

Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* National Center for College Students with Disabilities (NCCSD) Database of Disability Services and Activities in Higher Education.

*OMB Control Number:* 1840-NEW.

*Type of Review:* A new information collection.

*Respondents/Affected Public:* State, Local, and Tribal Governments; Private Sector.

*Total Estimated Number of Annual Responses:* 4,583.

*Total Estimated Number of Annual Burden Hours:* 13,749.

*Abstract:* The National Center for College Students with Disabilities (NCCSD) at the Association on Higher Education and Disability (AHEAD) is authorized by Congress in the Higher Education Opportunity Act of 2008 (§ 777.4) and was established in 2016. The NCCSD College Disability Resource Database is designed to address a gap in information about services and accessibility for college students with disabilities, who make up 11% of the undergraduate population. Existing general information about colleges is available in the Department of Education's online College Navigator and College Affordability and Transparency Center, but the only information about students with disabilities in these databases is the percentage of students registered with campus disability services offices. At this time, there are no national or federal surveys or databases that provide systematic collection of information about campus-level disability-related services, access, and activities at colleges and universities in the United States. The NCCSD survey will ask all U.S. campuses to provide basic information about disability services, accessibility of campus, and

disability-related activities that may affect inclusion and the campus climate. The data will be available to the public in an accessible and searchable database, to help prospective college students and their families make informed decisions during the college search process. Because the database will be public, researchers and policymakers will also be able to utilize the data to gather information about disability and higher education in systematic ways.
