guidance Enhanced Missiles (GEM–T) missiles with canisters, sixty (60) PAC–3 Missile Segment Enhancement (MSE) missiles, and five (5) Electrical Power Plant (EPP) III. Also included with this request are communications equipment, tools and test equipment, range and test programs, support equipment, prime movers, generators, publications and technical documentation, training equipment, spare and repair parts, personnel training, Technical Assistance Field Team (TAFT), U.S. Government and contractor technical, engineering, and logistics support services, Systems Integration and Checkout (SICO), field office support, and other related elements of logistics and program support. The total estimated program cost is $3.5 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a key NATO Ally on the front lines of the fight against terrorism. Turkey is a member of and critical enabling platform for the Defeat-ISIS campaign and continues to be an essential element of our National Security Strategy and National Defense Strategy efforts to compete against great powers in both Europe and the Middle East. The TPY–2 radar site that Turkey hosts is important to the European Phased Adaptive Approach and to efforts to protect Allies and partners against growing Iranian ballistic missile threats. This sale is consistent with U.S. initiatives to provide key allies with modern systems capable of being networked to defend against regional instability. The proposed sale will enhance Turkey’s interoperability with the United States and NATO, making it a more valuable partner in an increasingly important area of the world.

Turkey will use Patriot to improve its missile defense capability, defend its territorial integrity, and deter regional threats. The proposed sale will increase the defensive capabilities of the Turkey military to guard against hostile aggression and shield NATO Allies who might train and operate within Turkey’s borders. Turkey should have no difficulty absorbing this system into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region. The prime contractors will be Raytheon Corporation in Andover, Massachusetts, and Lockheed-Martin in Dallas, Texas. The purchaser requested offsets. At this time offset agreements are undetermined and will be defined in negotiations between the purchaser and contractors.

Implementation of this proposed sale will require approximately 25 U.S. Government and 40 contractor representatives to travel to Turkey for an extended period for equipment de-processing/fielding, system checkout, training, and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 18–17
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act Annex

(vii) Sensitivity of Technology:

1. The Patriot Air Defense System contains classified CONFIDENTIAL hardware components, SECRET tactical software and CRITICAL/SENSITIVE technology. Patriot ground support equipment and Patriot missile hardware contain CONFIDENTIAL components and the associated launcher hardware is UNCLASSIFIED. The items requested represent significant technological advancements in Sweden. Patriot. The Patriot Air Defense System continues to hold a significant technology lead over other surface-to-air missile systems in the world.

2. The Patriot sensitive/critical technology is primarily in the area of design and production know-how and primarily inherent in the design, development and/or manufacturing data related to certain components. The list of components is classified CONFIDENTIAL.

3. Information on system performance capabilities, effectiveness, survivability, missile seeker capabilities, select software/software documentation and test data are classified up to and including SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Turkey can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been authorized for release and export to Turkey.
