To help ensure that these statutory goals and objectives are achieved and to assist the Interagency Council in making its certification determinations, Treasury is asking applicants to include in their applications an evaluation design plan. The design plan must incorporate an evaluation methodology and evidence standards. Additionally, they must provide an estimate of the value to the federal government of the interventions being proposed in the project.

#### Independent Evaluator Reports

SIPPRA requires the federal government to complete certain project evaluation duties, including the collection from award recipients of periodic project outcome evaluation reports and final reports produced by each project's independent evaluator. SIPPRA § 1397n-4(d) and (e).

#### Use of the Data

Treasury is publishing a Notice of Funding Availability soliciting applications for projects under SIPPRA. The information collected under this NOFA: (1) Identifies eligible recipients and activities; (2) helps identify which applications sufficiently address all statutory requirements and which proposed projects are the most competitive; (3) determines the appropriate amount of funding; (4) ensures compliance with SIPPRA and Federal laws and policies on grants (*Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards 2 CFR 200, herein OMB Uniform Guidance*); (5) tracks recipients' progress; and (6) collects statutorily mandated reports prepared by recipients' contracted independent evaluators.

- The Notice of Intent is optional; it will assist Treasury and the Interagency Council in determining the number of applications to be received, and thus, enable them to conduct intake and evaluation of applications as efficiently and economically as possible.

- The application Executive Summary will assist Treasury and the Interagency Council in streamlining the processing of applications and in optimizing the eligibility phase of application review. The application Standard Forms, Project Narrative, and Project Narrative attachment components of the grant application are intended to provide Treasury with the information necessary to properly

evaluate and assess applications and to make sure applications include statutorily mandated information. Additionally, certain components of the application, and in particular, the Outcome valuation, will enable the Interagency Council to determine whether to make statutorily mandated certifications regarding the proposed projects.

- The DUNS number and the SAM registration are both required under Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) at 2 CFR part 200.

- To comply with Uniform Guidance performance and financial monitoring and reporting requirements, 2 CFR 200.327–200.329, Treasury is requiring an annual performance and financial report from grant recipients. SIPPRA requires that recipients submit progress reports prepared by an independent evaluator on a periodic basis and before the schedule time of outcome payments. SIPPRA § 1397n-4(d). SIPPRA also requires that recipients submit a final report prepared by an independent evaluator within six months of a project's completion. SIPPRA § 1397n-4(e). Per the statute, Treasury and the Interagency Council will use these reports to determine if outcome payments are warranted.

- Treasury is requiring recipients under this NOFA to comply with the Uniform Guidance's record retention requirement, 2 CFR 200.333, which requires them to maintain records for three years after grant close-out.

SIPPRA establishes a Commission on Social Impact Partnerships (Commission) whose principal obligation is to make recommendations to Treasury regarding the funding of SIPPRA demonstration project and feasibility studies. SIPPRA § 1397n-6. The Commission is subject to the provisions of the Federal Advisory Committee Act (FACA), which generally requires that documents made available to the Commission be made available for public inspection and copying. 5 U.S.C. App. 2 10(b). Treasury expects to provide to the Commission all complete applications received under this NOFA from eligible applicants and expects to make these applications available for public inspection and copying. However, FACA also provides that trade secrets and commercial or financial information that is privileged or confidential under the Freedom of Information Act (confidential business information) need not be made publicly available. 5 U.S.C. 552(b)(4). To assist Treasury in complying with FACA's public disclosure requirements while

protecting confidential business information in accordance with FACA, Treasury is requesting applicants to propose redactions of confidential business information. An applicant may omit pages for which it does not propose any redactions. Treasury will review the redactions proposed by each applicant.

Also, applicants must provide qualifications of key project personnel and partners. They may voluntarily provide curriculum vitae for key project personnel and partners, but the application does not require that personally identifiable information (PII) is collected.
