- Background

DATES: Electronic or written comments must be received by April 8, 2019.

ADDRESSES: You may submit comments, identified by CDC–2019–0001 and docket number NIOSH–323, by any of the following methods:

- Federal eRulemaking Portal: https://www.regulations.gov Follow the instructions for submitting comments.
- Instructions: All submissions received in response to this notice must include the agency name and docket number [CDC–2019–0001; NIOSH–323]. All relevant comments received will be posted without change to https://www.regulations.gov, including any personal information provided. For access to the docket to read background documents or comments received, go to https://www.regulations.gov. All information received in response to this notice will also be available for public examination and copying at the NIOSH Docket Office, 1150 Tusculum Avenue, Room 155, Cincinnati, OH 45226–1998.

FOR FURTHER INFORMATION CONTACT: Emily Novicki (NORACoordinator@cdc.gov), National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention, Mailstop E–20, 1600 Clifton Road NE, Atlanta, GA 30329, phone (404) 498–2581 (not a toll free number).

SUPPLEMENTARY INFORMATION: The National Occupational Research Agenda (NORA) is a partnership program created to stimulate innovative research and improved workplace practices. The national agenda is developed and implemented through the NORA sector and cross-sector councils. Each council develops and maintains an agenda for its sector or cross-sector.

Background: The National Occupational Research Agenda for Hearing Loss Prevention is intended to identify the research, information, and actions most urgently needed to prevent occupational injuries. The National Occupational Research Agenda for Hearing Loss prevention provides a vehicle for stakeholders to describe the most relevant issues, gaps, and safety and health needs for the sector. Each NORA research agenda is meant to guide or promote high priority research efforts on a national level, conducted by various entities, including: Government, higher education, and the private sector.

This is the first Hearing Loss Prevention Agenda, developed for the third decade of NORA (2016–2026). It was developed considering new information about injuries and illnesses, the state of the science, and the probability that new information and approaches will make a difference. As the steward of the NORA process, NIOSH invites comments on the draft National Occupational Research Agenda for Hearing Loss Prevention. Comments expressing support or with specific recommendations to improve the Agenda are requested. A copy of the draft Agenda is available at https://www.regulations.gov (see Docket Number CDC–2019–0001).

John J. Howard,
Director, National Institute for Occupational Safety and Health, Centers for Disease Control and Prevention.
