Magnesium Metal From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2017-2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that Tianjin Magnesium International, Co., Ltd. (TMI) and Tianjin Magnesium Metal, Co., Ltd. (TMM) did not have reviewable entries during the period of review (POR). We invite interested parties to comment on these preliminary results.

DATES: Applicable February 1, 2019.

FOR FURTHER INFORMATION CONTACT: Kyle Clahane, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-5449.

Background

On April 3, 2018, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on magnesium metal from China for the POR.¹ On June 6, 2018, in response to a timely request from the petitioner,² and in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the antidumping duty order on magnesium metal from China with respect to TMI and TMM.³

Scope of the Order

The product covered by this antidumping duty order is magnesium metal from China, which includes primary and secondary alloy magnesium metal, regardless of chemistry, raw material source, form, shape, or size. Magnesium is a metal or alloy containing by weight primarily the element magnesium. Primary magnesium is produced by decomposing raw materials into magnesium metal. Secondary magnesium is produced by recycling magnesium-based scrap into magnesium metal. The magnesium covered by this order includes blends of primary and secondary magnesium.

The subject merchandise includes the following alloy magnesium metal products made from primary and/or secondary magnesium including, without limitation, magnesium cast into ingots, slabs, rounds, billets, and other shapes; magnesium ground, chipped, crushed, or machined into rasping, granules, turnings, chips, powder, briquettes, and other shapes; and products that contain 50 percent or greater, but less than 99.8 percent, magnesium, by weight, and that have been entered into the United States as conforming to an “ASTM Specification for Magnesium Alloy”⁴ and are thus outside the scope of the existing antidumping orders on magnesium from China (generally referred to as “alloy” magnesium).
