India. The Commission also determines that an industry in the United States is threatened with material injury by reason of LTFV imports of carbon and alloy (other than stainless) steel large diameter welded line pipe from China. Further, the Commission terminates the countervailing duty investigation on carbon and alloy (other than stainless) steel large diameter welded line pipe from China.

The Commission also determines that an industry in the United States is materially injured by reason of imports of carbon and alloy (other than stainless) steel large diameter welded structural pipe from China provided for in subheadings 7305.31.40, 7305.31.60, 7305.39.10, and 7305.39.50 of the HTS that have been found by Commerce to be sold in the United States at LTFV and subsidized by the government of China. In addition, the Commission terminates the antidumping and countervailing duty investigations on carbon and alloy (other than stainless) steel large diameter welded structural pipe from India.

Finally, the Commission determines that an industry in the United States is not materially injured or threatened with material injury by reason of imports of stainless steel large diameter welded pipe from China and India provided for in subheading 7305.31.60 of the HTSUS, that have been found by Commerce to be sold in the United States at LTFV, and to be subsidized by the governments of China and India.
